Practice*

One of the aims of this book is to offer practical ways of addressing feminist issues through an analysis of language and discourse. Feminism has long motivated and innovated gender and language studies; this book further develops that legacy by providing intelligent commentary on the multifaceted relationships between language and gendered patterns of social disadvantage. A high level of scholarship is evident in the breadth and complexity of material covered, from historical through to contemporary work, with theoretical perspectives that vary in their epistemological and ontological commitments, and a consideration of the multicultural contexts where gender and sexuality matters differently emerge. The overarching messages are very clear: politically relevant research is important, and there is an ongoing need to maintain an open spirit of enquiry despite conflicting paradigmatic commitments.

The authors suggest that gender and language studies are currently entering a new stage of development, where insightful and critical analyses of gender and sexuality are urgently required. It is a period of postfeminism, in which some women benefit from the social and political changes in the wake of two waves of feminism, but gendered patterns of social deprivation on a global scale remain stark. Furthermore, there is currently an unprecendented (hetero)sexualisation of girls in Western media, presented in the guise of postfeminist feminine freedom and choice. The authors rightly point to feminist linguistics as being able to usefully illuminate the ways

in understanding core concepts and key issues in linguistic anthropology Language and Masculinities Tommaso M. Milani, 2014-12-05 This volume showcases cutting edge research in the linguistic and discursive study of masculinities comprising the first significant edited collection on language and masculinities since Johnson and Meinhof's 1997 volume. Overall the chapters are linked together by a critical analytical perspective that seeks to understand the relationships between discourse masculinities and power. Whereas some of the chapters offer detailed linguistically informed critiques of the ways in which old and new expressions of masculinities are complicit in the reproduction of men's hegemonic positions of power, others provide a more complex picture, one in which collusion and subversion go hand in hand. Contributions argue for the need for research on language and masculinities to expand its remit so as to engage with gay masculinities and unsettle gendered categories in order to consider the ways in which women, transgender and intersex individuals also perform a variety of masculinities. Finally, unlike Johnson and Meinhof's 1997 collection, this volume not only offers a wider and perhaps queerer perspective on the study of language and masculinities but also covers a broader geographical and socio-cultural spectrum including work on Brazil, Israel, New Zealand, Singapore and South Africa.

Challenges of Anglophone Language(s), Literatures and Cultures Alena Kačmárová, 2017-01-06 This book explores scholarly challenges within the fields of Anglophone language, literature and culture. The literature part investigates twentieth-century American English and Australian literature dealing with both poetry and prose and discussing topics of identity, gender, metafiction, postmodern conditions and other relevant theoretical issues in contemporary literature. The culture part treats theoretical approaches in cultural studies that are vital in today's cultural context, especially in Central European universities, the Irish language and culture and contemporary cultural phenomena inspired by the growing ubiquity of technological intrusions into various fields of cultural production.

Shifting Visions Allyson Jule, 2015-02-05 This collection of studies explores recent research in the area of gender and language use experienced around the world. Featuring an interdisciplinary and global approach, the contributors demonstrate how focus on gender and language creates the lived experience. The studies in this book use gender and language to analyze a broad range of topics including religion, politics, education and sexuality. Contributions include the use of language of a new female bishop in Canada, heteronormativity in language use in Croatia, women's magazines in Japan and the electoral code in Cameroon. Using critical feminist discourse analysis, the chapters represent scholarship from Britain, Europe, North America, Asia and Africa.
