Appropriating Sacred Spaces Clara Rellensmann,2024-11-18 The book provides deep insights into heritage politics in Myanmar on the basis of the conservation history of Bagan and its entanglement in national politics It particularly investigates the heritage practice of the dictatorial regime that ruled Myanmar from 1988 to 2011 and highlights the implications of both the reconciliation politics of Aung San Suu Kyi s NLD government 2016 2020 and the UNESCO World Heritage System The book examines the function of Bamar Buddhist architecture in the spatial strategy of the 1988 2011 regime and its nation building efforts With a focus on the historic site of Bagan included on the World Heritage List in 2019 and the Adopt a Pagoda Program that was implemented at the site from 1995 to 2011 under authoritarian rule the book provides a detailed account of Bagan s physical transformation and its political significance for national politics at the time It offers a historical comparison of the heritage politics of Myanmar s most recent transitional governments 2011 2020 pointing out the particularities of the country s institutionalized heritage practice and one sided nation building strategy Both have contributed to continued ethnic conflicts that are generally considered to be the world s longest civil war In the renewed dictatorial context of Myanmar since February 1 2021 the research presented in the book helps to understand the roots of the new regime s heritage practice and national imagination In addition to these insights into Myanmar s heritage politics the book addresses shortcomings of the World Heritage system with regard to the treatment of sacred sites in authoritarian and post authoritarian contexts an aspect that to date has been largely neglected in cultural heritage policy debates across the

globe *Architectural Conservation in Asia* John H. Stubbs, Robert G. Thomson, 2016-11-10 At a time when organized heritage protection in Asia is developing at a rapid pace *Architectural Conservation in Asia* provides the first comprehensive overview of architectural conservation practice from Afghanistan to the Philippines The country by country analysis adopted by the book draws out local insights experiences best practice and solutions for effective cultural heritage management that will inform study and practice both in Asia and beyond Whereas architectural conservation in much of the Western world has been extensively documented this book brings together coverage of many regions where architectural conservation has been understudied Following on from the highly influential companion volumes on global architectural conservation and architectural conservation in Europe and the Americas with this book the authors extend their pioneering global examination to the dynamic and evolving field of architectural conservation in Asia Throughout the book the authors and regional experts provide local case studies and profile topics that bring depth and insight to this ambitious study As architectural conservation becomes increasingly global in practice this book will be of considerable assistance to architectural conservation practitioners site managers and students of architecture planning archaeology and heritage studies worldwide Dictionary of South & Southeast Asian Art Gwyneth Chaturachinda, Sunanda Krishnamurty, Pauline W. Tabtiang, 2004-04-01 This basic dictionary of South and Southeast Asian art offers clear and concise explanations of hundreds of useful terms With over 1 300 entries and 112 line illustrations this volume makes a handy reference for anyone interested and engaged in South and Southeast Asia Entries range from terms encountered in South and Southeast Asian history religion mythology literature to those specific to art and architecture and are drawn from the diverse religious traditions of the region **International Dictionary of Historic Places: Asia and Oceania** Trudy Ring, Robert M. Salkin, Sharon La Boda, 1994 First Published in 1996 Routledge is an imprint of Taylor Francis an informa company *Relics of the Buddha* John S. Strong, 2018-06-05 Buddhism is popularly seen as a religion stressing the truth of impermanence How then to account for the long standing veneration in Asian Buddhist communities of bone fragments hair teeth and other bodily bits said to come from the historic Buddha Early European and American scholars of religion influenced by a characteristic Protestant bias against relic worship declared such practices to be superstitious and fraudulent and far from the true essence of Buddhism John Strong's book by contrast argues that relic veneration has played a serious and integral role in Buddhist traditions in South and Southeast Asia and that it is in no way foreign to Buddhism The book is structured around the life story of the Buddha starting with traditions about relics of previous buddhas and relics from the past lives of the Buddha Sakyamuni It then considers the death of the Buddha the collection of his bodily relics after his cremation and stories of their spread to different parts of Asia The book ends with a consideration of the legend of the future parinirvana extinction of the relics prior to the advent of the next Buddha Maitreya Throughout the author does not hesitate to explore the many versions of these legends and to relate them to their ritual doctrinal artistic and social contexts **Sri Ksetra Museum Collection Inventory** Charlotte

Galloway,2022-12-05 The Sri Ksetra Museum Inventory provides public access to this significant collection for the first time The Inventory records the majority of the Museum collection up until 2015 Nearly all of the artefacts date to Myanmar s Pyu period of the first millennium Many of the objects have been documented for the first time having been kept in storage in some cases unseen for nearly one hundred years As only a limited amount of collection material can be publicly displayed in the Museum the Inventory provides immediate access to resource materials that would otherwise be out of reach From intact votive tablets in diverse styles to fragments of terracotta plaques and stone sculptures this is the most comprehensive collection of Pyu material culture in Myanmar With the rise of interest in Pyu scholarship since the UNESCO listing of The Pyu Ancient Cities in 2014 this inventory which also includes more recent finds from the important Pyu site of Khin Ba will broaden scholars appreciation of Pyu culture and open avenues for future research across many disciplines [Asia and Oceania](#)

