Corporate Social Responsibility and Sustainability Katarzyna Bachnik, Magdalena Kaźmierczak, Magdalena Rojek-Nowosielska, Magdalena Stefańska, Justyna Szumniak-Samolej, 2022-06-07 The aim of this book is to present selected theoretical and practical aspects of corporate social responsibility and sustainability with particular emphasis on the journey transition from values to impact. Values play an important role in the business world and they shape the responsible approach of organizations. However, pressing and still unresolved challenges of the present day show evidently that there exist significant discrepancies between organizations' declarations on values and their real impact. COVID-19 pandemic, globalization, climate catastrophe and challenges emphasized by SDGs constitute the new environment that contemporary organizations face. In effect, business is part of the problem and a solution as well. It is necessary to quickly and effectively push for action, taking into account the power of responsible business to co-create human life and environment. Both the theoretical considerations and the practice-based studies presented in this monograph make a significant contribution to the theory and practice of management. The book is an extension and enrichment of the existing knowledge in the field of socially responsible management in organizations. Corporate Social Responsibility and Sustainability will be of value to academics, researchers and advanced students in the fields of business and management, especially those interested in the intersection of management and CSR and sustainability and those focusing on the impact that business activities have on the environment.
