quality health care for people with intellectual and developmental disabilities IDD It focuses on providing the reader a practical approach to dealing with the health and well being of people with IDD in general terms as well as in dealing with specific conditions In addition it offers the reader a perspective from many different points of view in the health care delivery system as well as in different parts of the world This is the 3rd and much expanded edition of a text that was first published in 1989 Lea and Fibiger The second edition was published in 2006 Paul Brookes and has been used as a formal required text in training programs for physicians nurses and nurse practitioners as well as by administrators who are responsible for programs serving people with IDD This book is considered the Bible in the field of health care for people with IDD since 1989 when the first edition came out *Neurodevelopmental Disabilities* Dilip R. Patel,Donald E. Greydanus,Hatim A. Omar,Joav Merrick,2011-04-07

Increasingly more and more children with developmental disabilities survive into adulthood Pediatricians and other clinicians are called upon to care for an increasing number of children with developmental disabilities in their practice and thus there is a need for a practical guide specifically written for paediatricians and primary care clinicians that addresses major concepts of neurodevelopmental pediatrics In the United States the specialty training leading to a conjoint board certification by the American Board of Pediatrics and American Board of Psychiatry and Neurology requires a total of 6 years of training 2 years of pediatrics 1 year of neurology 18 months of child neurology 18 months of neurodevelopmental disabilities As of December 2006 in the US there were 241 pediatricians and 55 child neurologists certified in the subspecialty of Neurodevelopmental Disabilities Thus most of the children with developmental disabilities are seen by pediatricians and therefore it is important for these pediatricians to be well informed of common issues in the field The 60 000 or so pediatricians in the United States and hundreds more in other countries are the main target audience for a practical book on neurodevelopmental pediatrics **Pearson Cert via Garth** Pearson & Garth,2011-01-07 Stuttering
