

Confidential Informants: Protecting Their Identity

*Once an informant is known, the drug traffickers
are quick to retaliate. Dead men tell no tales.¹*

Utilizing confidential informants to obtain incriminating information has been described as “dirty business.”² And it certainly is. After all, the average CI is a “denizen of the underworld”³ who is assisting officers because he wants something, usually a break in a pending criminal case. As the court noted in *U.S. v. Bernal-Obeso*, “Criminals caught in our system understand they can mitigate their own problems with the law by becoming a witness against someone else.”⁴

It is also dirty business because CIs—known in the trade as “snitches,” “stool pigeons,” “turncoats,” “snakes,” “rats,” and much worse—are “cut from untrustworthy cloth”⁵ and will lie and exaggerate when it suits their purposes. “Our judicial history,” said the Ninth Circuit, “is speckled with cases where informants falsely pointed the finger of guilt at suspects and defendants, creating the risk of sending innocent persons to prison.”⁶

That being said, it is also true that CIs play a vital role in the investigation of many types of crimes, especially drug trafficking and other varieties of criminal collusion.⁷ That’s because the people involved in illicit enterprises are naturally obsessed with secrecy. As a result, in many cases the only people who can obtain the inside information that will support arrests and search warrants are fellow felons and hoodlums.⁸ Furthermore, the information they furnish tends to be quite accurate, as demonstrated by the high percentage of productive search warrants based on their tips. As the United States Supreme Court summed it up, “[T]he informer is a vital part of society’s defensive arsenal.”⁹
