Immigration, Social Integration and Crime Luigi Solivetti, 2010-07-12 *Immigration Social Integration and Crime* provides a thorough analysis of immigration and crime rates in all of the main European countries as well as the US in order to show not only that the widespread notion that a large non national population produces high crime rates must be rejected but also to analyse and explain the factors that influence the relationship between immigration and crime **Immigration, Social**

Integration and Crime Luigi M. Solivetti, 2010 The problem of social control has constituted the acid test for the entire issue of immigration and integration But whilst recent studies show that the crime rate for non nationals is three four or more times higher than that of the country's own citizens academic interest in these statistics has been inhibited by the political difficulties they raise *Immigration Social Integration and Crime* addresses this issue directly Providing a thorough analysis of immigration and crime rates in all of the main European countries as well as examining the situation in the US Luigi M Solivetti concludes that the widespread notion that a large non national population produces high crime rates must be rejected Noting the undeniably substantial but significantly variable contribution of non nationals to crime statistics in Western Europe he nevertheless goes on to analyze and explain the factors that influence the relationship between immigration and crime It is the characteristics of the host countries that are shown to be significantly associated with non nationals's integration and ultimately their involvement in crime In particular Solivetti concludes it is social capital in the host societies comprised of features such as education transparency and openness that plays a key role in non nationals's integration chances and so in their likelihood to commit crime Supported by extensive empirical data and statistical analysis *Immigration Social Integration and Crime* provides an invaluable contribution to one of the most pressing social and political debates in Europe and elsewhere Organized Crime, Corruption and Crime Prevention Stefano

Health and the National Health Service John Carrier, Ian Kendall, 2015-09-16 The NHS came into existence in an atmosphere of conflict centred on the strong ideological commitment of the Post war Labour Government and the opposition of the Conservative Party of that time to the idea of a universally available and centrally planned medical care service There was also opposition from some sections of the medical establishment who feared the loss of professional autonomy Setting health policy in both an historical and modern context post 1997 Carrier and Kendall weigh up the successes and failures of the National Health Service and examine the conflicts which have continued for over sixty years in spite of efforts to solve financial problems in the NHS through increases in funding as well as structural and organisational change After looking at recent responses to supposed failures of the NHS they conclude that the NHS has successfully faced the challenges before it and is likely to continue to meet the changing health needs of the population Financial stresses concerns about the quality of care and demographic change with consequent issues for the elderly and the chronically ill continue to be urgent and politically contentious issues This book is appropriate for a wide range of undergraduate and postgraduate students studying health policy and the NHS

The Public Image of the

Immigrant in Italy Vincent C. Figliomeni, PhD, 2016-02-26 The original empirical research studies contained in this book represent a series of social science inquiries aimed at measuring public opinion of immigrant involvement in crime as well as opinions on certain aspects of immigrant policies in Italy Each of the three original research empirical studies employed telephonic survey questionnaires using a systematic random sample method to compile data on opinions among respondents Each study compares responses representing opinions on immigrant and non immigrant crime with available official crime statistics The initial original empirical research study in 2004 used content analysis method to compile data on newspaper reporting of area crime in the Vicenza Province in northern Italy That study examined newspaper reporting of crime and its impact on public opinion of immigrant involvement in crime Newspaper reporting and subsequent public opinion of immigrant involvement are examined in six major crime categories Assault Theft Robbery Prostitution Illegal Drugs and Fraud The second original empirical research study in 2006 focused on public opinion of immigrant crime in the six crime categories and expanded the scope from an inquiry of immigrant crime to include policy related issues while still examining the influence of newspaper exposure That study compared public opinion of immigrant crime involvement from survey responses in 2004 to those in 2006 and added the selected immigrant policy baseline questions on public opinion regarding 1 immigrant policy controls 2 immigrant quotas 3 legal immigrants right to vote 4 unfavorable perception of immigrant cultural influences on Italian society and 5 unfavorable perception that immigrant presence perpetuates criminal and terrorist activities The third original empirical research study in 2013 examined the influence of newspaper exposure and added the geographic location of Reggio Calabria Province in southern Italy There was a demonstrated and measurable impact in various degrees of significance regarding newspaper exposure and its influence on public opinion of respondents concerning crime worry immigrant involvement in crime and immigrant policy related issues Official crime statistics clearly showed that there were some selected crime categories prostitution that immigrants were more responsible for and their involvement other crime was elevated over and above their percentage of the population Theft Robbery Illegal Drugs and Assault All three original empirical research studies confirm a similar pattern of over representation of immigrants and under representation of Italian non immigrants in those crime categories Immigrant over representation in crime and exaggerated media accounts of immigrants involvement in crime creates a negative image of the immigrant and possible obstructions for the full integration of immigrant groups into the community This process could potentially delay assimilation creating a vicious cycle keeping immigrants and even their host nation born offspring from ever getting beyond immigrant status and becoming fully socially integrated and culturally assimilated citizens The negative perceptions regarding continued immigrant policy controls quotas and that greater immigrant presence in the community increases crime and terrorism are still major issues that may tend also to discourage delay disrupt and or deny positive integration proper socialization and full assimilation of

