work appears in favor of reconstructing and analyzing arguments thought to be conveyed by the content of the dialogues A distinguished classicist here offers an approach to understanding Plato that tries to do full justice to the form of Platonic philosophy appreciated against the background of Greek literature and history while also giving proper due to the important philosophic content of the dialogues The book deals in turn with Plato's relation to and portraits of Socrates the literary and philosophical character of the dialogues including the problems of interpreting a philosopher who never speaks in his own name and the modes of argumentation employed in the dialogues as well as some of their major themes **Classic**

Literature Made Simple Joseph Pearce, 2024-08-20 It has been said quite correctly that we write as well as we read It can also be said that we think as well as we read Since reading well is so important it is good to get into the habit of reading good books The better the book the better will be our ability to think well and write well In **Classic Literature Made Simple** literary expert Joseph Pearce takes the reader on a guided tour of fifty great works of literature The author of over thirty books Pearce uses his experience of teaching literature at college level for over twenty years to show the reader the moral dimension of each work He shows how each work presents a mystical mirror to the reader offering insights into the meaning of life itself Christian civilization has given birth to numerous great books as it has given birth to numerous great saints Joseph Pearce writes The former should be canonized as are the latter Great books like great saints enrich our faith as they enrich our culture As such reading good books should be an integrated part of leading a good life Those who read this book will learn how to read the great books well which will help them to live the good life well **The Complete Home**

Learning Sourcebook Rebecca Rupp, 1998 Lists all the resources needed to create a balanced curriculum for homeschooling from preschool to high school level **Material Mystery** Karmen MacKendrick, 2021-08-17 **Material Mystery** considers three apparently anthropocentric myths that are central to Abrahamic religions those of the primal human the incarnated and possibly divine redeemer and the resurrected body At first glance these stories reinforce a human centered theology and point to a very anthropomorphic God Taking them seriously seems to ignore the material turn in the humanities entirely with the same sort of willful ignorance that some of our politicians show in declaring that their myths count as facts or that the point of the rest of the world is to further human consumption But it is possible Karmen MacKendrick shows to read these figures through a particular tradition that emerges from the Hebrew Bible the tradition of Wisdom as a creative force Wisdom texts are common across the ancient Near East As the idea of creative Wisdom develops from antiquity into the middle ages it gathers philosophical influences from a range of philosophical traditions This exuberantly promiscuous impurity intellectual artistic and theological generates new interpretive possibilities In these interpretations each human like figure opens up onto the world's matter as an interdependent part of it and matter is thoroughly mixed with divinity Such mythic readings complement our factual scientific understanding of the material world to engage wider kinds of knowing and affective attention particularly Wisdom's combination of care and delight **John Fante** Richard Collins, 2000 John Fante an

important figure in the history of the Italian American novel is proving to be fascinating to contemporary readers Richard Collins has caught Fante's spirit from several crucial angles as an ethnic writer as a comic novelist as a serious writer struggling to remain so in Hollywood Intelligent balanced informative and empathetic this book combines criticism with scholarship and biography with history to make what Henry James would have called a perfect literary portrait for it gives life to an interesting subject

The Many Lives of Ajax Timothy V. Dugan, 2018-03-04 Ajax the archetypal Greek warrior has over the years been trivialized as a peripheral character in the classics through Hollywood representations and by the use of his name on household cleaning products Examining a broad range of sources from film art and literature to advertising and sports this study of the Bulwark of the Achaeans and his mythological image redefines his presence in Western culture revealing him as the predominant voice in The Iliad and in myriad works across the classical canon

Reading Backwards Muireann Maguire, Timothy Langen, 2021-06-18 This book outlines with theoretical and literary historical rigor a highly innovative approach to the writing of Russian literary history and to the reading of canonical Russian texts Anticipatory plagiarism is a concept developed by the French Oulipo group but it has never to my knowledge been explored with reference to Russian studies The editors and contributors to the proposed volume a blend of senior and beginning scholars Russians and non Russians offer a set of essays on Gogol Dostoevsky and Tolstoy which provocatively test the utility of AP as a critical tool relating these canonical authors to more recent instances some of them decidedly non canonical The senior scholars who are the editors and most of the contributors are truly distinguished The volume is likely to receive serious attention and to be widely read I recommend it with unqualified enthusiasm William Mills Todd III Harry Tuchman Levin Professor of Literature Harvard University As the founder of the notion of plagiarism by anticipation which was stolen from me in the sixties by fellow colleagues I am delighted to learn that my modest contribution to literary theory will be used to better understand the interplay of interferences in Russian literature Indeed one would have to be naive to think that the great Russian authors would have invented everything In fact they were able to draw their ideas from their predecessors but also from their successors testifying to the open mindedness that characterizes the Slavic soul This book restores the truth Pierre Bayard Professor of Literature University of Paris 8 This edited volume employs the paradoxical notion of anticipatory plagiarism developed in the 1960s by the Oulipo group of French writers and thinkers as a mode for reading Russian literature Reversing established critical approaches to the canon and literary influence its contributors ask us to consider how reading against linear chronologies can elicit fascinating new patterns and perspectives Reading Backwards An Advance Retrospective on Russian Literature re assesses three major nineteenth century authors Gogol Dostoevsky and Tolstoy either in terms of previous writers and artists who plagiarized them such as Raphael Homer or Hall Caine or of their own depredations against later writers from J M Coetzee to Liudmila Petrushevskaja Far from suggesting that past authors literally stole from their descendants these engaging essays contributed by both early career and senior scholars of Russian and comparative literature encourage us to identify the contingent and familiar within classic texts By moving beyond rigid notions of cultural heritage and literary canons they demonstrate that inspiration is cyclical influence can flow in multiple directions and no idea is ever truly original This book

will be of great value to literary scholars and students working in Russian Studies The introductory discussion of the origins and context of plagiarism by anticipation alongside varied applications of the concept will also be of interest to those working in the wider fields of comparative literature reception studies and translation studies
