## **Improving The Quality Of Child Custody Evaluations A Systematic Model:**

Improving the Quality of Child Custody Evaluations Lauren Woodward Tolle, William O'Donohue, 2012-05-10 This book resolves a key problem that all evaluators need to attend to i.e. what constructs ought to be measured all the while giving them practical ways of doing this. It also presents data showing family court judges like the model and it does this fairly briefly but in a way that is nicely embedded in the research literature.

**Evidence-Informed Assessment and Practice in Child Welfare** John S. Wodarski, Michael J. Holosko, Marvin D. Feit, 2015-01-28 This practice oriented text presents evidence based assessment methods and interventions that have been extensively field tested in child welfare settings. The contributors offer empirical and field insights, comprehensive treatment models and curricula in key areas such as child maltreatment, substance abuse, parent training, social skills and youth employment interventions. For the professional reader, the book offers real world guidance on social work practice from hiring opportunities within a system to promoting lasting change as families and their issues grow increasingly complex. These chapters also take significant steps toward future improvements in child protection systems as the field evolves toward being more coordinated, effective and professional. Included in the coverage: Legal requisites for social work practice in child abuse and neglect; The integrated model for human service delivery in child welfare; Risk assessment issues and implementation in child protective services; Substance use and abuse screening tools and assessment instruments; The process of intervention with multi problem families; Preventative services for children and adolescents. Its multi level approach makes *Evidence Informed Assessment and Practice in Child Welfare* an essential professional development text for social workers, particularly those new to the job as well as a progressive blueprint for social work administrators.

*Learning Forensic Assessment* Rebecca Jackson, Ronald Roesch, 2015-10-05 Major developments in the field since the publication of *Learning Forensic Assessment* are integrated in this revised edition including revised editions of the DSM 5 HCR 20 scale and child custody guidelines. This textbook is designed for graduate students learning forensic assessment and psychologists coming to forensic practice later in their careers. It is organized around five broad areas: Professional and Practice Issues, Adult Forensic Assessment, Juvenile Forensic Assessment, Civil Forensic Assessment and Communicating Your Findings. Each chapter begins with a strong teaching and learning foundation. The latter part of each chapter is assessment specific, covering available assessment measures and approaches to assessment. The authors go well beyond simple descriptions of assessment measures and provide a conceptual discussion of the evaluation process that helps the reader understand how assessment measures fit into the overall evaluation process. The evaluation component is geared toward assessing the important aspects of the construct as laid out in the early part of each chapter. Each chapter then concludes with a case example to illustrate the measures and techniques described.

**Guide to Psychological Assessment with Asians** Lorraine T. Benuto, Nicholas S. Thaler, Brian D. Leany, 2014-06-26 To effectively serve minority clients, clinicians require a double understanding of both evidence based
