Public Theology in the Post-Secular Age Dominic Budhi-Thornton, 2025-07-31 As religion's status and place within society is contested in the post secular age Manchester Cathedral is a fascinating case study of the potential role that cathedrals and other religious institutions may be able to play in various public settings While the church's membership declines in the UK Manchester Cathedral operates as a spiritual hub in the area of Greater Manchester Using primary data gathered on the ground this work explores Manchester Cathedral's public theologies of inclusion which lie at the heart of its various activities and practices Focusing most explicitly on the cathedral's interfaith work anti racism work and its theology of LGBTQIA inclusion the author explores the potential strengths and weaknesses of religious engagement in the contemporary post secular age In this book Budhi Thornton seeks to contribute to questions about the relationship between the religious and the secular tradition and innovation inclusion and distinctiveness Drawing on a wide range of theological and philosophical traditions Budhi Thornton puts forward a case for the development of a public theological hospitality that remains open to the work of

the Spirit in the life of the Other **Grace, Governance and Globalization** Martin G. Poulson, Stephan van Erp, Lieven Boeve, 2017-04-06 What role does or should theology play in current discussions about our political realities Is there a place for theological worldviews in the public conversation about policy making Should theology critically unmask the underlying theological and metaphysical sources of contemporary politics The contributors to this volume reflect on new questions in public and political theology inspired by the theology of Edward Schillebeeckx They discuss a variety of theological traditions and theories that could offer substantial contributions to current political challenges and debate whether theology should contribute to the liberation of communities of poor and suffering people **Between a Rock and a Hard Place** Elaine Graham, 2013-07-31 Public theology is an increasingly important area of theological discourse with strong global networks of institutions and academics involved in it Elaine Graham is one of the UK's leading theologians and an established SCM author In this book Elaine Graham argues that Western society is entering an unprecedented political and cultural era in which many of the assumptions of classic sociological theory and of mainstream public theology are being overturned Whilst many of the features of the trajectory of religious decline typical of Western modernity are still apparent there are compelling and vibrant signs of religious revival not least in public life and politics local national and global This requires a revision of the classic secularization thesis as well as much Western liberal political theory which set out separate or at least demarcated terms of engagement between religion and the public domain Elaine Graham examines claims that Western societies are moving from secular to post secular conditions and traces the contours of the post secular the revival of faith based engagement in public sphere alongside the continuing perhaps intensifying questioning of the legitimacy of religion in public life She argues that public theology must rethink its theological and strategic priorities in order to be convincing in this new post secular world and makes the case for the renewed prospects for public theology as a form of Christian apologetics drawing from Biblical classical and contemporary sources **Christian Faith, Philosophy & International Relations**, 2019-10-29 International relations are in constant turbulence Globalisation the rise and fall of superpowers the fragilisation of the EU trade wars real wars terrorism persecution new nationalism and identity politics climate change are just a few of the recent disturbing developments How can international issues be understood and addressed from a Christian faith perspective In this book answers are presented from various Christian traditions Neo Calvinism Catholic social teaching critical theory and Christian realism The volume offers fundamental theological and Christian philosophical perspectives on international relations and global challenges case studies about inspiring Christian leaders such as Robert Schuman Dag Hammarskjöld Abraham Kuyper and prophetic critiques of supranational issues **Interruption and Imagination** Kjetil Fretheim, 2016-12-22 As we are faced with recurring crises financial migration climate etc there is a need to reconsider public theology as both a practice and a field of study By discussing public statements made by Christians faced with different kinds of crisis this book contributes to the development and

understanding of public theology The public statements addressed are three kairos documents The Kairos Document from South Africa in the mid 1980s The Road to Damascus document from authors in developing countries issued in 1989 and the Palestinian Kairos Document from 2009 The discussion is structured around three problems of public theology social analysis politics and ethics and language and voice Fretheim suggests a constructionist understanding of public theology a public theology that interrupts current debates and expands the imagination of the public sphere As public theology is concerned with public life and social issues Interruption and Imagination will be of interest to scholars and students of theology political science sociology and religious studies as well as practitioners policymakers and professionals in the public sector civil society churches and Christian organizations

Corruption Mocking at Justice Alfred Sebahene, 2017-09-30 The church has a duty to fight corruption and injustice The increased awareness globally of corruption and the threat it poses to humanity has led many in the secular and Christian world to seek solutions to stamp out this scourge Recognizing the crisis caused by corruption in Tanzania his own country Dr Alfred Sebahene seeks to understand this social epidemic through the application of theological ethics As a result of the study the author identifies theological ethical guidelines that inform and add substance to the church's duty in the public sphere particularly in the fight against corruption and injustice

Climate Change, Radical Uncertainty and Hope Jan Jorrit Hasselaar, 2025-10-01 Views on climate change are often either pessimistic or optimistic In this book Jan Jorrit Hasselaar discovers and explores a third way one of hope A debate within economics on risk and uncertainty brings him to theological questions and the concept of hope in the work of the late Jonathan Sacks and to a renewed way of doing theology as an account of the good life What follows is an equal conversation between theology and economics as has hardly been undertaken in recent times It emerges that hope is not contrary to economic insights but remarkably compatible with them Communication between these fields of expertise can open the way for a courageous and creative embrace of radical uncertainty in climate change A key notion here is that of a public Sabbath or a workplace of hope times and places set aside to cultivate inspiration and mutual trust among all parties involved enabling them to take concrete steps forward

