Images of Adventure James A. Rushing, Jr., 2016-11-11 Modern audiences are most likely to encounter Yvain and other Arthurian characters in literature We read Chr tien de Troyes s Yvain or Hartmann von Aue s Iwein and easily slip into the assumption that during the Middle Ages the title character existed primarily or even exclusively in these canonical texts James A Rushing Jr contends however that many times the number of people who heard or read Chr tien or Hartmann must have known the Ywain story through the varieties of second hand narration hearsay and conversation that we may call secondary orality And many other people would have known the story through its visual representations Exploring the complex relationships between literature and the visual arts in the Middle Ages *Images of Adventure Yvain in the Visual Arts* examines pictorial representations of the story of Yvain knight of the Round Table from the thirteenth through the fifteenth centuries Of the images Rushing studies only those found in the manuscripts of Chr tien s Yvain are placed in any obvious relation with a written text and not even they can be construed as straightforward illustrations Images of Yvain are presented without any textual anchor in the thirteenth century wall paintings from Schmalkalden in eastern Germany and Rodeneck Castle in the South Tyrol on the rich embroidery sewn in the fourteenth century for the patrician Malterer family of Freiburg and in a group of English misericords that show Yvain caught in a moment of high adventure and perhaps comic embarrassment Pictures according to Pope Gregory the Great are the literature of the laity Navigating between the traditional disciplines of literary study and art history *Images of Adventure*

offers at once a detailed catalog of Ywain images a series of close readings of works of art and a concrete sense of what Gregory's oft quoted statement may actually have meant in practice *Bild und Text auf römischen Mosaiken* Claudia Schmieder, 2022-03-21 In der intensiven Nutzung der Kombination von Bild und Text liegt eine zentrale Innovation römischer Mosaiken des 3 bis 5 Jhs Dabei werden die beiden Teilmedien genutzt um Themen des Alltags aber auch außergewöhnliche Ereignisse und kulturelle Bestände in den sozialen Räumen der Auftraggeber neu zu inszenieren Die vorliegende Monographie legt erstmals eine umfassende Analyse der komplexen medialen Konfiguration dieser Kunstwerke vor In Absetzung von bisherigen Ansätzen die in den textuellen Anteilen lediglich das Potenzial einer Erklärung der Bilder sahen wird ein Zugriff gewährt der beide Medien als potenziell gleichberechtigt betrachtet Dieser Zugriff erlaubt es den Mosaiken von Seiten der Auftraggeber eingegebene Diskursangebote zu evaluieren die sich in einem Spannungsfeld zwischen Engherung und Erweiterung einer sozialen Kommunikation bewegen Dabei werden die neuen Einsichten für eine Bearbeitung des Materials fruchtbar gemacht welche die kommunikativen Strategien der Mosaiken innerhalb ihres räumlichen Kontexts aber auch vor ihrem sozialen und kulturellen Hintergrund offenlegt **Classics in Translation, Volume II** Paul L. MacKendrick, Herbert M. Howe, 2012-11 Here translated into modern idiom are many works of the authors whose ideas have constituted the mainstream of classical thought This volume of new translations was born of necessity to answer the needs of a course in Greek and Roman culture offered by the Department of Integrated Liberal Studies at the University of Wisconsin *The Worlds of Classical Chinese Aesthetics* Paul R. Goldin, 2024-03-12 This book presents the foundations of classical Chinese aesthetic discourse roughly from the Bronze Age to the early Middle Ages with the following animating questions What is art Why do we produce it How do we judge it The arts that garnered the most theoretical attention during this time period were music poetry calligraphy and painting and this book considers the reasons why these four were privileged Whereas modern artists most likely consider themselves musicians or poets or calligraphers or painters or sculptors or architects the premodern authors who produced the literature that established Chinese aesthetics prided themselves on being wenren cultured people conversant with all forms of art and learning Other comparisons with Western theories and works of art are presented at due junctures Key Features Addresses Chinese aesthetic discourse on its own terms Provides comparisons of key concepts and theories with examples from Western sources Includes more coverage of primary sources than any other English language book on the subject Each chapter opens with a helpful summary highlighting the chapter's key themes British Books in Print, 1985 **The Classical Weekly**, 1912 **Books in Series, 1876-1949** R.R. Bowker Company, 1982 **The Classical World**, 1910 *Classical Weekly*, 1912 **THE COLLECTED WORKS OF C. G. JUNG: Symbols of Transformation (Volume 5)** C.G. Jung, 2014-12-05 In 1911 Jung published a book of which he says it laid down a programme to be followed for the next few decades of my life It was vastly erudite and covered innumerable fields of study psychiatry psychoanalysis ethnology and comparative religion amongst others In due course it became a standard work and

was translated into French Dutch and Italian as well as English in which language it was given the well known but somewhat misleading title of *The Psychology of the Unconscious* In the Foreword to the present revised edition which first appeared in 1956 Jung says it was the explosion of all those psychic contents which could find no room no breathing space in the constricting atmosphere of Freudian psychology It was an attempt only partially successful to create a wider setting for medical psychology and to bring the whole of the psychic phenomena within its purview For this edition appearing ten years after the first bibliographical citations and entries have been revised in the light of subsequent publications in the *Collected Works* and in the standard edition of Freud's works some translations have been substituted in quotations and other essential corrections have been made but there have been no changes of substance in the text

Books in Series, 1876-1949: Titles, 1982 **The Intercultural Weaving of Historical Texts** Nicolas Standaert, 2016-05-18 The European view on history was shaken to its foundations when missionaries in the seventeenth and eighteenth centuries discovered that Chinese history was older than European and Biblical history With an analysis of the Chinese Manchu and European sources on ancient Chinese history this essay proposes an early case of intercultural historiography in which historical texts of different cultures are interwoven It focusses on the ways Chinese and European authors interpreted stories about marvellous births by the concubines of Emperor Ku These stories have been the object of a wide variety of interpretations in Chinese texts each of them representing a different historical genre They are excellent case studies to illustrate how the Chinese hermeneutic strategies shaped the diversity of interpretations given by Europeans

however began his posthumous life a life of great influence and fame leaving its mark on aU eras of the history of European learning lasting until present times Plato s philosophy has taken root earlier or later in innumerable souls of others it has matured and given birth to new ideas whose proliferation further disseminated the vital force of the original thoughts It happened sometimes of course that by various interpretations different and sometimes altogether contradictory thoughts were deduced from one and the same Platonic doctrine this possibility is also characteristic of Plato s genius Even though in the history of Platonism there were times less active and creative the continuity of its tradition has never been completely interrupted and where there was no growth and progress at least that what had been once accepted has been kept alive When enquiring into Plato s influence on the development of learning we shall above all consider the individual approach of various personalities to Plato s philosophy personal Platonism which at its best concerns itself with the literary heritage of Plato and though accessible was not always much sought for British Books ,1910 Classics in Translation: Latin literature.
