Language French Symbolism Princeton Library:

The Language of French Symbolism James R. Lawler, 2015-12-08 The traits that characterize the language of French Symbolism are the center of these essays In interpreting major or previously neglected compositions by Mallarmé Verlaine Rimbaud Claudel Valéry and Apollinaire the author shows how each of these poets worked with the elements that distinguish this influential group of writers as a whole Originally published in 1969 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905 **The Poetics**

of Yves Bonnefoy John Naughton, 1984-06 Yves Bonnefoy is the most important and influential French poet to have emerged since the Second World War Poet art critic historian translator particularly of Shakespeare specialist in the problem of the relation of poetry to the visual arts and to the history of religions Bonnefoy is now considered one of the most distinguished men of letters of his generation Though Bonnefoy's work is familiar to American scholars the complexity of his thought and style has created a need for a critical introduction to his work This first major study of Bonnefoy written in English provides an overview of his entire literary career Naughton situates Bonnefoy in the context of the existential philosophical tradition that nurtured him and in the poetic and artistic tradition that includes Dante and Shakespeare Piero and Poussin Baudelaire and Rimbaud Bonnefoy's poems appear in both French and English and all quotations from his prose have been translated This book will appeal not only to the growing number of students and scholars of French literature interested in Bonnefoy's work but also to those who study comparative poetry and the relation of poetry to art and to contemporary religious thought

Copyright Office, 1972 The Symbolist Movement in the Literature of European Languages Anna Balakian, 1984-01-01 Edited by Anna Balakian this volume marks the first attempt to discuss Symbolism in a full range of the literatures written in the European languages The scope of these analyses which explore Latin America Scandinavia Russia Poland Hungary Serbia Czechoslovakia and Bulgaria as well as West European literatures continues to make the volume a valuable reference today As Ren Wellek suggests in his historiographic contribution the fifty one contributors not only make us think afresh about individual authors who are giants but also draw us to reassess schools and movements in their local as well as international contexts Reviewers comment that this copious and intelligently structured anthology divided into eight parts traces the conceptual bases and emergence of an international Symbolist movement showing the spread of Symbolism to other national literatures from French sources as well as the symbiotic transformations of Symbolism through appropriation and amalgamation with local literary trends Several chapters deal with the relationships between literature and the other arts pointing to Symbolism at work in painting music and theatre Other chapters on the psychological aspects of the Symbolist method connect in interesting ways to a vision of metaphor and myth as virtually musical notation and an experimental emphasis on the play afforded by gaps between words The volume is a major contribution to the most significant exponents and essential themes of Symbolism The theoretical historical and typological sections of the volume help explain why the impact of this important movement of the fin de siècle is still felt today