Trudy Ring,Noelle Watson,Paul Schellinger,2012-11-12 From the Taj Mahal to the Parthenon from Gettysburg to Heidelberg from Beacon Hill to Tower Hill from the Great Wall to Hadrian s Wall from Jerusalem to Kyoto the International Dictionary of Historic Places presents some 1 000 comprehensive and fully illustrated histories of the most famous sites in the world Entries include location description and site office details and a 3 000 to 4 000 word essay that provides a full history of the site and the condition of the site today An annotated Further Reading list of books and articles about the site completes each entry *A Cultural Encyclopedia of Lost Cities and Civilizations* Michael Shally-Jensen,Anthony Vivian,2022-11-11 A stimulating volume for readers interested in lost cultures or climate change s role in the past and present Library Journal This volume explores the span of human history and plenty of prehistory searching out prominent and fascinating examples of cities or broader civilizations that shifted from a position of influence to a lack thereof The accelerating threat of climate change challenges us to analyze our own communities relationships with the wider world and to contemplate their very existence This single volume cultural encyclopedia examines lost cities and civilizations from every region of the globe and dated throughout human history Arranged alphabetically the compilation allows both students and general readers easy access to detailed entries on specific lost cities and civilizations Throughout the geographically and chronologically diverse entries such themes as colonization migration and especially climate change are developed and analyzed Supplementing the main entries are sidebars detailing mythological cities and Investigative Boxes examining present day cities on the brink of extinction These round out the book s focus on disappearing cultural centers and reveal the robust relevance this material has to a world facing the crisis of climate change **Haunting the Buddha** Robert DeCaroli,2004-09-30 Early European histories of India frequently reflected colonialist agendas The idea that Indian society had declined from an earlier Golden Age helped justify the colonial presence It was said for example that modern Buddhism had fallen away from its original identity as a purely rational philosophy that arose in the mythical 5th century BCE Golden Age unsullied by the religious and cultural practices that surrounded it In this book Robert DeCaroli seeks to place the

formation of Buddhism in its appropriate social and political contexts It is necessary he says to acknowledge that the monks and nuns who embodied early Buddhist ideals shared many beliefs held by the communities in which they were raised In becoming members of the monastic society these individuals did not abandon their beliefs in the efficacy and the dangers represented by minor deities and spirits of the dead Their new faith however gave them revolutionary new mechanisms with which to engage those supernatural beings Drawing on fieldwork textual and iconographic evidence DeCaroli offers a comprehensive view of early Indian spirit religions and their contributions to Buddhism the first attempt at such a study since Ananda Coomaraswamy's pioneering work was published in 1928 The result is an important contribution to our understanding of early Indian religion and society and will be of interest to those in the fields of Buddhist studies Asian history art history and anthropology

Creolization and Diaspora in the Portuguese Indies Stefan Halikowski Smith, 2011-09-23 This book examines the sizeable Portuguese community in Ayutthaya the chief river state in Siam during a period in which Portuguese power in the region declined The analysis turns on the creolization and diaspora that affected this community as well as problems with international trade the Christian conversion process and European rivalries

Rituals, Collapse, and Radical Transformation in Archaic States Joanne M.A. Murphy, 2020-09-29 *Rituals Collapse and Radical Transformation in Archaic States* explores the role of ritual in a variety of archaic states and generates discussion on how the decline in a state's ability to continue in its current form affected the practices of ritual and how ritual as a culture-forming dynamic affected decline collapse and regeneration of the state Chapters examine ritual in collapsing and regenerating archaic states from diverse locations time periods and societies including Crete Mycenaean and Byzantine Greece Mesopotamia India Africa Mexico and Peru Underscoring similarities in a variety of archaic states in the role of ritual during periods of threat collapse and transformation the volume shows how ritual can be used as a stabilizing or divisive force or a connecting medium between the present to the past in an empowering way It also highlights the diversity of ritual roles and location in similar situations and illustrates how states in close proximity and sharing many cultural similarities can respond differently through ritual to stress and contrast the different response in rural and urban settings Through detailed cultural specific studies the book provides a nuanced understanding of the diverse roles of ritual in the decline collapse and regeneration of societies and will be important for all archaeologists involved in the important notions of state collapse and regeneration

