Sociocultural Theory and the Pedagogical Imperative in L2 Education James P.

Lantolf,Matthew E. Poehner,2014-03-05 Explicating clearly and concisely the full implication of a praxis oriented language

pedagogy this book argues for an approach to language teaching grounded in a significant scientific theory of human learning a stance that rejects the consumer approach to theory and the dichotomy between theory and practice that dominates SLA and language teaching This approach is based on Vygotsky's sociocultural theory according to which the two activities are inherently connected so that each is necessarily rooted in the other practice is the research laboratory where the theory is tested From the perspective of language education this is what is meant by the pedagogical imperative Sociocultural Theory and the Pedagogical Imperative in L2 Education Elaborates a new approach to dealing with the relationship between theory and practice an approach grounded in praxis the dialectical unity of theory and practice Presents an analysis of empirical research illustrating praxis based principles in real language classrooms Brings together cognitive linguistics and sociocultural theory the former provides the theoretical knowledge of language required of praxis and the latter furnishes the theoretical principles of learning and development also called for in a praxis approach Offers recommendations for redesigning teacher education programs Its timely focus on the theory practice gap in language education and its original approach to bridging it put this book at the cutting edge of thinking about Vygotskian sociocultural theory in applied linguistics and SLA *Handbook of Research in Second Language Teaching and Learning* Eli Hinkel, 2016-11-18 Volume III of the Handbook of Research in Second Language Teaching and Learning like Volumes I and II is a comprehensive state of the art overview of current research into social contexts of second language L2 foreign language FL teaching and learning language policy curriculum types of instruction incremental language skills such as listening speaking reading writing vocabulary and grammar international communication pragmatics assessment and testing It differs from earlier volumes in its main purpose to provide a more in depth discussion and detailed focus on the development of the essential language skills required for any type of communication speaking listening reading vocabulary grammar and writing Volume III preserves continuity with previous volumes in its coverage of all the classical areas of research in L2 FL teaching and learning and applied linguistics but rather than offering a historical review of disciplinary traditions it explores innovations and new directions of research acknowledges the enormous complexity of teaching and learning the essential language abilities and offers a diversity of perspectives Chapter authors are all leading authorities in their disciplinary areas What's new in Volume III Updates the prominent areas of research including the sub disciplines addressed in Volumes I and II and represents the disciplinary mainstays Considers and discusses perspectives held by different schools of thought on the what the how and the why of teaching foundational language skills including theories pedagogical principles and their implementation in practice Captures new and ongoing developments and trends in the key areas of L2 FL teaching and learning and innovative research topics that have gained substantial recognition in current publications including the role of corpora technology and digital literacy in L2 FL teaching and learning Examines new trends in language pedagogy and research such as an increased societal emphasis on teaching academic language for schooling somewhat contradictory

definitions of literacy and the growing needs for instruction in intercultural communication **Using Statistics in Small-Scale Language Education Research** Jean L. Turner, 2014-02-18 Assuming no familiarity with statistical methods this text for language education research methods and statistics courses provides detailed guidance and instruction on principles of designing conducting interpreting reading and evaluating statistical research done in classroom settings or with a small number of participants While three different types of statistics are addressed descriptive parametric non parametric the emphasis is on non parametric statistics because they are appropriate when the number of participants is small and the conditions for use of parametric statistics are not satisfied The emphasis on non parametric statistics is unique and complements the growing interest among second and foreign language educators in doing statistical research in classrooms Designed to help students and other language education researchers to identify and use analyses that are appropriate for their studies taking into account the number of participants and the shape of the data distribution the text includes sample studies to illustrate the important points in each chapter and exercises to promote understanding of the concepts and the development of practical research skills Mathematical operations are explained in detail and step by step illustrations in the use of R a very powerful online freeware program to perform all calculations are provided A Companion Website extends and enhances the text with PowerPoint presentations illustrating how to carry out calculations and use R practice exercises with answer keys data sets in Excel MS DOS format and quiz midterm and final problems with answer keys Language and Culture David Nunan, Julie Choi, 2010-05-07 This state of the art exploration of language culture and identity is orchestrated through prominent scholars and teachers narratives each weaving together three elements a personal account based on one or more memorable or critical incidents that occurred in the course of learning or using a second or foreign language an interpretation of the incidents highlighting their impact in terms of culture identity and language the connections between the experiences and observations of the author and existing literature on language culture and identity What makes this book stand out is the way in which authors meld traditional academic approaches to inquiry with their own personalized voices This opens a window on different ways of viewing and doing research in Applied Linguistics and TESOL What gives the book its power is the compelling nature of the narratives themselves Telling stories is a fundamental way of representing and making sense of the human condition These stories unpack in an accessible but rigorous fashion complex socio cultural constructs of culture identity the self and other and reflexivity and offer a way into these constructs for teachers teachers in preparation and neophyte researchers Contributors from around the world give the book broad and international appeal

Language Learning Beyond the Classroom David Nunan, Jack C. Richards, 2015-01-30 This volume presents case studies of language learning beyond the classroom The studies draw on a wide range of contexts from North and South America to Europe and the Asia Pacific region Each provides principled links between theory research and practice While out of class learning will not replace the classroom ultimately all successful learners take control of their own learning This book shows

how teachers can help learners bridge the gap between formal instruction and autonomous language learning Although English is the primary focus of most chapters there are studies on a range of other languages including Spanish and Japanese

Pronunciation and Phonetics Adam Brown,2014-03-26 This engaging succinct text is an introduction to both phonetics and phonology as applied to the teaching of pronunciation to English language learners Section 1 selectively covers the main areas of phonetics and phonology without going into any area in more depth than the average English language teacher requires or that the average English language teacher trainee can handle Section 2 focuses on practical issues related to learners and how they learn languages and what represents good practice in terms of classroom activities for pronunciation including aspects such as targets motivation and priorities The chapters end with activities to help the reader understand concepts Section 3 provides innovative sample activities which put into practice the theoretical points covered in the first two sections answers to the various exercises recommended further reading both print and non print a glossary of technical phonetic terms and a bibliography of works on pronunciation teaching The text is accompanied by a Companion Website with audio recordings of model pronunciations and audio material relating to the activities
