Culturally Proficient Leadership Raymond D. Terrell, Eloise K. Terrell, Randall B. Lindsey, Delores B. Lindsey, 2018-05-23 Becoming a culturally proficient leader requires the kind of courage clarity and insight that can only come from looking inward first It s a personal learning journey of will and skill and if you re up to the challenge one that will change how you see your school your students and yourself as you build your own cultural competence Consider this second edition of *Culturally Proficient Leadership* your personal road map for navigating that journey Each chapter of *Culturally Proficient Leadership* invites you to put your experiences up front and challenges you to reframe your story based on multiple viewpoints now notably with the addition of new coauthors Delores Lindsey and Eloise Kemp Terrell who have their own remarkable stories and insight to share Overall all four authors will help you answer the critical question Is what we say what we do utilizing the tools of Cultural Proficiency to engage in Reflections and Cultural Interviews to explore what you learn about those who are culturally different from you develop a Cultural Autobiography to provide a picture of the cultural memberships that have influenced who you are as a person use the Cultural Proficiency Continuum to examine your progress as a leader in serving your students and communities prepare an intentional Leadership Plan that summarizes your journey from Cultural Precompetence to Cultural Proficiency The central inside out premise of Cultural Proficiency is that engaging in deep introspection around one s personal beliefs values and behaviors in response to human differences is the first step toward systemic educational reform We invite you to embark on this journey of self awareness of moral courage and of the life affirming power of human diversity I believe deeply that we cannot solve the challenges of our time unless we solve them together unless we perfect our union by understanding that we may have different stories but we hold common hopes that we may not look the same and may not come from the same place but we all want to move in the same direction toward a better future for our children and our grandchildren Barack Obama Los Angeles Times 2008

Keeping It Real and Relevant Ignacio Lopez, 2017-08-23 How can we ensure that all students regardless of cultural background or socioeconomic status are granted equitable opportunities to succeed in the classroom and beyond In *Keeping It Real and Relevant Building Authentic Relationships in Your Diverse Classroom* author and veteran educator Ignacio Lopez offers hard won lessons that educators at all levels can

apply to teaching assessing counseling and designing interventions for learners from all walks of life These insights are all rooted in the same core principle building deep and meaningful relationships with students is the key driver of their success In addition to examining the pivotal role of relationship building among teachers and students in preparing the latter to perform at the highest level this book offers Real life examples of challenging classroom situations each with a detailed breakdown of how they were peacefully and non punitively resolved Strategies for designing learning environments suited to the individual needs of students and reflective of their cultural backgrounds Ideas for scaffolding students as they experience and internalize epiphanies about what works and what doesn t both academically and behaviorally and Activities and reflection questions for use in professional development Many teachers find balancing the needs of increasingly diverse classrooms made up of learners from increasingly diverse backgrounds to be a difficult and often thankless task and one that takes precious time away from instructional planning Here Lopez outlines simple but ingenious steps for addressing these needs holistically in a way that takes no extra time yet amply enhances the learning experience for students Clear practical and much needed Keeping It Real and Relevant is the ultimate blueprint for creating a harmonious and successful classroom for kids of all colors creeds and cultures

Core Practices for Project-Based Learning Pam Grossman, Zachary Herrmann, Sarah Schneider Kavanagh, Christopher G. Pupik Dean, 2022-10-18 Core Practices for Project Based Learning offers a framework and essential set of strategies for successfully implementing project based learning PBL in the classroom Centering on teaching practice this work moves beyond project planning to focus on the complex instructional demands of the student centered PBL approach Pam Grossman and her colleagues draw on their research with teachers educational leaders and curriculum designers to identify the instructional goals practices and mindsets that enable educators to effectively facilitate deep learning in PBL environments The authors first define the four

