Ontology-Based Interpretation of Natural Language Philipp Cimiano, Christina Unger, John McCrae, 2022-06-01 For humans understanding a natural language sentence or discourse is so effortless that we hardly ever think about it For machines however the task of interpreting natural language especially grasping meaning beyond the literal content has proven extremely difficult and requires a large amount of background knowledge This book focuses on the interpretation of natural language with respect to specific domain knowledge captured in ontologies The main contribution is an approach that puts ontologies at the center of the interpretation process This means that ontologies not only provide a formalization of domain knowledge necessary for interpretation but also support and guide the construction of meaning representations We start with an introduction to ontologies and demonstrate how linguistic information can be attached to them by means of the ontology lexicon model lemon These lexica then serve as basis for the automatic generation of grammars which we use to compositionally construct meaning representations that conform with the vocabulary of an underlying ontology As a result the level of representational granularity is not driven by language but by the semantic distinctions made in the underlying ontology and thus by distinctions that are relevant in the context of a particular domain We highlight some of the challenges involved in the construction of ontology based meaning representations and show how ontologies can be exploited for ambiguity resolution and the interpretation of temporal expressions Finally we present a question answering system that combines all tools and techniques introduced throughout the book in a real world application and sketch how the presented approach can scale to larger multi domain scenarios in the context of the Semantic Web Table of Contents List of Figures Preface Acknowledgments Introduction Ontologies Linguistic Formalisms Ontology Lexica Grammar Generation Putting Everything Together Ontological Reasoning for Ambiguity Resolution Temporal Interpretation Ontology Based Interpretation for Question Answering Conclusion Bibliography Authors Biographies

Language Interpretation and Communication D. Gerver, 2013-03-09 Language Interpretation and Communication a NATO Symposium was a multi disciplinary meeting held from September 26 to October 1st 1977 at the Giorgio Cini Foundation on the Isle of San Giorgio Maggiore in Venice The Symposium explored both applied and theoretical aspects of conference interpretation and of sign language interpretation The Symposium was sponsored by the Scientific Affairs Division of the North Atlantic Treaty Organisation and we would like to express our thanks to Dr B A Bayraktar of the Scientific Affairs Division and to the Members of the NATO Special Programme Panel on Human Factors for their support We would also like to thank Dr F Benvenuti and his colleagues at the University of Venice for their generous provision of facilities and hospitality for the opening session of the Symposium Our thanks are also due to Dr Ernesto Talentino and his colleagues at the Giorgio Cini Foundation who provided such excellent

conference facilities and thus helped ensure the success of the meeting Finally we would like to express our appreciation and thanks to Becky Graham and Carol Blair for their invaluable contributions to the organization of the Symposium to Ida Stevenson who prepared these proceedings for publication and to Donald I MacLeod who assisted with the final preparation of the manuscript

Model Generation for Natural Language Interpretation and Analysis Karsten Konrad,2004-02-10 Mathematical theorem proving has undergone an impressive development during the last two decades resulting in a variety of powerful systems for applications in mathematical deduction and knowledge processing Natural language processing has become a topic of outstanding relevance in information technology mainly due to the explosive growth of the Web where by far the largest part of information is encoded in natural language documents This monograph focuses on the development of inference tools tailored to applications in natural language processing by demonstrating how the model generation paradigm can be used as a framework for the support of specific tasks in natural language interpretation and natural language based inference in a natural way The book appears at a pivotal moment when much attention is being paid to the task of adding a semantic layer to the Web and representation and processing of natural language based semantic information pops up as a primary requirement for further technological progress

The Meaning of Space in Sign Language Gemma Barberà Altimira,2015-07-01 Bringing together sign language linguistics and the semantics pragmatics interface this book focuses on the use of signing space in Catalan Sign Language LSC On the basis of small scale corpus data it provides an exhaustive description of referential devices dependent on space The book provides insight into the study of meaning in the visual spatial modality and into our understanding of the discourse behavior of spatial locations

