Lynch Pacific Languages An Intro:

Pacific Languages John Lynch, 2016-06-01 Almost one quarter of the world's languages are or were spoken in the Pacific making it linguistically the most complex region in the world. Although numerous technical books on groups of Pacific or Australian languages have been published and descriptions of individual languages are available until now there has been no single book that attempts a wide regional coverage for a general audience. *Pacific Languages* introduces readers to the grammatical features of Oceanic, Papuan and Australian languages as well as to the semantic structures of these languages. For readers without a formal linguistic background a brief introduction to descriptive linguistics is provided. In addition to describing the structure of Pacific languages this volume places them in their historical and geographical context, discusses the linguistic evidence for the settlement of the Pacific and speculates on the reason for the region's many languages. It devotes considerable attention to the effects of contact between speakers of different languages and to the development of pidgin and creole languages in the Pacific. Throughout technical language is kept to a minimum without oversimplifying the concepts or the issues involved. A glossary of technical terms, maps and diagrams help identify a language geographically or genetically, reading lists and a language index guide the researcher interested in a particular language or group to other sources of information. Here at last is a clear and straightforward overview of Pacific languages for linguists and anyone interested in the history of sociology of the Pacific.

An Introduction to the Languages of the World Anatole Lyovin, Brett Kessler, William Ronald Leben, 2017 The only textbook of its kind. *An Introduction to the Languages of the World* is designed to introduce beginning linguistics students who now typically start their study with little background in languages to the variety of the languages of the world.

Language Planning and Policy in the Pacific Richard B. Baldauf, Robert B. Kaplan, 2006 This volume covers the language situation in Fiji, The Philippines and Vanuatu explaining the linguistic diversity, the historical and political contexts and the current language situation including language in education, planning, the role of the media, the role of religion and the roles of non-indigenous languages. The authors are indigenous and/or have been participants in the language planning context.

Functional Heads Laura Brugé, 2012-06-20 The cartographic project

considers evidence for a functional head in one language as evidence for it in universal grammar In this volume some of the most influential linguists who have participated in this long lasting debate offer their recent work in short self contained case studies

A Grammar of Paluai Dineke Schokkin, 2020-02-24 This is the first comprehensive description of Paluai an Oceanic Austronesian language spoken on Baluan Island in Manus Province Papua New Guinea Based on extensive field research the grammar covers all linguistic levels including phonology morphology syntax and semantics while paying particular attention to pragmatics and discourse practices This is the first comprehensive description of Paluai a language from the underdescribed Admiralties subgroup a first order branch of Oceanic Austronesian Paluai is spoken on Baluan Island in Manus Province Papua New Guinea by two to three thousand people The grammar is based on extensive field research by the author and covers all linguistic levels After a general introduction of its socio cultural context the language s phonology is discussed followed by two chapters on its parts of speech divided by open and closed word classes Following chapters address topics such as the structure of the noun phrase verbal and non verbal clauses grammatical relations serial verb constructions mood negation and clause combining The final chapter provides an in depth discussion of pragmatics and discourse practices relevant to Paluai illustrated through two narrative texts that are included integrally at the end of the book This grammar is of interest to scholars working on Austronesian languages particularly those of the New Guinea region and those working on linguistic typology It is also relevant to those interested in the history languages and cultures of this region more generally

description of Unua one of two dialects of Unua Pangkumu an Oceanic language of Malakula Island Vanuatu Unua has about 700 speakers who are bilinguals using Unua in local interactions and using the national language Bislama non locally as well as in local public and religious settings The description is based on material collected in the field from speakers of different age groups in the five Unua villages The data corpus includes a substantial body of material contemporary translations of the New Testament gospels audio recorded transcribed and glossed texts and elicited material collected with a range of speakers The analysis includes comparisons with other Malakula languages and is both of typological and historical comparative

