

Improving Maritime Domain Awareness using Neural Networks for Target of Interest Classification

Naval Postgraduate School

Improving Maritime Awareness Networks Classification

**United States. Congress. House.
Committee on Appropriations.
Subcommittee on Homeland Security**

Improving Maritime Awareness Networks Classification:

Improving Maritime Domain Awareness Using Neural Networks for Target of Interest Classification Naval Postgraduate Naval Postgraduate School, 2015-12-14 Techniques for classifying maritime domain targets of interest within images are explored in this book Geometric and photometric features within each image are extracted from processed images and are used to train a neural network The trained neural network is tested with features of a known object In the binary classification case the neural network is used to determine whether a ship is present or not present in the image In the multi class and multi level classification cases the neural network is used to determine if the object belongs to one of four classes specified warship cargo ship small boat or other The Hough transformation is used to identify and characterize linear patterns exhibited by objects in images As an alternative to geometric and photometric features to classify targets of interest these linear patterns are used to train a neural network The performance of the neural network is then tested for binary multi class and multi level classification schemes The development of neural network based techniques for automated target of interest classification is a significant result of this book

Improving Maritime Domain Awareness Using Neural Networks for Target of Interest Classification Naval Postgraduate Naval Postgraduate School, 2015-05-29 Techniques for classifying maritime domain targets of interest within images are explored in this thesis Geometric and photometric features within each image are extracted from processed images and are used to train a neural network The trained neural network is tested with features of a known object In the binary classification case the neural network is used to determine whether a ship is present or not present in the image In the multi class and multi level classification cases the neural network is used to determine if the object belongs to one of four classes specified warship cargo ship small boat or other The Hough transformation is used to identify and characterize linear patterns exhibited by objects in images As an alternative to geometric and photometric features to classify targets of interest these linear patterns are used to train a neural network The performance of the neural network is then tested for binary multi class and multi level classification schemes The development of neural network based techniques for automated target of interest classification is a significant result of this thesis

deepwater implementation, **Maritime Security Partnerships** National Research Council, Division on Engineering and Physical Sciences, Naval Studies Board, Committee on the "1,000-Ship Navy" - A Distributed and Global Maritime Network, 2009-01-16 To offer security in the maritime domain governments around the world need the capabilities to directly confront common threats like piracy drug trafficking and illegal immigration No single navy or nation can do this alone Recognizing this new international security landscape the former Chief of Naval Operations called for a collaborative international approach to maritime security initially branded the 1 000 ship Navy This concept envisions U S naval forces

partnering with multinational federal state local and private sector entities to ensure freedom of navigation the flow of commerce and the protection of ocean resources This new book from the National Research Council examines the technical and operational implications of the 1 000 ship Navy as they apply to four levels of cooperative efforts U S Navy Coast Guard and merchant shipping only U S naval and maritime assets with others in treaty alliances or analogous arrangements U S naval and maritime assets with ad hoc coalitions and U S naval and maritime assets with others than above who may now be friendly but could potentially be hostile for special purposes such as deterrence of piracy or other criminal activity

Department of Homeland Security Appropriations for 2017 United States. Congress. House. Committee on Appropriations. Subcommittee on Homeland Security, 2016 The Coast Guard's Revised Deepwater Implementation Plan United States. Congress. Senate. Committee on Commerce, Science, and Transportation. Subcommittee on Fisheries and the Coast Guard, 2010 **Department of Homeland Security's Budget Submission for Fiscal Year 2006** United States. Congress. Senate. Improving Maritime Awareness Networks Classification Introduction

In the digital age, access to information has become easier than ever before. The ability to download Improving Maritime Awareness Networks Classification has revolutionized the way we consume written content. Whether you are a student looking for course material, an avid reader searching for your next favorite book, or a professional seeking research papers, the option to download Improving Maritime Awareness Networks Classification has opened up a world of possibilities. Downloading Improving Maritime Awareness Networks Classification provides numerous advantages over physical copies of books and documents. Firstly, it is incredibly convenient. Gone are the days of carrying around heavy textbooks or bulky folders filled with papers. With the click of a button, you can gain immediate access to valuable resources on any device. This convenience allows for efficient studying, researching, and reading on the go. Moreover, the cost-effective nature of downloading Improving Maritime Awareness Networks Classification has democratized knowledge. Traditional books and academic journals can be expensive, making it difficult for individuals with limited financial resources to access information. By offering free PDF downloads, publishers and authors are enabling a wider audience to benefit from their work. This inclusivity promotes equal opportunities for learning and personal growth. There are numerous websites and platforms where individuals can download Improving Maritime Awareness Networks Classification. These websites range from academic databases offering research papers and journals to online libraries with an expansive collection of books from various genres. Many authors and publishers also upload their work to specific websites, granting readers access to their content without any charge. These platforms not only provide access to existing literature but also serve as an excellent platform for undiscovered authors to share their work with the world. However, it is essential to be cautious while downloading Improving Maritime Awareness Networks Classification. Some websites may offer pirated or illegally obtained copies of copyrighted material. Engaging in such activities not only violates copyright laws but also undermines the efforts of authors, publishers, and researchers. To ensure ethical downloading, it is advisable to utilize reputable websites that prioritize the legal distribution of content. When downloading Improving Maritime Awareness Networks Classification, users should also consider the potential security risks associated with online platforms. Malicious actors may exploit vulnerabilities in unprotected websites to distribute malware or steal personal information. To protect themselves, individuals should ensure their devices have reliable antivirus software installed and validate the legitimacy of the websites they are downloading from.

In conclusion, the ability to download Improving Maritime Awareness Networks Classification has transformed the way we access information. With the convenience, cost-effectiveness, and accessibility it offers, free PDF downloads have become a popular choice for students, researchers, and book lovers worldwide. However, it is crucial to engage in ethical downloading practices and prioritize personal security when utilizing online platforms. By doing so, individuals can make the most of the vast array of free PDF resources available and embark on a journey of continuous learning and intellectual growth.

FAQs About Improving Maritime Awareness Networks Classification Books

How do I know which eBook platform is the best for me? Finding the best eBook platform depends on your reading preferences and device compatibility. Research different platforms, read user reviews, and explore their features before making a choice. Are free eBooks of good quality? Yes, many reputable platforms offer high-quality free eBooks, including classics and public domain works. However, make sure to verify the source to ensure the eBook credibility. Can I read eBooks without an eReader? Absolutely! Most eBook platforms offer web-based readers or mobile apps that allow you to read eBooks on your computer, tablet, or smartphone. How do I avoid digital eye strain while reading eBooks? To prevent digital eye strain, take regular breaks, adjust the font size and background color, and ensure proper lighting while reading eBooks. What the advantage of interactive eBooks? Interactive eBooks incorporate multimedia elements, quizzes, and activities, enhancing the reader engagement and providing a more immersive learning experience. Improving Maritime Awareness Networks Classification is one of the best book in our library for free trial. We provide copy of Improving Maritime Awareness Networks Classification in digital format, so the resources that you find are reliable. There are also many Ebooks of related with Improving Maritime Awareness Networks Classification. Where to download Improving Maritime Awareness Networks Classification online for free? Are you looking for Improving Maritime Awareness Networks Classification PDF? This is definitely going to save you time and cash in something you should think about.
