Handbook On The Economics Of Conflict Elgar Original Reference:

Handbook on the Economics of Conflict Derek L. Braddon, Keith Hartley, 2011-01-01 The Handbook on the Economics of Conflict conveys how economics can contribute to the understanding of conflict in its various dimensions embracing world wars regional conflicts terrorism and the role of peacekeeping in conflict prevention The economics of conflict is a relatively new branch of the discipline of economics Conflict provides opportunities for applying game theory involving strategic behaviour interactions and interdependence between adversaries The Handbook demonstrates that conflict and its prevention is costly it considers new dimensions such as ethnic cleansing destructive power terrorism corruption the impact of new technology peacekeeping the role of economists in defence ministries and the use of private contractors in conflict **The Handbook on the Political Economy of War** Christopher J. Coyne, Rachel L. Mathers, 2011-01-01 The Handbook on the Political Economy of War highlights and explores important research questions and discusses the core elements of the political economy of war **Trust, Control, and the Economics of Governance** Philipp Herold, 2019-06-05 In today's world we cooperate across legal and cultural systems in order to create value However this increases volatility uncertainty complexity and ambiguity as challenges for societies politics and business This has made governance a scarce resource It thus is inevitable that we understand the means of governance available to us and are able to economize on them Trends like the increasing role of product labels and a certification industry as well as political movements towards nationalism and conservatism may be seen as reaction to disappointments from excessive cooperation To avoid failures of cooperation governance is important control through e.g. contracts is limited and in governance economics trust is widely advertised without much guidance on its preconditions or limits This book draws on the rich insight from research on trust and control and accommodates the key results for governance considerations in an institutional economics framework It provides a view on the limits of cooperation from the required degree of governance which can be achieved through extrinsic motivation or building on intrinsic motivation Trust Control Economics thus inform a more realistic expectation about the net value added from cooperation by providing a balanced view including the cost of governance It then becomes clear how complex cooperation is about governance accretion where limited trustworthiness is substituted by control and these control instances need to be governed in turn Trust Control and the Economics of Governance is a highly necessary development of institutional economics to reflect progress made in trust research and is a relevant addition for practitioners to better understand the role of trust in the governance of contemporary cooperation structures It will be of interest to researchers academics and students in the fields of economics and business management institutional economics and business ethics Note that this work is the first of its kind that explicitly reflects on the societal realities how these drive the assumption setting process and how these assumptions influence the theory outcome *Institutionalist Perspectives on Development* Spyros Vliamos, Michel S. Zouboulakis, 2018-10-31 This book depicts the role of both formal and informal institutions in

achieving long term economic efficiency and development It is organized into three sections the first section deals with the historical and political roots that make institutions favorable to development the second section offers theoretical perceptions of immaterial institutions the last section explores how the various official institutions such as international organizations interrelate with the process of development As both the recent global financial crisis and the subsequent sovereign debt crisis within the Eurozone have shown sustainable development is a combination of human social and institutional factors that interact with each other and go beyond the strictly economic conditions of each country With contributions from several countries in Europe as well as Iran this volume offers readers an international and multidisciplinary perspective of the institutional determinants of growth in the long run

Research Handbook on Economic Sanctions van Bergeijk, Peter A.G.,2021-12-10 Peter van Bergeijk brings together 40 leading experts from all continents to analyze state of the art data covering the sharp increase in smart sanctions in the last decade Original chapters provide detailed analyses on the determinants of sanction success and failure complemented with research on the impact of sanctions

Handbook of Research on Employee Voice Adrian Wilkinson,Jimmy Donaghey,Tony Dundon,Richard B Freeman,2014-04-25 The contributors are all expert in their field The book examines the theory and history of employee voice and what voice means to various actors including employers middle managers employees unions and policy makers The authors observe how these

