Imperfect Harmony Finding Happiness Singing With Others:

Imperfect Harmony Stacy Horn, 2013-07-02 In this one of a kind celebration of singing with others I'd call her pitch nearly perfect The Atlantic For Stacy Horn regardless of what is going on in the world or her life singing in an amateur choir the Choral Society of Grace Church in New York never fails to take her to a place where hope reigns and everything good is possible She's not particularly religious and her voice is not exceptional so she says but like the 32.5 million other chorus members throughout this country singing makes her happy Horn brings us along as she sings some of the greatest music humanity has ever produced delves into the dramatic stories of conductors and composers unearths the fascinating history of group singing and explores remarkable discoveries from the new science of singing including all the unexpected health benefits Imperfect Harmony is the story of one woman who has found joy and strength in the weekly ritual of singing and in the irresistible power of song

United in Love Joshua Cockayne, Jonathan C. Rutledge, Nicholas Wolterstorff, 2023-05-25 Nicholas Wolterstorff's distinguished career in philosophical theology continues to bear fruit and here he shares his insight on the concepts of justice art and liturgy Although often discussed in isolation as Wolterstorff masterfully demonstrates they are bound together by divine love and follow a common logical framework Whether oriented towards the dignity of the other the desire for creative engagement or the infinite goodness of the creator in every case unitive love is at their core Wolterstorff explores all of this with consummate elegance ultimately showing how each of the three topics find their fulfilment in the worship of God and in the affirmation of the image of God in each of us

Shout to the Lord Ari Y. Kelman, 2018-06-19 How music makes worship and how worship makes music in Evangelical churches Music is a nearly universal feature of congregational worship in American churches Congregational singing is so ingrained in the experience of being at church that it is often misunderstood to be synonymous with worship For those who assume responsibility for making music for congregational use the relationship between music and worship is both promising and perilous promise in the power of musical style and collective singing to facilitate worship peril in the possibility that the experience of the music might eclipse the worship it was written to facilitate As a result those committed to making music for worship are constantly reminded of the paradox that they are writing songs for people who wish to express themselves as directly as possible to God This book shines a new light on how people who make music for worship also make worship from music Based on interviews with more than 75 songwriters worship leaders and music industry executives Shout to the Lord maps the social dimensions of sacred practice illuminating how the producers of worship music understand the role of songs as both vehicles for and practices of faith and identity This book accounts for the human qualities of religious experience and the practice of worship and it makes a compelling case for how sometimes faith comes by hearing

The Aesthetics of Discipleship Adrian Coates, 2021-09-30 Discipleship is embodied Formation in the Christian life is not an otherworldly exercise but one that plays out in this world interwoven with everyday sensory experience in ordinary life The Aesthetics of Discipleship explores this

dynamic through Kierkegaard's framing of aesthetic existence the sensory experience of being in the moment further developed by Bonhoeffer as operating within a realm of freedom encompassing not only art but play friendship and cultural formation In addition to Kierkegaard and Bonhoeffer the work of Iain McGilchrist Graham Ward and Nicholas Wolterstorff is employed to offer a fresh perspective on discipleship from below Everyday sensory experiences are integral not only to being human but to the practice of discipleship such that discipleship integrates aesthetic ethical and religious existence Aesthetic existence unhinged from a life of faith or fueled by distorted Christendom creates and sustains aestheticized pseudorealities centered on the self Mature aesthetic existence however anchored in love for God plays a fundamental role in the Christian life both as the incarnational celebration of being fully human and also through the preconscious formation of imaginaries by which we live

The Killing Fields of East New York Stacy Horn, 2025-01-28 In this groundbreaking work of investigative journalism and true crime, Stacy Horn sheds light on how the subprime mortgage scandal of the 1970s and a long history of white-collar crime slowly devastated East New York, a Brooklyn neighborhood that would come to be known as the Killing Fields. On a warm summer evening in 1991, seventeen-year-old Julia Parker was murdered in the Brooklyn neighborhood of East New York, an area known for an exorbitant level of violence and crime. East New York had come to be known as the Killing Fields. In the six months after Julia Parker's death, 62 more people were murdered in the same area. In the early 1990s, murder rates in the neighborhood climbed to the highest in NYPD history. East New York was dying. But how did this once thriving, diverse family neighborhood fall into such ruin? The answer can be found two decades earlier. In response to redlining and discriminatory housing practices, the Johnson administration passed the Housing and Urban Development Act in 1968. The Federal Housing Authority aimed to use this piece of legislation to help low-income families of color finally achieve homeownership. But they

could never have predicted how banks lenders realtors and corrupt FHA officials themselves would use the newly passed law to make victims of the very people they were supposed to help and the devastation they would leave in their wake A compulsively readable hybrid of true crime and investigative journalism The Killing Fields of East New York reveals how white collar crime reduced a prospering neighborhood to abandoned buildings and empty lots Following the dual threads of the hunt for the network of criminals behind the first subprime mortgage scandal and the ensuing downfall of East New York Stacy Horn weaves a compelling narrative of government failure a desperate community and ultimately the largest series of mortgage fraud prosecutions in American history The Killing Fields of East New York deftly demonstrates how different types of crime are profoundly entangled and how the crimes committed in nice suits and corner offices are just as destructive as those committed on the street

The Art of God Jimi Calhoun,2015-04-07 In The Art of God pastor and musician Jimi Calhoun suggests that the master artist God programmed diversity into every aspect of the natural order Today more of us than ever live in closer proximity to people once viewed as different The multicultural conversation of the recent past has proven to be inadequate to address the present intercultural reality in which we live The question then becomes how will we live together Quite often the presence of difference results in the avoidance of the other Many accept this as simply a natural occurrence but in the world of art difference does not always trigger division Art encompasses multiple disciplines and forms Art welcomes diversity within its borders This book traces the evolution of art and music then extracts principles from a musical motif to encourage the development of an artistic worldview that recognizes the beauty residing in everything and everybody
