Driscoll, 2015-10-23 White Lies considers African American bodies as the site of cultural debates over a contested white religion in the United States Rooting his analysis in the work of W E B DuBois and James Baldwin Christopher Driscoll traces the shifting definitions of white religion from the nineteenth century up to the death of Michael Brown and other racial controversies of the present day He engages both modern

Church II, David W. Springer, 2018-06-26 America's incarceration rate was roughly constant from 1925 to 1973 with an average of 110 people behind bars for every 100 000 residents By 2013 however the rate of incarceration in state and federal prisons had increased sevenfold to 716 Compared with 102 for Canada 132 for England and Wales 85 for France and a paltry 48 in Japan the United States is the world's most aggressive jailer When one factors in those on parole or probation the American correctional system is in control of more than 7.3 million Americans or one in every 31 U.S. adults This means that 6.7 million adult men and women about 3.1 percent of the total U.S. adult population are now very non-voluntary members of America's correctional community Some key questions that need to be addressed are What are we doing with those 7.3 million Americans How are they being treated while they are incarcerated How can we best prepare them to return to their communities More than 650 000 offenders are released back into our communities every year however 70% are rearrested within three years of their release Serving the Stigmatized is the first book of its kind that explores best practices when dealing with a specific prison population while under some form of institutional control If the established goal of a correctional facility is to rehabilitate then it is imperative that the rehabilitation is effective and does not simply serve as a political buzz word The timing of releasing this book coincides with a real movement in the United States supported by both conservative and liberal advocates and foundations to decrease the size of the prison population by returning more offenders to their communities The text examines 14 specific populations and how to effectively treat them in order to better serve them and our communities **The Internet of Women - Accelerating Culture Change** Nada Anid, Monique J.

Jim Wallis,2016-01-12 America s problem with race has deep roots with the country s foundation tied to the near extermination of one race of people and the enslavement of another Racism is truly our nation s original sin It s time we right this unacceptable wrong says bestselling author and leading Christian activist Jim Wallis Fifty years ago Wallis was driven away from his faith by a white church that considered dealing with racism to be taboo His participation in the civil rights movement brought him back when he discovered a faith that commands racial justice Yet as recent tragedies confirm we continue to suffer from the legacy of racism The old patterns of white privilege are colliding with the changing demographics of a diverse nation The church has been slow to respond and Sunday morning is still the most segregated hour of the week In America s Original Sin Wallis offers a prophetic and deeply personal call to action in overcoming the racism so ingrained in

American society He speaks candidly to Christians particularly white Christians urging them to cross a new bridge toward racial justice and healing Whenever divided cultures and gridlocked power structures fail to end systemic sin faith communities can help lead the way to grassroots change Probing yet positive biblically rooted yet highly practical this book shows people of faith how they can work together to overcome the embedded racism in America galvanizing a movement to cross the bridge to a multiracial church and a new America