The Oxford Handbook of Austrian Economics Peter J. Boettke,Christopher J. Coyne,2015-09-01 The Austrian School of Economics is an intellectual tradition in economics and political economy dating back to Carl Menger in the late 19th century Menger stressed the subjective nature of value in the individual decision calculus Individual choices are indeed made on the margin but the evaluations of rank ordering of ends sought in the act of choice are subjective to individual chooser For Menger the economic calculus was about scarce means being deployed to pursue an individual s highest valued ends The act of choice is guided by subjective assessments of the individual and is open ended as the individual is constantly discovering what ends to pursue and learning the most effective way to use the means available to satisfy those ends This school of economic thinking spread outside of Austria to the rest of Europe and the United States in the early 20th century and continued to develop and gain followers establishing itself as a major stream of heterodox economics The Oxford Handbook of Austrian Economics provides an overview of this school and its theories The various contributions discussed in this book all reflect a tension between the Austrian School s orthodox argumentative structure rational choice and invisible hand and its addressing of a heterodox problem situations uncertainty differential knowledge ceaseless change The Austrian economists from the founders to today seek to derive the invisible hand theorem from the rational choice postulate via institutional analysis in a persistent and consistent manner Scholars and students working in the field of History of Economic Thought those following heterodox approaches and those both familiar with the Austrian School or looking to learn more will find much to learn in this comprehensive volume

Abstracts of Public Administration, Development, and Environment

,2008 International Handbook on the Economics of Migration Amelie F. Constant,Klaus F. Zimmermann,2013-09-30 This is an extremely impressive volume which guides readers into thinking about migration in new ways In its various chapters international experts examine contemporary migration issues through a multitude of lenses ranging from child labor human t

Anti-Cartel Enforcement in a Contemporary Age Caron Beaton-Wells,Christopher Tran,2015-09-24 Leniency policies are seen as a revolution in contemporary anti cartel law enforcement Unique to competition law these policies are regarded as essential to detecting punishing and deterring business collusion conduct that subverts competition at national and global levels Featuring contributions from leading scholars practitioners and enforcers from around the world this book probes the almost universal adoption and zealous defence of leniency policies by many competition authorities and others It charts the origins of and impetuses for the leniency movement captures key insights from academic research and practical experience relating to the operation and effectiveness of leniency policies and examines leniency from the perspectives of corporate and individual applicants advisers and authorities The book also explores debates surrounding the intersections between leniency and other crucial elements of the enforcement system such as compensation compliance and criminalisation The rich critical analysis in the book draws on the disciplines of law regulation economics and criminology It makes a substantial and distinctive contribution to the literature on a topic that is highly significant to a wide range of actors in the field of competition law and business regulation generally From the Foreword by Professor Fr d ric Jenny fundamental questions are raised and thoroughly discussed in this book which is undoubtedly the most comprehensive scholarly work on leniency policies produced so far the book should be required reading for all seeking to acquire a deeper insight into the issues related to leniency policy It is a priceless contribution

Encyclopedia of Sustainable Management Samuel Idowu,René Schmidpeter,Nicholas Capaldi,Liangrong Zu,Mara Del Baldo,Rute Abreu,2023-11-21 This encyclopedia is the most comprehensive and up to date source of reference for sustainability in business and management It covers both traditional and emerging concepts and terms and is fully international in its scope More than 700 contributions of internationally renowned experts provide a definitive access to the knowledge in the area of sustainable and responsible management All actors in the field will find reliable and up to date definitions and explanations of the key terms and concepts of management in this reference work The Encyclopedia of Sustainable Management represents all aspects of management and business conduct It takes sustainability as a management concept that gives due credit to the complexity and diverging constraints in which businesses and corporations act today and it emphasizes and focuses approaches that help ensure that today s management decisions and actions will be the basis for tomorrow s prosperity

organizations and discussion of current issues and future directions

Research Handbook on the Economics of

Property Law Kenneth Ayotte, Henry E. Smith, 2011-01-01 Leading scholars in the field of law and economics contribute their original theoretical and empirical research to this major Handbook Each chapter analyzes the basic architecture and important features of the institutions of property law from an economic point of view while also providing an introduction to the issues and literature Property rights and property systems vary along a large number of dimensions and economics has proven very conducive to analyzing these patterns and even the nature of property itself The contributions found here lend fresh perspectives to the current body of literature examining topics including initial acquisition the commons anticommons and semicommons intellectual property public rights abandonment and destruction standardization of property property and firms marital property bankruptcy as property titling systems land surveying covenants nuisance the political economy of property and takings The contributors employ a variety of methods and perspectives demonstrating the fruitfulness of economic modeling empirical methods and institutional analysis for the study of both new and familiar problems in property Legal scholars economists and other social scientists interested in property will find this Handbook an often referenced addition to their libraries