immigrants Data can be viewed in light of some crime theory key elements and explanations to account for elevated immigrant involvement in crime as well as the impact of media influence on public opinion regarding immigrant involvement in crime and immigrant policy and relationships to immigrant integration socialization and assimilation **Them and Us** Philippe Legrain, 2020-10-15 Winner of the Diversity Inclusion and Equality Award at the Business Book Awards 2021 Underpinned by scholarship entertaining Legrain's book fizzles with practical ideas The Economist The beauty of diversity is that innovation often comes about by serendipity As Scott Page observed one day in 1904 at the World Fair in St Louis the ice cream vendor ran out of cups Ernest Hami a Syrian waffle vendor in the booth next door rolled up some waffles to make cones and the rest is history Filled with data anecdotes and optimism Them and Us is an endorsement of cultural differences at a time of acute national introspection By every measure from productivity to new perspectives immigrants bring something beneficial to society If patriotism means wanting the best for your country we should be welcoming immigrants with open arms *"The Belt and Road" International Migration of Asia* MI Hong, LI Yuan, MA Qiyini, 2021-08-30 The book studies multilateral population security issues and relevant governance strategies caused by international migration in the countries impacted by China's Belt and Road initiative and their border areas Buttressed by solid data mining and policy analysis the title looks into the demographic trends of international migration in China and some Asian Belt and Road countries and stresses the urgency for more effective governance practices Seeking to address the population security crisis triggered by the Initiative the authors propose the idea of multilateral population security governance grounded in the real world challenges facing Belt and Road countries while also drawing on experiences of migration governance in western countries As a new governance model it calls for cross border joint action and takes into consideration pertinent factors including economy politics culture religion and commerce Several case studies and comparative studies are offered in the chapters to illuminate the significance and effect of this cooperative mechanism The book will be of interest to researchers and government officials interested in non traditional security international migration and formal demography as well as topics on population resources and environment *Youth in Cities* Marta Tienda, William Julius Wilson, 2002-11-11 Whether in the ghettos of the United States the barrios of Brazil or the ethnic neighborhoods of Germany and Lebanon a growing number of urban youth find themselves marginalized from the social mainstream facing problems of fragile families segregation little or no education and involvement in illegal activities Both rich and poor countries are failing to meet the needs of their urban youth owing to weak institutional frameworks coupled with global economic restructuring that undermines traditional ways of earning a living Youth in Cities compares the circumstances of urban youth cross nationally illustrating the formidable challenges faced by young people trying to define their place in a rapidly changing world Using both comparative evidence and case studies this volume illustrates the common needs of youth throughout the world and makes a case for the role of youth as creative social assets and positive forces for social change *Racial Criminalization of*
