The intent of this book the author's goal for you is to understand the baseless underpinnings of almost all our fears You read that correctly almost all our fears and therefore to discard them The author has expertly coached leaders and managers in the discovery of examination of elimination of and sustained freedom from fears We all know people who are charming and articulate but flounder on a stage addressing colleagues musicians who master intricate scores but can't play the basics when asked to solo athletes who choke business people who are strong until it comes time to ask for the business people who consistently feel like imposters We are far better at dealing with external tangible fears than our own imagined ones We purchase insurance watch the safety demonstrations know how to use the Heimlich Maneuver But those are responses to rare and often never occurring emergencies Our mythical and monstrous fears are daily dark clouds masking our talents no less than depression or guilt It's time to realize there is no monster under the bed never has been and never will be without having to check nightly and without needing a weapon on the night table Picture yourself freed of restraints that you could never properly articulate and were loath to discuss but which you carried on your shoulders constantly a dead weight nonetheless Essentially this book is for entrepreneurs business owners and those who seek a better position for themselves and their talents but who procrastinate delay and hang back It's about isolating and overcoming the internal fears that we generate every day like a geyser triggered by time events or shifts in the environment We are our own worst enemies and we ignore the practical remedies to escape fear because we use our energies instead on blaming everyone else Leadership Material Diana

Jones, 2017-04-25 How do you become influential What are the qualities that ensure people are drawn to you And how do you develop these Personal experience is the raw material for building executive presence Viewed as touchy feely intangible and invisible most leaders separate their personal lives from their professional ones Executive coach Diana Jones argues that this is unwise In fact the soft side of leadership empathy compassion and authentic communication derived from personal experience is both powerful and essential to enhancing executive presence influencing others and achieving results Through compelling stories and examples from Jones's coaching sessions readers will learn how to make enduring behavioral changes that will produce better business results and create alignment among disparate groups using empathy and leadership

Your Legacy is Now Alan Weiss, 2021-03-17 For over 30 years Alan Weiss has consulted coached and advised everyone from Fortune 500 executives state governors non profit directors and entrepreneurs to athletes entertainers and beauty pageant contestants That s quite an assortment of people and they run into the thousands Most of them have had what we euphemistically call means and some of them have had a lot more than that Others have been aspiring and with more ends in sight than means on hand Alan Weiss states I ve dealt with esteem low narcissism high family problems leadership dysfunctions insecurities addictions and ethical quandaries And I ve talked with them through the coronavirus crisis But don t get the wrong idea About 95% of these people have been well meaning honest to the best of their knowledge and interested in becoming a better person and better professional Otherwise they wouldn t be talking to me I found the equivalent of the runner s wall in their journeys where they must break through the pain and the obstacles and then can keep going with renewed energy and spirit But runners know how far they must go after the breakthrough be it another half lap or another five miles There is a finish line I ve found that people in all positions even after the breakthrough don t know where they are in the race let alone where the finish line is They do not know what meaning is for them They may have money in the bank good relationships the admiration of others and the love of their dogs But they have no metrics for What now They believe that at the end of life there is a tallying some metaphysical accountant who totals up their contributions deducts their bad acts and creates the hopefully positive difference That difference they believe is their legacy But the thought that legacy

arrives at the end of life is as ridiculous as someone who decides to sell a business and tries to increase its valuation the day prior Legacy is now Legacy is daily Every day we create the next page in our lives but the question becomes who is writing it and what s being written Is someone else creating our legacy Or are we ourselves simply writing the same page repeatedly Or do we leave it blank Our organic living legacy is marred and squeezed by huge normative pressures There is a threshold point at which one s beliefs and values are overridden by immense peer pressure Our metrics are forced to change In an age of social media biased press and bullying we ve come to a point where our legacy ironically is almost out of our hands Yet our meaning our creation of meaning and not a search for some illusive alchemy creates worth and impact for us and all those with whom we interact