On the Legacy of Lutheranism in Finland

Kaius Sinnemäki, Anneli Portman, Jouni Tilli, Robert H. Nelson, 2019-12-10 This volume analyses the societal legacy of Lutheranism in Finland in broad terms It contributes to the recent renewed interest in the history of religion in Finland and the Nordic countries by bringing together researchers in history political science economics social psychology education linguistics media studies and theology to examine the mutual relationship between Lutheranism and society in Finland The two main foci are i the historical effects of the Reformation and its aftermath on societal structures and on national identity values linguistic culture education and the economy and ii the adaptation of the church and its theology to changes in the geo political and sociocultural context Important sub themes include nationalism and religion the secularization and institutionalization of traditional values multiple Protestant ethics and long continuities in history Overall the book argues that large changes in societies cannot be explained via secular factors alone such as economic development or urbanization but that factors pertaining to religion provide substantial explanatory power for understanding societal change and the resulting societal structures

Handbook on the Economics of the Internet Johannes M. Bauer, Michael Latzer, 2016-05-27 The Internet is connecting an increasing number of individuals organizations and devices into global networks of information flows It is accelerating the dynamics of innovation in the digital economy affecting the nature and intensity of competition and enabling private companies governments and the non profit sector to develop new business models In this new ecosystem many of the theoretical assumptions and historical observations upon which economics rests are altered and need critical reassessment

Handbook on the EU and International Trade Sangeeta Khorana, María García, 2018-08-31 The Handbook on the EU and International Trade presents a multidisciplinary overview of the major perspectives actors and issues in contemporary

EU trade relations Changes in institutional dynamics Brexit the politicisation of trade competing foreign policy agendas and adaptation to trade patterns of value chains and the digital and knowledge economy are reshaping the European Union's trade policy The authors tackle how these challenges frame the aims processes and effectiveness of trade policy making in the context of the EU's trade relations with developed developing and emerging states in the global economy **Handbook of Comparative Political Economy** Marino Regini, 2025-08-11 This comprehensive Handbook presents an overview of the evolution and current state of Comparative Political Economy CPE Taking an interdisciplinary approach it explores the leading theories main actors key institutions policy areas geographical boundaries and emerging themes in the field

Handbook on the Economics of Philanthropy, Reciprocity and Social Enterprise Stefano Zamagni, Luigino Bruni, 2013-01-01 The recent era of economic turbulence has generated a growing enthusiasm for an increase in new and original economic insights based around the concepts of reciprocity and social enterprise This stimulating and thought provoking Handbook not only encourages and supports this growth but also emphasises and expands upon new topics and issues within the economics discourse Original contributions from key international experts acknowledge and illustrate that markets and firms can be civilizing forces when and if they are understood as expressions of cooperation and civil virtues They provide an illuminating discourse on a wide range of topics including reciprocity gifts and the civil economy which are especially relevant in times of crisis for financial capitalism The Handbook questions the current phase of the market economy that arises from a state of anthropological pessimism Such anthropological cynicism is one of the foundations of the contemporary economic system that is challenged by the contributors This highly original and interdisciplinary Handbook will provide a fascinating read for academics researchers and students across a wide range of fields including economics public sector economics public policy and social policy **Research Handbook on the Economics of Intellectual**

Property Law Ben Depoorter, Peter Menell, David Schwartz, 2019 Both law and economics and intellectual property law have expanded dramatically in tandem over recent decades This field defining two volume Handbook featuring the leading legal empirical and law and economics scholars studying intellectual property rights provides wide ranging and in depth analysis both of the economic theory underpinning intellectual property law and the use of analytical methods to study it
