Scott Howard, 2016-04-15 The first edited collection of scholarly essays to focus exclusively on An Collins this volume examines the significance of an important religious and political poet from seventeenth century England The book celebrates Collins's writing within her own time and ours through a comprehensive assessment of her poetics literary religious and political contexts critical reception and scholarly tradition *An Collins and the Historical Imagination* engages with the complete arc of research and interpretation concerning Collins's poetry from 1653 to the present The volume defines the

center and circumference of Collins scholarship for twenty first century readers The book s thematically linked chapters and appendices provide a multifaceted investigation of An Collins s writing religious and political milieu and literary legacy within her time and ours

The Environmental Imagination Lawrence Buell,1996-09-01 With Thoreau s Walden as a touchstone Buell offers an account of environmental perception the place of nature in the history of Western thought and the consequences for literary scholarship of attempting to imagine a more ecocentric way of being In doing so he provides a profound rethinking of our literary and cultural reflections on nature

Love's Shadow Paul A. Bové,2021-01-12 A case for literary critics and other humanists to stop wallowing in their aestheticized helplessness and instead turn to poetry comedy and love Literary criticism is an agent of despair and its poster child is Walter Benjamin Critics have spent decades stewing in his melancholy What if instead we dared to love poetry to choose comedy over Hamlet s tragedy or to pursue romance over Benjamin s suicide on the edge of France of Europe and of civilization itself Paul A Bov challenges young lit critters to throw away their shades and let the sun shine in Love s Shadow is his three step manifesto for a new literary criticism that risks sentimentality and melodrama and eschews self consciousness The first step is to choose poetry There has been since the time of Plato a battle between philosophy and poetry Philosophy has championed misogyny while poetry has championed women like Shakespeare s Rosalind Philosophy is ever so stringent try instead the sober cheerfulness of Wallace Stevens Bov s second step is to choose the essay He praises Benjamin s great friend and sometime antagonist Theodor Adorno who gloried in writing essays not dissertations and treatises The third step is to choose love If you want a Baroque hero make that hero Rembrandt who brought lovers to life in his paintings Putting aside passivity and cynicism would amount to a revolution in literary studies Bov seeks nothing less and he has a program for achieving it

Honor and Political Imagination Smita A. Rahman,2024-11-26 In Honor and Political Imagination Smita A Rahman reckons with the enduring power of honor in contemporary political and popular culture and the desire for heroism that accompanies it while attending to the dangers that such a desire brings Rahman argues that while there may be a place for honor in the political imagination it remains a contested and complicated one Including close readings of honor in popular culture Rahman explores the tragic cost of the pursuit of honor but also underlines its ability to inspire heroic political action

Late Stevens B. J. Leggett,2005-07 If one no longer believes in God as truth Wallace Stevens once wrote it is not possible merely to disbelieve it becomes necessary to believe in something else I say that one s final belief must be in a fiction Stevens addressed the concept of a supreme fiction throughout much of his career but many critics feel that his poems never realized that concept beyond a theoretical possibility B J Leggett argues that Stevens did indeed achieve the supreme fiction in his often overlooked late poems To share in the poet s vision though Leggett finds that readers must understand the ingenious intertext that runs through this culminating body of work After three volumes of difficult and abstract poetry Stevens in the last five years of his life reverted to a style that is refreshingly personal and accessible Leggett gives close examination to The Rock which is the closing

section of Stevens's Collected Poems and to the uncollected poems published as *Opus Posthumous* supplying readers with the motifs conventions texts and fictions or intertext on which these works significance depends He ultimately shows that there is a kind of master narrative in Stevens's late poems one that is not always explicitly present but that is based on the supreme fiction It is here that Stevens gives form to his belief Leggett traces the development of this fiction and demonstrates how knowledge of its presence dramatically changes the reading of key poems His discussion of Schopenhauer's influence on Stevens together with rich analyses of major poems challenges to conventional interpretations and speculation on the direction Stevens's poetry might have taken had he lived longer all make for provocative reading Late Stevens is a book for anyone who thought they knew this poet

Historicizing the Embodied Imagination in Early Modern English Literature Mark Kaethler, Grant Williams, 2024-07-07 Commonly used as a rallying cry for general approaches to literary studies the imagination has until recently been overwritten with romantic and modernist inflections that impede our understanding of literature's intimate involvement in early modern cognition To recover the pre Cartesian imagination this collection of essays takes a historicist approach by situating literary texts within the embodied and ensouled faculty system Image making and fantasizing were not autonomous activities but belonged to a greater cognitive ecosystem which the volume's four sections reflect The Visual Imagination Sensory and Affective Imaginings Artifice and the Mnemonic Imagination and Higher Imaginings Together they accentuate the imagination's interdependency and friction with other faculties Ultimately the volume's attention to the embodied imagination gives scholars new perspectives on literary and image production in the writings of Spenser Shakespeare Donne and their contemporaries

The Weather in the Imagination Lucian Boia, 2005 The weather has always been a topic of conversation it is probably the most common dialogue between human beings We often fear the weather yet out apparent dread of it is puzzling since we generally adapt to it remarkably well The Weather in the Imagination investigates the theories scenarios and psychoses caused by climate These fall into three main categories anthropological and psychological historical and catastrophic The weather has long served as a means of explaining human diversity other people are different because they live under different skies Climate has also been used to explain the dynamic of the historical process the rise of certain civilizations and the stagnation and regression of others Catastrophe is also invoked in theories of the weather what could destroy a civilization or arouse the fear of humanity's total extinction more effectively than a climatic disaster The prototype of this kind of upheaval is the pre biblical Flood one of the most gripping and influential myths the human imagination has ever produced Lucian Boia does not take sides in the current debates about climate he does not exaggerate or play down global warming and its consequences or try to forecast the weather of the future What he does tell is a story that runs parallel with the true story of climate and its future the story of a human imagination that has been stimulated baffled infuriated and from time to time terrified by the weather Blackwells
