Grief And Loss Theories And Skills For Helping Professionals:

Grief and Loss Katherine Walsh, 2021-11-16 Loss is a part of every life and grief related to loss is inescapable. It can result in distress that impacts work, learning, rehabilitation, spiritual beliefs, social relationships, health, mental health, and well-being. Helping professionals who encounter grief reactions in multiple settings are often not trained to identify and respond to the many complex grief-related problems of clients. The content is designed for students and professionals who find themselves working in proximity to loss, trauma, and grief in various capacities: educator, advocate, case manager, counselor, mental health, and health care provider, and more. The work is vitally important, and the rewards for helping others cope with grief and loss are substantial.