primary teaching goals of the PBL model supporting subject area learning engaging students in authentic work encouraging student collaboration and agency and building an iterative culture where students are always prototyping reflecting and trying again Grossman and her coauthors then equip educators with ten key practices that serve these goals These practices include methods to elicit higher order thinking to engage students in disciplinary and interdisciplinary practice and mentor student decision making The authors guide educators from a clear starting place through a series of concrete manageable steps that apply whether they are initiating PBL or working to improve existing PBL implementation Extended case studies illustrate the use of the core practices in real world situations Core Practices for Project Based Learning is an invaluable resource to help educators realize their instructional vision and create meaningful student experiences Equity-Focused Schools Carry All Students to High Levels WestEd,2014 Despite decades of experience supporting efforts from local to state levels to improve learning for underserved students Sonia Caus Gleason and WestEd s Nancy Gerzon could not point to examples of entire schools accomplishing what they believed was possible high poverty public schools personalizing learning for all students to consistently reach high achievement They began asking colleagues to identify exemplary schools that met their dual criteria of high poverty and high achievement A typical response I don t know any but tell me when you find them Gleason and Gerzon persisted eventually selecting four schools to study in depth The schools actually exceeded our expectations says Gerzon a WestEd Senior Program Research Associate The sophistication and intensity with which they personalize learning for students and staff goes well beyond what we thought we d see She and Gleason capture what they learned from these four exemplary schools in a new book Growing Into Equity Professional Learning and Personalization This article was first published in WestEd s R D Alert Vol 15 No 1 2014 **Leadership for Equity and Excellence** James Joseph Scheurich,Linda Skrla,2003-03-21 It brings into focus the many aspects of equity and equality in one source It makes an excellent base for some meaningful discussion of these issues by those working with aspiring educator leaders as well as those already in the field Deborah A Drugan Principal General John J Stefanik Elementary School Chicopee MA When true equity prevails all students can be successful students Do you dream of success for every student Do you dream of raising achievement for each and every child to meet the requirements of the No Child Left Behind Act Historically underserved students children of color children from low income families English language learners all deserve to live this dream Creating an equitable learning environment in which all students thrive is possible with this guide you can turn dreams into reality for your school Leadership for Equity and Excellence encourages school leaders and teachers to develop creative strategies for student advancement using tools such as accountability equity audits and proactive redundancy Scheurich and Skrla demonstrate how deeply held beliefs manifest as biases preventing educators from unlocking their students potential The authors also examine the U S education achievement gap and suggest several concepts for overcoming this gap such as Eliminating can t from your vocabulary Using creativity perseverance and persistence Envisioning educators as civil rights

workers Moving beyond harmful but entrenched biases Understanding the cultures and backgrounds of each student Children of color excelling in school children from low income homes thriving academically classrooms communities and even a nation of people becoming truly equal this is the living dream of today s educators **Excellence Through Equity** Alan M. Blankstein, Pedro Noguera, Lorena Kelly, 2016-02-26 Excellence Through Equity is an inspiring look at how real world educators are creating schools where all students are able to thrive In these schools educators understand that equity is not about treating all children the same They are deeply committed to ensuring that each student receives what he or she individually needs to develop their full potential and succeed To help educators with what can at times be a difficult and challenging journey Blankstein and Noguera frame the book with five guiding principles of Courageous Leadership Getting to your core Making organizational meaning Ensuring constancy and consistency of purpose Facing the facts and your fears Building sustainable relationships They further emphasize that the practices are grounded in three important areas of research that are too often disregarded 1 child development 2 neuroscience and 3 environmental influences on child development and learning You ll hear from Carol Corbett Burris Michael Fullan Marcus J Newsome Paul Reville Susan Szachowicz and other bold practitioners and visionary thinkers who share compelling and actionable ideas strategies and experiences for closing the achievement gap in your classrooms and school Ensuring that all students receive an education that cultivates their talents and potential is in all our common interest As Andy Hargreaves writes in the coda The opportunity for all Americans is to articulate and believe in an inspiring vision of educational change that is about what the next generation of America and Americans should become not about a target or ranking that the nation should attain

Equity, From the Boardroom to the Classroom Patrick Rice, 2019-02-15 Equity from the Boardroom to the Classroom discusses the need for districts to become Professional Learning Organizations PLOs which links the board s role to Professional Learning Communities In order to promote equity it is vital that school boards build a culture in which all stakeholders contribute individually and collectively to accomplish district objectives To foster a collaborative culture boards must display thermostat leadership as opposed to thermometer leadership Thermostat leadership is practiced when the board is actively involved in setting maintaining or adjusting district culture in order to ensure alignment with district priorities which PLOs promote Comparatively thermometer leadership is used when a board governs by a laissez faire approach and seeks to mandate a specific culture without becoming actively involved The latter approach enable boards to be misinformed about its strategic initiatives Research is clear No school reform aimed at improving student learning will be successful without strong leadership and support from the school board PLOs are a must for districts that desire to build a positive culture and seek to increase student achievement by way of a systemic process grounded in collaboration Without leadership support and collaboration led by the school board it is doubtful that any school reform will be successful regardless of how effective the reform may appear to be **When Treating All the Kids the SAME Is the REAL**
