Obama's True Legacy Jamie Glazov,2023-05-15 The Biden administration may go down in history as the most disastrous presidency in American history It did not however spring up out of nothing The Biden era s America Last economically and socially destructive policies virtually all originated in the Obama administration The Biden team of course is made up of numerous Obama holdovers and there is widespread suspicion that the man who is really pulling the strings for Biden is none other than Barack Obama himself Barack Obama s True Legacy details just how bad the Obama years really were for America and Americans and shows how the country is now suffering from a resurgence of these sinister policies after the four year respite of the Trump administration The book is a collection of new original non published essays written by an organized group of prominent conservative intellectuals on how Obama transformed America documenting the suppressed

details of how the ex president was and still is a major national security threat to America Barack Obama's True Legacy is a one volume guide to how the Democrat Party went so drastically wrong and why it is such a dangerous and catastrophic force in the White House and the country at large today It all goes back to one man Barack Hussein Obama **Benghazi, The Cover-up** Dan Butterfield,2023-08-17 The 2012 assault on the U S consulate in Benghazi Libya was a premeditated 9 11 inspired terrorist attack Sadly until now it's never been recognized as one More troubling the Benghazi cover up may well be at the center of the Obama CIA's claim of Russian Interference in the 2016 U S Presidential election as well as the driving factor in the FBI launching its Russia Probe during the height of the 2016 general election On 9 11 2012 the U S consulate in Benghazi Libya was attacked The U S Intelligence Community identified the assailants as the terrorist group Ansar Al Sharia The most plausible explanation for the 2012 assault It was a planned 9 11 inspired terrorist attack but that wasn't the conclusion reached by the CIA and President Obama Occam's Razor is a philosophy of assessing issues predicated on the principles of plausibility The philosophy can be summed up with the following statement Among competing hypotheses the one with the fewest assumptions is likely the right one In other words In the American Southwest if one hears hoof beats think horses not zebras Instead the CIA and President Obama ignored obvious facts reaching for the dubious explanation The Benghazi attack was the result of an obscure video Innocence of Muslims released over the internet One must ask Why was the most plausible hypothesis horses bypassed in favor of an unsupportive theory zebras involving an obscure video where there was no evidence it had even been viewed by the Benghazi attackers Was there an ulterior motive Did the 2012 Presidential election play a role in the CIA's assessment Was the Benghazi cover up an Act of Treason on the part of President Obama and the CIA What were President Obama and the CIA trying to hide Benghazi takes a deep look at the facts and myths surrounding the 9 11 2012 terrorist attack in Benghazi Libya The results are disturbing Particularly troubling Benghazi may be the nexus for the Russian Interference storyline of 2016 as well as the failed FBI's Russia Probe investigation launched during the height of the 2016 Presidential general election Faithless Execution Andrew C McCarthy,2014-06-03 We still imagine ourselves a nation of laws not of men This is not merely an article of faith but a bedrock principle of the United States Constitution Our founding compact provides a remedy against rulers supplanting the rule of law and Andrew C McCarthy makes a compelling case for using it The authors of the Constitution saw practical reasons to place awesome powers in a single chief executive who could act quickly and decisively in times of peril Yet they well understood that unchecked power in one person's hands posed a serious threat to liberty the defining American imperative Much of the debate at the Philadelphia convention therefore centered on how to stop a rogue executive who became a law unto himself The Framers vested Congress with two checks on presidential excess the power of the purse and the power of impeachment They are potent remedies and there are no others It is a straightforward matter to establish that President Obama has committed high crimes and misdemeanors a term signifying maladministration and abuses of power by

holders of high public trust But making the legal case is insufficient for successful impeachment leading to removal from office Impeachment is a political matter and hinges on public opinion In Faithless Execution McCarthy weighs the political dynamics as he builds a case assembling a litany of abuses that add up to one overarching offense the president's willful violation of his solemn oath to execute the laws faithfully The fundamental transformation he promised involves concentrating power into his own hands by flouting law statutes judicial rulings the Constitution itself and essentially daring the other branches of government to stop him McCarthy contends that our elected representative are duty bound to take up the dare

Impeachment Process Michael J. Gerhardt, 2019-04-12 As President Trump and Congressional Democrats battle over the findings of the Mueller report talk of impeachment is in the air But what are the grounds for impeaching a sitting president Who is subject to impeachment Is impeachment effective as a safeguard against presidential misconduct What challenges does today's highly partisan political climate pose to the impeachment process and what if any meaningful alternatives are there for handling presidential misconduct For more than twenty years The Federal Impeachment Process has served as the most complete analysis of the constitutional and legal issues raised in every impeachment proceeding in American history Impeachment Michael J Gerhardt shows is an inherently political process designed to expose and remedy political crimes serious breaches of duty or injuries to the Republic Subject neither to judicial review nor to presidential veto it is a unique congressional power that involves both political and constitutional considerations including the gravity of the offense charged the harm to the constitutional order and the link between an official's misconduct and duties For this third edition Gerhardt updates the book to cover cases since President Clinton as well as recent scholarly debates He discusses the issues arising from the possible impeachment of Donald Trump including whether a sitting president may be investigated prosecuted and convicted for criminal misconduct or whether impeachment and conviction in Congress is the only way to sanction a sitting president what the Emoluments Clause means and whether it might provide the basis for the removal of the president whether gross incompetence may serve as the basis for impeachment and the extent to which federal conflicts of interest laws apply to the president and other high ranking officials Significantly updated this book will remain the standard work on the federal impeachment process for years to come