Interrupting the Church's Flow Al Barrett, 2020-10-30 How can we develop and embody an ecclesiology in contexts of urban marginality that is radically receptive to the gifts and challenges of the agency of our non-Christian neighbours Drawing on resources from political theologies and in particular conversation with Graham Ward and Romand Coles this book challenges our lazy understanding of receptivity digging deep to uncover a rich theological seam which has the potential to radically alter how theologians think about what we draw from urban places It offers a game changing liberative theology rooted not in the global south but from a position of self critical privilege Full Text Description for sales people Text

Piety and Plurality Glenn Thomas Miller, 2014-06-09 I began studying American theological education in the 1970s and Piety and Plurality is the third of three studies In Piety and Intellect I examined the colonial and nineteenth century search for a form of theological education that was true to the church's confessional traditions and

responsible to the intellectual demands of the age In *Piety and Profession* I described how that model was modified under the impact of the new biblical criticism and by the American belief in professionalism In this volume I have tried to bring the story up to date Unfortunately I did not find one unifying theme for the period Rather theological education seemed to move forward on a number of different levels each with its own story Here I have tried to capture some of the dynamics of this movement and to indicate how theological educators have struggled with the plurality in their midst In the process theological education has learned to live with its contradictions and problems As important as the stories are however there is also the story of the schools struggles to live in the midst of a constant financial crisis that checked development at every stage

The Churches and Democracy in Brazil Rudolf von Sinner, 2012-05-04 Brazil is a rapidly emerging country Brazilian theology namely the Theology of Liberation has become well known in the 1970s and 1980s The politically active Base Ecclesial Communities and the progressive posture of the Roman Catholic Church contrasted with a steadily growing number of evangelicals mostly aligned with the military regime but attractive precisely to the poor After democratic transition in the mid 1980s the context changed considerably Democracy growing religious pluralism and mobility a vibrant civil society the political ascension of the Worker s Party and growing wealth albeit within a continuously wide social gap are some of the elements that show the need of a new approach to theology It must be a theology that is both critical and constructive resisting and cooperative a theology that is able to give orientation to the churches valuing and encouraging their contribution in society while avoiding attempts of imposition *The Churches and Democracy in Brazil* the fruit of years of interdisciplinary study of the Brazilian context and its main churches and theology makes its case for an ecumenically articulated public theology It seeks inspiration mainly in Luther and Lutheran theology emphasizing human dignity freedom trust the disposition to serve and the ability to endure the ambiguities of reality as well as a fresh interpretation of the doctrine of the two regiments These are the fundamental elements of what makes human beings full members of the body politic citizenship their right to have rights and to be able to effectively live them together with their corresponding duties in a move of growing political participation conscious of their religious motivation in view of the commonweal

A Public Missiology Gregg Okesson, 2020-04-21 How can Christians witness to the complexity of our world Gregg Okesson shows that local congregations are the primary means of public witness in and for the world As Christians move back and forth between their churches and their neighborhoods workplaces and other public spaces they weave a thick gospel witness This introduction to public missiology explains how local congregations can thicken their witness in the public realms where they live work and play Real life examples from around the world help readers envision approaches to public witness and social change

Public Theology Gnana Patrick, 2020-04-07 This book situates public theology within the genre of political theology Drawing upon the distinct strands of political theologies identified by Daniel M Bell Jr Gnana Patrick treats public theology as the form of political theology for our contemporary era and takes special care to relate these strands of political

theologies to the Indian context thereby opening up the theological horizon for Indian public theology Further Public Theology dwells upon certain prominent features of our contemporary global world and discerns the human need for experiencing transcendence today Taking faith to be the catalyst for this experience of transcendence it points to civil society as the interstice through which faith can be imparted to the contemporary world And it argues for the relevance of public theology for that work

Theological Fragments Rubén Rosario Rodríguez,2023-05-23 The swelling ranks of religious nones those who do not identify with any particular religious tradition have demonstrated that traditional Christian apologetics set on delivering a universally accepted objectively verifiable system that proves the truth and superiority of Christian belief has failed Turned off by organized Christianity's hypocrisy and politics of intolerance millennials and Generation Z have rejected such domineering forms of reasoning aimed at winning converts through logical argument Not only is this misguided missional strategy argues Rubén Rosario Rodríguez but it's grounded in bad theology as well The propositional truth claims imply that if you accept the argument you must accept the Christian faith too Instead of this triumphalist understanding of Christian truth Rosario argues for a broken and contrite Christian theology that can help make sense of a fractured world Realizing that fragments of truth are often all we have he points out that the search for the truth of God and the self will most often be found while engaged in the struggle for justice Theological Fragments is not another set of strategies for how to win back millennials Rather it provides a foundational theological vision necessary to the work of inviting the nones to hear the gospel afresh

God? Very Probably Robert H. Nelson,2015-11-11 In recent years a number of works have appeared with important implications for the age old question of the existence of a god These writings many of which are not by theologians strengthen the rational case for the existence of a god even as this god may not be exactly the Christian God of history This book brings together for the first time such recent diverse contributions from fields such as physics the philosophy of human consciousness evolutionary biology mathematics the history of religion and theology Based on such new materials as well as older ones from the twentieth century it develops five rational arguments that point strongly to the very probable existence of a god They do not make use of the scientific method which is inapplicable to the question of a god Rather they are in an older tradition of rational argument dating back at least to the ancient Greeks For those who are already believers the book will offer additional rational reasons that may strengthen their belief Those who do not believe in the existence of a god at present will encounter new rational arguments that may cause them to reconsider their opinion
