Adams, 2014-07-15 Although much has been written about how the novel relates to the epic the drama or autobiography no

one has clearly analyzed the complex connections between prose fiction as it evolved before 1800 and the literature of travel which by that date had a long and colorful history Percy Adams skilfully portrays the emergence of the novel in the fiction of the seventeenth and eighteenth centuries and traces in rich detail the history of travel literature from its beginnings to the time of James Cook contemporary of Richardson and Fielding And since the recit de voyage and the novel were then so international he deals throughout with all the literatures of Western Europe one of the book's chief themes being the close literary ties among European nations Equally important in the present study is its demonstration that just as early travel accounts were often a combination of reporting and fabrication so prose fiction is not a dichotomy to be divided into the adult novel on the one hand and the childish romance on the other but an ambivalence the marriage of realism and romanticism Travel Literature and the Evolution of the Novel not only shows the novel to be amorphous and changing it also proves impossible the task of defining the recit de voyage with its thousand forms and faces Often the two types of literature are almost indistinguishable even before Don Quixote Adams writes many travel accounts could have been advertised as having the endless fascination of a wonderfully observed novel This study by Percy Adams will both modify opinions about the novel and its history and provide an excellent introduction to the travel account a form of literature too little known to students of belles lettres

Mendacity in Early Modern Literature and Culture Ingo Berensmeyer, Andrew Hadfield, 2018-02-02 Mendacity in Early Modern Literature and Culture examines the historical cultural and epistemological underpinnings of lying and deception in early modern England including the political religious aesthetic and philosophical discourses that governed the codes of lying and truth telling from the sixteenth to the early eighteenth centuries The contributions to this collection draw on a wide range of early modern English literature from Shakespeare to Swift and from travel writing to poetry in order to explore the extent to which plays poems and narrative texts in this period were sites of negotiation and at times of ideological warfare between the moral imperative of truth telling and the expediency of telling lies What were the cultural norms of truthfulness and lying and on what basis were they constructed What were the consequences when someone did not share the assumed common project of truth telling And which forms of communication were exempt from the pragmatic strictures on mendacious discourse This book was originally published as a special issue of the European Journal of English Studies

Slavery and Augustan Literature Dr J Richardson, 2004-06-01 Slavery and Augustan Literature investigates slavery in the work of Jonathan Swift Alexander Pope and John Gay These three writers were connected with a Tory ministry which attempted to increase substantially the English share of the international slave trade They all wrote in support of the treaty that was meant to effect that increase The book begins with contemporary ideas about slavery with the Tory ministry years and with texts written during those years These texts tend to obscure the importance of the slave trade to Tory planning In its second half the book analyses the attitudes towards slavery in Pope's Horatian poems An Essay on Man Polly A Modest Proposal and Gulliver's Travels John Richardson shows how despite differences Swift Pope and Gay adopt a mixed position of admiration for freedom alongside implicit support for slavery

, A Short Media History of English Literature Ingo Berensmeyer, 2022-08-01 This book explores the history of literature as a history of changing media and modes of communication from manuscript to print from the codex to the computer and from paper to digital platforms It argues that literature has evolved and continues to evolve in sync with material forms and formats that engage our senses in multiple ways Because literary experiences are embedded in and enabled by media the book focuses on literature as a changing combination of material and immaterial features The principal agents of this history are no longer genres authors and texts but configurations of media and technologies In telling the story of these combinations from prehistory to the present Ingo Berensmeyer distinguishes between three successive dominants of media usage that have shaped literary history performance representation and connection Using English literature as a test case for a long view of media history this book combines an unusual bird's eye view across periods with illuminating readings of key texts It will prove an invaluable resource for teaching and for independent study in English or comparative literature and media studies

The Rhetoric of Diversion in English Literature and Culture, 1690-1760 Darryl P. Domingo, 2016-03-29 Why did eighteenth century writers employ digression as a literary form of diversion and how did their readers come to enjoy linguistic and textual devices that self consciously disrupt the reading experience Darryl P Domingo answers these questions through an examination of the formative period in the commercialization of leisure in England and the coincidental coming of age of literary self consciousness in works published between approximately 1690 and 1760 During this period commercial entertainers tested out new ways of gratifying a public increasingly eager for amusement while professional writers explored the rhetorical possibilities of intrusion obstruction and interruption through their characteristic use of devices like digression

Such devices adopt similar forms and fulfil similar functions in literature as do diversions in culture they unbend the mind and reveal the complex reciprocity between commercialized leisure and commercial literature in the age of Swift Pope and Fielding

A History of Food in Literature Charlotte Boyce, Joan Fitzpatrick, 2017-05-18
