Learning context effects Carmen Pérez Vidal, Sonia López-Serrano, Jennifer Ament, Dakota J. Thomas-Wilhelm, 2018 This book deals with the effects of three different learning contexts mainly on adult but also on adolescent learners language acquisition The three contexts brought together in the monograph include i a conventional instructed second language acquisition ISLA environment in which learners receive formal instruction in English as a Foreign Language EFL ii a Study Abroad SA context which learners experience during mobility programmes when the target language is no longer a foreign but a second language learnt in a naturalistic context iii the immersion

Language Learning in Study Abroad

Wenhao Diao, Emma Trentman, 2021-03-04 Vestiges of monolingual bias are present in the portrayal of study abroad as an idealized monolingual immersion experience and the steps many programs take to encourage or enforce target language monolingualism In reality study abroad is often inherently multilingual This book addresses the need for a recognition of the multilingual realities of study abroad across a variety of traditional and non traditional national contexts and target languages The chapters examine multilingual socialization and translanguaging with peers local hosts and instructors how the target language is necessarily entwined in global local and historical contexts and how students negotiate the use of local and global varieties of English Together the chapters present a powerful argument for scholars and study abroad practitioners to consider and critically incorporate multilingual realities into their research and planning
