Landscapes Of Change Innovative Designs For Reinvented Sites:

Landscapes of Change Roxi Thoren, 2014-12-21 Climate change natural resource use population shifts and many other factors have all changed the demands we place on landscape designs Projects now have to help connect neighborhoods absorb stormwater cool urban centers and provide wildlife habitats Landscapes of Change examines how these challenges drive the design process inspire new design strategies and result in innovative works that are redefining the field of landscape architecture In 25 case studies from around the world Roxi Thoren explores how the site can serve as the design generator describing each project through the physical material ecological and cultural processes that have shaped the site historically and continue to shape these ground breaking projects

Landscape Performance Bo Yang, 2018-10-26 Ian McHarg's ecological planning approach has been influential since the 20th century However few empirical studies have been conducted to evaluate the performance of his projects Using the framework of landscape performance assessment this book demonstrates the long term benefits of a renowned McHargian project The Woodlands town development through quantitative and qualitative methods Including 44 black and white illustrations Landscape Performance systematically documents the performance benefits of the environmental social and economic aspects of The Woodlands project It delves into McHarg's planning success in The Woodlands in comparison with adjacent Houston developments which demonstrated urban resilience after Hurricane Harvey in 2017 Lastly it identifies the ingredients of McHarg's ability to do real and permanent good Yang also includes a number of appendices which provide valuable information on the methods of assessing performance in landscape development This book would be beneficial to academics and students of landscape architecture and planning with a particular interest in Ian McHarg

Garden Revolution Larry Weaner, Thomas Christopher, 2016-05-18 A leading landscape designer shows how an ecological approach can lead to beautiful gardens that benefit the environment and require less time and money According to landscape designer Larry Weaner conventional gardening is full of counter intuitive time consuming and even harmful habits The constant tilling weeding irrigating and fertilizing create perpetual disturbance in a plot's ecology and waste countless hours in a dubious struggle against nature In *Gardening Revolution* Weaner offers a radically new approach based on the ways plants and wildlife behave in nature He advocates for a more fluid style choosing plants that are adapted to the soil and climate and then capitalizing on positive developments as they occur This lushly photographed reference is for anyone looking for a better smarter way to garden

Consumer Australia Robert Crawford,Kim Humphery,Judith Smart,2010-06-09 Donald Horne s The Lucky Country claimed that Australia was one of the first nations to find part of the meaning of life in the purchase of consumer goods Significantly similar views had been expressed in the late 18th century

where everyday life in the antipodean outpost of Empire was regarded as being pecuniary and acquisitive in nature While references to Australia as a consumer society continue to be made the question of how Australia came to be so has attracted less attention The chapters in Consumer Australia actively redress this omission by examining the ways in which the processes of selling buying and exchanging have characterised the experiences of consumption in every day Australian life Prepared by leading and emerging scholars the chapters in this unique collection critically explore the different ways that Australians have consumed products brands and even consumption itself from the 19th century and through the 20th century By charting the growth and development of consumption in Australia Consumer Australia reveals how Australia came to be a consumer society and asks where it is headed
