produced several classic werewolf films including *An American Werewolf in London* and *The Howling*. The Company of Wolves sets itself apart from the pack with its overtly literary roots, feminist stance and art house leanings. The film's narrative takes the form of a puzzle box unfolding as dreams within dreams and stories within stories which lead further into the dark woods of the protagonist's psyche as she finds herself on the cusp of womanhood. This Devil's Advocate explores all these aspects as well as placing the film in the context of the careers of its creators and its position as an example of the Female Gothic.
