Kricher, 2016-08-02 A New Generation Church is a church with attendees whose average age is at least as young as the average age of the community in which the church exists Any church can become a New Generation Church that reaches and continues to reach the next generation The Psalmist writes We will not hide these truths from our children we will tell the next generation about the glorious deeds of the Lord about his power and his mighty wonders Psalm 78:4 NLT No Christian would purposely hide the timeless truths of Christianity from the next generation But often we do not because of the substance of our church but because of the approach of our church For A New Generation is not about changing your church's statement of faith or core beliefs It is about evaluating and changing as needed your church's programs ministries

and practices in order to more effectively connect with and stay connected with the next generation Written for both church leaders and members For a New Generation presents 5 practical strategies that will lay a foundation for a church to thrive for generations to come It is based on the assumption that accepting the status quo is the greatest threat to your church's core mission and perhaps to the long term survival of your church

**The Meaning of Marriage Study Guide** Timothy Keller, Kathy Keller, 2015-09-29 Timothy and Kathy Keller will show you a portrait of marriage as it's meant to be according to the Bible by first throwing out most of what we've been taught about love Modern culture would have you believe that everyone has a soul mate that romance is the most important part of a successful marriage that marriage does not mean till death do us part but merely for as long as my needs are being met and that when serious differences arise divorce is the best solution But all of these modern day assumptions miss what marriage is really about In this six session video based Bible study DVD digital video sold separately Timothy Keller along with Kathy his wife of forty years draws a profound portrait of marriage from the pages of Scripture that neither idealizes nor rejects the institution but points us back to the relationship between God and man The result is a vision for marriage that is refreshingly frank and unsentimental yet hopeful and beautiful This study is for anyone from singles to couples considering marriage to those who have been married for any length of time Sessions include Service Marriage Isn't about You Covenant Created to Make Promises Roles Loving through Mutual Submission Singleness Strengthening the Spiritual Family Sex The Act of Covenant Renewal Hope Seeing the Great Horizon Designed for use with The Meaning of Marriage Video Study sold separately

environmental behaviour are closely connected This Research Topic focuses on bringing together perceptions and behaviour for sustainable coastal and island marine resource use systems Management and governance of large and small scale coastal marine resource use systems function in highly complex social and ecological environments which are culturally embedded economically interest led and politically biased Management processes therefore have to integrate multiple perspectives as well as perception driven standpoints on the individual as well as the decision makers levels Consequently the analysis of perceptions has developed not only as part of philosophy and psychology but also of environmental science anthropology and human geography It encompasses intuitions values attitudes thoughts mind sets place attachments and sense of place All of these influence human behavior and action and are collected or are available within the respective marine resource use system which may support the livelihood of a large part of the local population Management and governance are not only about mediating between resource use conflicts or establishing marine protected areas they deal with people and their ideas and perceptions Understanding the related decision making processes on multiple scales and levels hence means much more than economically assessing the available marine resources or existing threats to the associated system Over the past decade there has been a growing inter and transdisciplinary international community becoming interested in research which integrates perceptions of coastal and inland residents local and regional stakeholder groups as well as resource and environmental managers and decision makers By acknowledging the importance of the individual perspective and interest led personal views it became obvious how valuable and important these sources of information are for coastal research An increase of research effort spent on the link between perceptions and behaviour in marine resource use systems is thus both timely and needed By offering a diversity of inspiring and comprehensive contributions on the link between perceptions and behaviour this Research Topic aspires to critically enlighten the discourse and applicability of such research for finding sustainable locally identified anchored and integrated marine resource use pathways Distortion Chelsen