Language, Meaning, Interpretation Guttorm Fløistad,2005-12-07 Philosophy of logic and language and of meaning and communication are central to this volume The discussion of these issues involves analytical approaches including semantics and semiotics philosophy of science mathematical logic phenomenology hermeneutics and some aspects of philosophical anthropology and aesthetics Philosophy of the Absolute also belongs to this broad repertoire of philosophical problems and disciplines A number of problems and viewpoints derive from the metaphysical system any relativistic view on ethical values for instance makes sense in relation to some absolute Metaphysical system building may have come to an end but after all it belongs to philosophy to remind us of our past

Language, Meaning and the Law Christopher Hutton,2009-01-19 Language Meaning and the Law offers an accessible critical guide to debates about linguistic meaning and interpretation in relation to legal language Law is an ideal domain for considering fundamental questions relating to how we assign meanings to words understand and comment on texts and deal with socially and ideologically significant questions of interpretation The book argues that theoretical issues of concern to linguists philosophers literary theorists and others are illuminated by the demands of the legal context since law is driven by the need for practical solutions and for determinate outcomes based on explicit reasoning Topics covered include the relationship of linguistics to legal theory indeterminacy and statutory

interpretation the theory and practice of using dictionaries in law defamation and language in the public sphere and the distinction between perjury and deception This book does not assume specialist knowledge of the field and is designed as a self contained advanced introduction to a fascinating area of study The reader will gain an overall insight into issues and debates about meaning and interpretation as well as an understanding of how these questions are shaped by the legal context

Beyond Meaning: A Journey Across Language, Perception and Experience Gaetano Fiorin, Denis Delfitto, 2020-06-17 Natural languages idioms such as English and Cantonese Zulu and Amharic Basque and Nicaraguan Sign Language allow their speakers to convey meaning and transmit meaning to one another But what is meaning exactly What is this thing that words convey and speakers communicate Few questions are as elusive as this Yet few features are as essential to who we are and what we do as human beings as the capacity to convey meaning through language In this book Gaetano Fiorin and Denis Delfitto disclose a notion of linguistic meaning that is structured around three distinct yet interconnected dimensions a linguistic dimension relating meaning to the linguistic forms that convey it a material dimension relating meaning to the material and social conditions of its environment and a psychological dimension relating meaning to the cognitive lives of its users By paying special attention to the puzzle surrounding first person reference the way speakers exploit language to refer to themselves and by capitalizing on a number of recent findings in the cognitive sciences Fiorin and Delfitto develop the original hypothesis that meaningful language shares the same underlying logical and metaphysical structure of sense perception effectively acting as a system of classification and discrimination at the interface between cognitive agents and their ecologies

The Ups and Downs of Child Language Andrea Gualmini, 2014-04-08 This book shows that it is possible to extend research on child language to children's semantic competence adopting the same theoretical framework that has proven useful to the study of children's syntactic competence

Philosophy of Language in Uruguay Carlos Enrique Caorsi, Ricardo J. Navia, 2024-05-15 In Europe and later in the United States the revitalization of the philosophy of language emerged from the need to address certain perplexities concerning formal disciplines and to work out certain complexities found within philosophy In Uruguay philosophy of language began with Carlos Vaz Ferreira as an analysis of the common and argumentative uses of language but then expanded to address typically philosophical questions

Edited by Carlos Enrique Caorsi and Ricardo J Navia Philosophy of Language in Uruguay Language Meaning and Philosophy demonstrates the different directions in which philosophy of language has developed in Uruguay in the last twenty years giving a representative picture of how philosophical approaches from a linguistic perspective have developed in this Latin American country Uruguayan philosophy has a very small international presence but it has long produced works within the philosophical explorations of language that are worthy of being better known The contributors dissect these explorations through epistemology linguistics argumentation and cognitive sciences to discover how philosophers of language such as Vaz Ferreira have grown to understand the complexities of language and how it affects us today **Language, Meaning, and**

Language as Social Semiotic Michael Alexander Kirkwood Halliday, 1978 The Weaponizing of Language in the Classroom and Beyond Kisha C. Bryan, Luis Javier Pentón Herrera, 2023-12-04 In this edited volume language weaponization or the weaponization of language is used to describe the process in which words discourse and language in any form can be

used to inflict harm on others The term harm is of vital importance because it refers to how specific groups of people are affected by ideologies and practices that normalize inequity and injustice in their environments The contributions in this book explore how language ideologies practices and policies can physically emotionally socially and or economically disadvantage or harm minoritized individuals as well as their cultures and languages
