Immigration And Race New Challenges For American Democracy:

Immigration and Race Gerald David Jaynes, 2000-01-01 A selection of insights about conflicts and competition vital to those who formulate immigration policies The insights are derived from the work of authors such as Frank D Bean Thomas E Cavanagh John A Garcia Peter H Schuck Wendy Zimmerman and more Latino Politics en Ciencia Pol[ítica] Tony Affigne, Evelyn Hu-DeHart, Marion Orr, 2014 More than 53 million Latinos now constitute the largest fastest growing and most diverse minority group in the United States and the nation's political future may well be shaped by Latinos continuing political incorporation In the 2012 election Latinos proved to be a critical voting bloc in both Presidential and Congressional races this demographic will only become more important in future American elections Using new evidence from the largest ever scientific survey addressed exclusively to Latino Hispanic respondents Latino Politics en Ciencia Politica explores political diversity within the Latino community considering how intra community differences influence political behavior and policy preferences The editors and contributors all noted scholars of race and politics examine key issues of Latino politics in the contemporary United States Latino identities latinidad transnationalism acculturation political community and racial consciousness The book contextualizes today's research within the history of Latino political studies from the field's beginnings to the present explaining how systematic analysis of Latino political behavior has over time become integral to the study of political science Latino Politics en Ciencia Politica is thus an ideal text for learning both the state of the field today and key dimensions of Latino political attitudes *How Race, Ethnicity, and Immigration Shape the California Electorate* Jack Citrin, Benjamin Highton, 2002 *The Impact of Immigration on African Americans* Steven Shulman, 2017-09-04 Immigration has significant consequences for all Americans but especially for African Americans The sheer magnitude of immigration it is the primary factor driving population growth is so large that it directly or indirectly affects the economic political social and environmental circumstances of most Americans But the geographic concentration of immigrants in urban areas and the economic concentration of immigrants in the low wage sector of the labor market have special consequences for African Americans since they are especially likely to live in urban areas and to be low wage workers These effects can be both negative and positive Immigration has sharply increased the supply of labor into the low wage sector of the labor market which tends to reduce wages and employment opportunities for low wage native workers Employers may prefer hiring immigrants who are perceived to be hard working and uncomplaining to hiring African Americans Immigrants can also increase the competition for scarce public services especially education on which African Americans depend Yet immigration can also stimulate economic growth and urban revitalization which can increase job opportunities and spread an ideology of multiculturalism Immigration can dilute the political power of African Americans but it can also strengthen the civil rights coalition Immigration can benefit some groups while hurting others This volume presents research and analysis that reflects and advances the debates about the economic and political consequences of

immigration for African Americans The contributors include Gerald Jaynes Yale University Vernon Briggs Cornell University Frank Bean and Jennifer Lee University of California Irvine Robert Cherry Brooklyn College Manuel Pastor University of California Santa Cruz and Enrique Marcelli University of Massachusetts Boston Steven Camarota Center for Immigration Studies Frank Morris University of Texas D

African Americans in the U.S. Economy Cecilia A. Conrad, John Whitehead, Patrick L. Mason, James Stewart, 2005-02-09 Over the last several decades academic discourse on racial inequality has focused primarily on political and social issues with significantly less attention on the complex interplay between race and economics African Americans in the U S Economy represents a contribution to recent scholarship that seeks to lessen this imbalance This book builds upon and significantly extends the principles terminology and methods of standard economics and black political economy Influenced by path breaking studies presented in several scholarly economic journals this volume is designed to provide a political economic analysis of the past and present economic status of African Americans The chapters in this volume represent the work of some of the nation s most distinguished scholars on the various topics presented The individual chapters cover several well defined areas including black employment and unemployment labor market discrimination black entrepreneurship racial economic inequality urban revitalization and black economic development The book is written in a style free of the technical jargon that characterizes most economics textbooks While the book is methodologically sophisticated it is accessible to a wide range of students and the general public and will appeal to academicians and practitioners alike

The Racial Politics of Division Monika Gosin, 2019-06-15 The Racial Politics of Division deconstructs antagonistic discourses that circulated in local Miami media between African Americans white Cubans and black Cubans during the 1980 Mariel Boatlift and the 1994 Balsero Crisis Monika Gosin challenges exclusionary arguments pitting these groups against one another and depicts instead the nuanced ways in which identities have been constructed negotiated rejected and reclaimed in the context of Miami s historical multiethnic tensions Focusing on ideas of legitimacy Gosin argues that dominant race making ideologies of the white establishment regarding worthy citizenship and national belonging shape inter minority conflict as groups negotiate their precarious positioning within the nation Rejecting oversimplified and divisive racial politics The Racial Politics of Division portrays the lived experiences of African Americans white Cubans and Afro Cubans as disrupters in the binary frames of worth citizenship narratives Foregrounding the oft neglected voices of Afro Cubans Gosin posits new narratives regarding racial positioning and notions of solidarity in Miami By looking back to interethnic conflict that foreshadowed current demographic and social trends she provides us with lessons for current debates surrounding immigration interethnic relations and national belonging Gosin also shows us that despite these new demographic realities white racial power continues to reproduce itself by requiring complicity of racialized groups in exchange for a tenuous claim on US citizenship

have actively experienced this trauma and then gone on to study and serve in this community Zamora's distinctive credentials and passion for ministry with and among immigrants offer a new and important perspective Zamora is a courageous leader for a courageous community His model of pastoral care among the displaced offers clear-eyed guidance for Christians committed to more effective ministry among those wounded by their immigration experiences What does it mean to shepherd congregants who lack documented status How might trauma manifest among those who have fled violence or experienced great loss Zamora's thoughtful treatment of these and other questions will help ministry leaders develop vital awareness and understanding leading readers toward a horizon of new pastoral models for the broader church