Indian Esoteric Buddhism Ronald M. Davidson, 2004 Despite the rapid spread of Buddhism the historical origins of Buddhist thought and practice remain obscure This work describes the genesis of the Tantric movement and in some ways an example of the feudalization of Indian society Drawing on primary documents from Sanskrit Prakrit Tibetan Bengali and Chinese author shows how changes in medieval Indian society including economic and patronage crises a decline in women's participation and the formation of large monastic orders led to the rise of the esoteric tradition in India

The Earth Transformed Peter Frankopan, 2023-04-18 A NEW YORKER BEST BOOK OF THE YEAR A revolutionary new history

that reveals how climate change has dramatically shaped the development and demise of civilizations across time The ebook edition now includes endnotes Anyone who purchased the book previously can re download this updated edition and access the notes Global warming is one of the greatest dangers mankind faces today Even as temperatures increase sea levels rise and natural disasters escalate our current environmental crisis feels difficult to predict and understand But climate change and its effects on us are not new In a bold narrative that spans centuries and continents Peter Frankopan argues that nature has always played a fundamental role in the writing of history From the fall of the Moche civilization in South America that came about because of the cyclical pressures of El Niño to volcanic eruptions in Iceland that affected Egypt and helped bring the Ottoman empire to its knees climate change and its influences have always been with us Frankopan explains how the Vikings emerged thanks to catastrophic crop failure why the roots of regime change in eleventh century Baghdad lay in the collapse of cotton prices resulting from unusual climate patterns and why the western expansion of the frontiers in North America was directly affected by solar flare activity in the eighteenth century Again and again Frankopan shows that when past empires have failed to act sustainably they have been met with catastrophe Blending brilliant historical writing and cutting edge scientific research *The Earth Transformed* will radically reframe the way we look at the world and our future

Making Sense of Tantric Buddhism Christian K. Wedemeyer, 2014-05-06 *Making Sense of Tantric Buddhism* fundamentally rethinks the nature of the transgressive theories and practices of the Buddhist Tantric traditions challenging the notion that the Tantras were marginal or primitive and situating them instead both ideologically and institutionally within larger trends in mainstream Buddhist and Indian culture Critically surveying prior scholarship Wedemeyer exposes the fallacies of attributing Tantric transgression to either the passions of lusty monks primitive tribal rites or slavish imitation of Saiva traditions Through comparative analysis of modern historical narratives that depict Tantrism as a degenerate form of Buddhism a primal religious undercurrent or medieval ritualism he likewise demonstrates these to be stock patterns in the European historical imagination Through close analysis of primary sources Wedemeyer reveals the lived world of Tantric Buddhism as largely continuous with the Indian religious mainstream and deploys contemporary methods of semiotic and structural analysis to make sense of its seemingly repellent and immoral injunctions Innovative semiological readings of the influential Guhyasamāja Tantra underscore the text's overriding concern with purity pollution and transcendent insight issues shared by all Indic religions and a large scale quantitative study of Tantric literature shows its radical antinomianism to be a highly managed ritual observance restricted to a sacerdotal elite These insights into Tantric scripture and ritual clarify the continuities between South Asian Tantrism and broader currents in Indian religion illustrating how thoroughly these radical communities were integrated into the intellectual institutional and social structures of South Asian Buddhism

Detachment from Place Maxime Lamoureux-St-Hilaire, Scott Macrae, 2020-02-21 *Detachment from Place* is the first comparative and interdisciplinary volume on the archaeology of settlement abandonment with contributions focusing on

materiality ideology the environment and social construction of space The volume sheds new light on an important but underexamined aspect of settlement abandonment wherein sedentary groups undergoing the process of abandonment leave behind many meaningful elements of their inhabited landscape The process of detaching from place which could last centuries transformed inhabitants into migrants and transformed settled constructed and agricultural landscapes into imagined ones that continued to figure significantly in the identities of migrant groups Drawing on case studies from the Americas Africa and Asia the volume explores how relationships between ancient peoples and the places they lived were transformed as they migrated elsewhere Contributors focus on social structure ecology and ideology to study how people and places both disentangled from each other and remained tied together during this process From Huron Wendat villages and Classic Maya palaces to historical villages in Togo and the great Southeast Asian Medieval capital of Bagan specific cultural historical and environmental factors led ancient peoples to detach from their homes and embark on migrations that altered social memory and cultural identity as evidenced in the archaeological record Detachment from Place provides new insights into transfigurations of community identity political organization social and economic relations religion warfare and agricultural practices and will be of interest to landscape archaeologists as well as researchers focused on collective memory population movement migratory patterns and interaction Contributors Tomas Q Barrientos Jennifer Birch Eduardo Jos Bustamante Luna Catherine M Cameron Marcello A Canuto Jeffrey H Cohen Michael D Danti Phillip de Barros Pete Demarte Donna M Glowacki Gyles Iannone Louis Lesage Patricia A McAnany Asa R Randall Kenneth E Sassaman
