Imperium In Imperio Modern Library Classics:

Sutton E. Griggs and the Struggle Against White Supremacy Finnie D. Coleman, 2007 Sutton E Griggs 1872 1933 was a significant African American social reformer pastor and prolific writer His successful first novel *Imperium in Imperio* 1899 addressed in a forceful way the plight of Black Americans in post Reconstruction America Using Griggs s life story as a platform Sutton E Griggs and the Struggle against White Supremacy explores how conservative pragmatism shaped the dynamics of race relations and racial politics during the late nineteenth and early twentieth centuries More precisely the book examines the various intellectual tactics that Griggs developed to combat white supremacy Author Finnie D Coleman shows that Griggs was a pivotal shaper of a racial uplift philosophy that bore little relationship to more melioristic attempts at racial reconciliation Coleman explores how Griggs s family particularly his father influenced his political ideology Coleman examines why and how Griggs toyed with militant and at times violent fictional responses to white supremacy when his background and temperament were profoundly conservative and peaceful Ultimately Griggs yielded to his father s brand of pragmatic conservatism but not before he produced a number of works of fiction and nonfiction that pushed the boundaries of what were acceptable reactions to the racial status quo of his day The author addresses other questions about Griggs s work How did his fiction capture the generational differences between African Americans born in antebellum America and those who came of age at the end of the Gilded Age Which rhetorical conventions proved effective against the ever obdurate Jim Crow Why have critical assessments of his works varied so greatly over the years Most important when compared with other writings of his day why have his texts been so thoroughly marginalized This new volume adds to our understanding of Griggs s literary career and his role as one of the most widely read and selflessly dedicated intellectual leaders of his day

The Whole Machinery Ben Child, 2019 A familiar story holds that modernization radiates out from metropolitan origins The whole machinery explores representations of people and places objects and occasions that reverse that trajectory demonstrating how modernizing agents move in a contrary direction as well from the country to city In a crucial reversal these figures aren t pulled by or into urban modernity so much as they bring alternate and transformative iterations of the modern to the urban world This book upends the U S South s reputation as retrograde and unresponsive to modernity by showing how the effects of national and transnational exchange particularly via the cotton trade emergent technologies and industrialization animate environments and bodies associated with or performing versions of the rural To this end it also searches out the shadow side of the cosmopolitan modern by investigating the rural sources the laboring bodies and raw materials that made such urban spaces possible The whole machinery explores a range of canonical and noncanonical figures Paul Laurence Dunbar Frances E W Harper W E B Du Bois Allen Tate Don West the authors of the Southern Tenant Farmers Union pamphlet *The Disinherited* Speak Charlie Poole and Zora Neale Hurston among them It uncovers signs of the rural modern in a variety of texts and media including narrative fiction and poetry as well as photographs sound recordings radio

broadcasts letters newspaper reports and magazine profiles These readings convey diverse and individuated desires for escape or entrenchment often in the same conflicted voice ultimately creating multivalent expressions and experiences of rurality that are in their way as thoroughly modern as those of more widely canonized urban figures Going Underground Lara Langer Cohen,2022-12-16 First popularized by newspaper coverage of the Underground Railroad in the 1840s the underground serves as a metaphor for subversive activity that remains central to our political vocabulary In Going Underground Lara Langer Cohen excavates the long history of this now familiar idea while seeking out versions of the underground that were left behind along the way Outlining how the underground's figurative sense first took shape through the associations of literal subterranean spaces with racialized Blackness she examines a vibrant world of nineteenth century US subterranean literature that includes Black radical manifestos anarchist periodicals sensationalist exposés of the urban underworld manuals for sex magic and the initiation rites of secret societies Cohen finds that the undergrounds in this literature offer sites of political possibility that exceed the familiar framework of resistance suggesting that nineteenth century undergrounds can inspire new modes of world making and world breaking for a time when this world feels increasingly untenable

Hope Isn't Stupid Sean Austin Grattan,2017-10 *Hope Isn't Stupid* is the first study to interrogate the neglected connections between affect and the practice of utopia in contemporary American literature Although these concepts are rarely theorized together it is difficult to fully articulate utopia without understanding how affects circulate within utopian texts Moving away from science fiction the genre in which utopian visions are often located author Sean Grattan resuscitates the importance of utopianism in recent American literary history Doing so enables him to assert the pivotal role contemporary American literature has to play in allowing us to envision alternatives to global neoliberal capitalism Novelists William S Burroughs Dennis Cooper John Darnielle Toni Morrison Thomas Pynchon and Colson Whitehead are deeply invested in the creation of utopian possibilities A return to reading the utopian wager in literature from the postmodern to the contemporary period reinvigorates critical forms that imagine reading as an act of communication friendship solace and succor These forms also model richer modes of belonging than the diluted and impoverished ones on display in the neoliberal present Simultaneously by linking utopian studies and affect studies Grattan's work resists the tendency for affect studies to codify around the negative instead reorienting the field around the messy rich vibrant and ambivalent affective possibilities of the world *Hope Isn't Stupid* insists on the centrality of utopia not only in American literature but in American life as well

