

ACCESSING and USING **iMANAGE**

The iManage integration with First Legal's eFiling portal, First Connect, streamlines the movement of documents for eFiling orders between the two systems.

WHAT IS iMANAGE?

iManage is a Document Management System (DMS) that helps Law Firms manage all the documents created and used by the firm. It provides document version control, access control, collaboration, and many other features. Their website is: <https://imanager.com/>

KEY BENEFITS

The integration streamlines the movement of documents in two ways:

- ▶ When placing an eFiling order, documents can be loaded into the portal workflow directly from iManage. This saves time by eliminating the need to download a document from iManage to the local computer first before uploading it to the portal.
- ▶ When an eFiling order is completed by the court clerk, returned documents are automatically saved into the iManage system in the proper Client and Matter folder.
