Language and Silence George Steiner, 1985 **Language and Silence** George Steiner, 1969 **The Life and Work of Gunter Grass** J. Preece, 2016-01-08 This book traces the career of the most widely read and influential German novelist in the second half of the Twentieth century It shows in particular how his experiences as a teenage Nazi shaped his thinking both in his novels and his role as critic and campaigner from *The Tin Drum* 1959 his most famous novel to *My Century* 1999 from his public protest against the building of the Berlin Wall 1961 to his diatribes against Helmut Kohl in the late 1990s This new paperback edition includes new material on his last two books *My Century* and *Crabwalk* including a revised Bibliography and Chronology *Translating the Poetry of the Holocaust* Jean Boase-Beier, 2015-05-24 Taking a cognitive approach this book asks what poetry and in particular Holocaust poetry does to the reader and to what extent the translation of this poetry can have the same effects It is informed by current theoretical discussion and features many practical examples Holocaust poetry differs from other genres of writing about the Holocaust in that it is not so much concerned to document facts as to document feelings and the sense of an experience It shares the potential of all poetry to have profound effects on the thoughts and feelings of the reader This book examines how the openness to engagement that Holocaust poetry can engender achieved through stylistic means needs to be preserved in translation if the translated poem is to function as a Holocaust poem in any meaningful sense This is especially true when historical and cultural distance intervenes The first book of its kind and by a world renowned scholar and translator this is required reading *The Politics of Art* , 2022-06-08

religion rather than considering religion a thing of the past Matthew Del Nevo deals with the cultural unconscious inseparable from religious consciousness and draws on psychoanalysis and literature as well as philosophy The metaphysics of the night is Del Nevo's metaphor for the deep and mysterious expanse of the soul Philosophically the book is critical of Enlightenment presumptions about knowledge and truth and overly spiritualizing tendencies in religion Its critical edge cuts against materialist and historicist tendencies in the humanities and abstract intellectualism in philosophy Arguing for strong aesthetic values Del Nevo defends and explains soul and soulful experience the creation of depth the ineffable real presence beauty and saving words noting that the sources of all these are in us but often are blocked Each of the five parts of this book testify to what the author notes may be forgotten but which ought not to be forgotten It is necessary for life as socially religiously and educationally instituted within culture and as constitutive for culture Del Nevo deals with sensibility as a form of wisdom and instinct that is not cognitive or knowledge information based He argues for a shift of emphasis in culture from intellect to intuition This well written work filled with Catholic philosophic and artistic thought will be of interest to all philosophers theologians and students of culture

Postcolonial Nostalgias Dennis Walder, 2010-11-17 This book offers an original and informed critique of a widespread yet often misunderstood condition nostalgia a pervasive human emotion connecting people across national and historical as well as personal boundaries Often seen as merely escapist nostalgia also offers solace and self understanding for those displaced by the larger movements of our time Walder analyses the writings of some of those entangled in the aftermath of empire tracing the hidden connections underlying their yearnings for a common identity and a homeland and their struggles to recover their histories Through a series of comparative reflections upon the representation in literary and related cultural forms of memory he shows how admitting the past into the present through nostalgia enables former colonial or diasporic subjects to gain a deeper understanding of the networks of power within which they are caught in the modern world and beyond which it may yet be possible to move Considering authors as varied as V S Naipaul J G Ballard Doris Lessing W G Sebald and Chimamanda Ngozi Adichie as well as versions of Bushman song Walder pursues the often wayward ambiguous paths of nostalgia as it has been represented beyond but also within Europe so as to identify some of those processes of communal and individual experience that constitute the present and by implication the future