African American Writers & Classical Tradition William W. Cook,James Tatum,2024-05-31 Constraints on freedom education and individual dignity have always been fundamental in determining who is able to write when and where Considering the singular experience of the African American writer William W Cook and James Tatum here argue that African American literature did not develop apart from canonical Western literary traditions but instead grew out of those literatures even as it adapted and transformed the cultural traditions and religions of Africa and

the African diaspora along the way Tracing the interaction between African American writers and the literatures of ancient Greece and Rome from the time of slavery and its aftermath to the civil rights era and on into the present the authors offer a sustained and lively discussion of the life and work of Phillis Wheatley Frederick Douglass Ralph Ellison and Rita Dove among other highly acclaimed poets novelists and scholars Assembling this brilliant and diverse group of African American writers at a moment when our understanding of classical literature is ripe for change the authors paint an unforgettable portrait of our own reception of classic writing especially as it was inflected by American racial politics **Black Utopia** Alex

Zamalin,2019-08-20 Within the history of African American struggle against racist oppression that often verges on dystopia a hidden tradition has depicted a transfigured world Daring to speculate on a future beyond white supremacy black utopian artists and thinkers offer powerful visions of ways of being that are built on radical concepts of justice and freedom They imagine a new black citizen who would inhabit a world that soars above all existing notions of the possible In **Black Utopia** Alex Zamalin offers a groundbreaking examination of African American visions of social transformation and their counterutopian counterparts Considering figures associated with racial separatism postracialism anticolonialism Pan Africanism and Afrofuturism he argues that the black utopian tradition continues to challenge American political thought and culture **Black Utopia** spans black nationalist visions of an ideal Africa the fiction of W E B Du Bois and Sun Ra s cosmic mythology of alien abduction Zamalin casts Samuel R Delany and Octavia E Butler as political theorists and reflects on the antiutopian challenges of George S Schuyler and Richard Wright Their thought proves that utopianism rather than being politically immature or dangerous can invigorate political imagination Both an inspiring intellectual history and a critique of present power relations this book suggests that with democracy under siege across the globe the black utopian tradition may be our best hope for combating injustice **Critical Black Futures** Philip Butler,2021-03-30 **Critical Black Futures**

imagines worlds afrofutures cities bodies art and eras that are simultaneously distant parallel present counter and perpetually materializing From an exploration of W E B Du Bois own afrofuturistic short stories to trans super fluid blackness this volume challenges readers community leaders academics communities and creatives to push further into surreal imaginations Beyond what some might question as the absurd this book is presented as a speculative space that looks deeply into the foundations of human belief Diving deep into this notional rabbit hole each contributor offers a thorough excursion into the imagination to discover what was while also providing tools to push further into the not yet **African American**

Religious Cultures Anthony B. Pinn,2009-09-10 This encyclopedia offers the most comprehensive presentation available on the diversity and richness of religious practices among African Americans from traditions predating the era of the transatlantic slave trade to contemporary religious movements Like no previous reference **African American Religious Cultures** captures the full scope of African American religious identity tracing the long history of African American engagement with spiritual practice while exploring the origins and complexities of current religious traditions This

breakthrough encyclopedia offers alphabetically organized entries on every major spiritual belief system as it has evolved among African American communities covering its beginnings development major doctrinal points rituals important figures and defining moments In addition the work illustrates how the social and economic realities of life for African Americans have shaped beliefs across the spectrum of religious cultures *Loopholes and Retreats* John Cullen Gruesser, Hanna Wallinger, 2009 The essays in this volume explore the loopholes and retreats employed and exploited by African American polemicists poets novelists slave narrators playwrights short story writers essayists editors educators historians clubwomen and autobiographers during the nineteenth century These exciting contributions use historicist comparative transnational literary historical cultural studies and Foucauldian perspectives to examine how apparent weakness was turned into strength defensiveness into offensiveness and the machinery of oppression into the keys to liberation *The Arizona Quarterly*, 2015
