Ireland's Economic History Gerard McCann, 2011-09-12 This book explores the complex developments that have shaped Ireland s economic development north and south and led to recurring crises and instability The Irish economy has been traditionally portrayed as a product of its political divisions and the colonial legacy divided and analysed in terms of the hegemonic tensions that exist on the island Influenced by these divisions academics have tended to look at a two region approach to economic development without adequately acknowledging the interactive nature of the island economy as a source of the crises or as a solution to systemic divergence McCann s definitive and dynamic history of the Irish economy circumvents conventional analyses and investigates the economic development of the island economy as a whole highlighting where aggressive differentiation has been divisive and destabilising He concludes by considering an alternative integrated and cohesive process of economic development

Crucible of Resistance Christos Laskos, Euclid Tsakalotos, 2013-09-05 Syriza s victory in the recent Greek general election shook the foundations of the Western political establishment and gave hope to the millions suffering the austerity measures imposed by the European Troika Millions asked how did this happen and what is it about Greece that created such a centre of radicalism This insider s account from Syriza s Finance Minister Euclid Tsakalotos and economist Christos Laskos shows that that the narrative of Greek exceptionalism is a myth The blame game that has been played by the EU powers is an ideological tool used to shift attention from the disillusionment and anger at the European and global capitalist economic order By alienating an entire nation of people the Troika has revealed the internal contradictions of the modern neoliberal establishment as well as the inadequacies of the earlier social democratic

Understanding Al Qaeda Mohammad-Mahmoud Ould Mohamedou,2011-06-03 This book controversially argues that Al Qaeda has clear aims and that the only way to defeat it is to engage with its arguments in a serious way Since the publication of the first edition in 2006 Mohamedou has brought the text right up to date Starting with Al Qaeda's creation almost twenty years ago and sketching its global mutation Mohamedou explains that there is a cogent strategy to Al Qaeda's actions He shows that the war on terror is failing only serving to recruit more terrorists to Al Qaeda's cause He also puts forward a case for how the international community can best respond Arguing that it is dangerous to dismiss Al Qaeda as illogical and irrational this incisive and original book is important for policy makers and ideal for undergraduates in international relations Middle East studies and peace conflict studies
