while there are 413 verbs that need to be mastered well over one third of these 157 are found in the third conjugation while only about one per cent 21 will be found in the fourth conjugation With such information independent students or instructors can prioritize their study and assignments more appropriately In the second chapter large parts of the vocabulary with their attendant definitions are regrouped by topics A student who wishes therefore to focus on nature human emotions or military issues will find such vocabulary conveniently grouped together Chapter three lists the vocabulary terms from the most frequently occurring words to the least frequent Students or instructors who wish to lean more heavily on the most or least frequently occurring terms within their drills and studies can thus consult this frequency list After the frequency list the fourth chapter presents an alphabetical index of the terms Two final chapters close the text The first is a list of endings and paradigms for nouns adjectives and verbs Complete paradigms and endings are given for review The final chapter provides the student with an additional one hundred words that are uniquely common in the Latin of the Middle Ages These one hundred words if added to the mix would give the student a Mediaeval vocabulary that would match the efficiency of the Classical vocabulary that is the main focus of the book For the effort of learning an additional one hundred words another 1 000 years of Latin texts open up before the student As a whole then this book offers the vocabulary that forms the core of one thousand seven hundred years of Latin literature If the goal is to learn to read Latin with joy and ease then the vocabulary terms in this book are one of the major keys to success By learning these terms a student s vocabulary should be ready to tackle the Latin of any era from the Classical period to the Renaissance Matin Latin 1 Vocabulary Cards Karen L.