interest The data documentation is substantial and detailed *Moon Tahiti* David Stanley,2011-04-05 South Pacific expert David Stanley knows the best way to vacation in Tahiti from browsing the Papeete market to snorkeling off the island of Moorea David also includes unique trip ideas like The Best of French Polynesia and Underwater in the Tuamotu Islands Complete with details on taking lagoon tours and jeep safaris lounging in Polynesian spas and partaking in lavish seafood buffets Moon Tahiti gives travelers the tools they need to create a more personal and memorable experience Reciprocals and Semantic Typology Nicholas Evans,Alice Gaby,Stephen C. Levinson,Asifa Majid,2011-08-18 Reciprocals are an increasingly hot topic in linguistic research This reflects the intersection of several factors the semantic and syntactic complexity of reciprocal constructions their centrality to some key points of linguistic theorizing such as Binding Conditions on anaphors within Government and Binding Theory and the centrality of reciprocity to theories of social structure human evolution and social cognition No existing work however tackles the question of exactly what reciprocal constructions mean cross linguistically Is there a single Platonic reciprocal meaning found in all languages or is there a cluster of related concepts which are nonetheless impossible to characterize in any single way That is the central goal of this volume and it develops and explains new techniques for tackling this question At the same time it confronts a more general problem facing semantic typology how to investigate a category cross linguistically without pre loading the definition of the phenomenon on the basis of what is found in more familiar languages Children's Multilingual Literacy Pauline Harris,Cynthia Brock,Elspeth McInnes,Bec Neill,Alexandra Diamond,Jenni Carter,Ufemia Camaitoga,Meresiana Krishna,Eleni Giannakis,2020-10-22 This book offers a comprehensive report on a three year cross cultural critical participatory action research study conducted in children s homes and communities in Fiji This project contributed to building sustainable local capacity in communities without access to early childhood services so as to promote preschool children s literacy development in their home languages and English The book includes rich descriptions of the young children s lived multilingual literacy practices in their home and community contexts This work advances research based practices for fostering young children s multilingual literacy and building community capacity in a post colonial Pasifika context further it shares valuable insights into processes and complexities that are inherent to multiliteracy and cross cultural research

Rethinking Universals Jan Wohlgemuth,Michael Cysouw,2010-03-26 Universals of language have been studied extensively for the last four decades allowing fundamental insight into the principles and general properties of human language Only incidentally have researchers looked at the other end of the scale And even when they did they mostly just noted peculiar facts as quirks or unusual behavior without making too much of an effort at explaining them beyond calling them exceptions to various rules or generalizations Rarissima and rara features and properties found only in one or very few languages tell us as much about the capacities and limits of human language s as do universals Explaining the existence of such rare phenomena on the one hand and the fact of their rareness or uniqueness on the other is a reasonable and

interesting challenge to any theory of how human language works The present volume for the first time compiles selected papers on the study of rare linguistic features from various fields of linguistics and from a wide range of languages Field Linguistics Terry Crowley,2007 This book is a comprehensive practical guide to field linguistics It deals in particular with the problems arising from the documentation of endangered languages Terry Crowley shows how to prepare for that task and how to record analyse and describe languages in the field Mixing formal instruction and anecdote the author shares his rich experience with the new generation of linguistic fieldworkers Robert Louis Stevenson's Pacific Impressions Carla Manfredi,2018-11-11 This book tackles photography's role during Robert Louis Stevenson's travels throughout the Pacific Island region and is the first study of his family's previously unpublished photographs Cutting across disciplinary boundaries the book integrates photographs with letters non fiction and poetry and includes much unpublished material The original readings of photographs and non fiction highlight Stevenson's engagement with colonial ideology and reality and advance new arguments about Victorian travel settlement and colonialisms in the Pacific Like the Stevensons the book moves from the Marquesas to the atolls of the Gilbert Islands in Micronesia from the Kingdom of Hawaii's political ambitions to Samoan plantations and the Stevensons settlement at Vailima Central to this study is the notion that Pacific history and Pacific Island cultures matter to the interpretation of Stevenson's work and a rigorous historical and cultural contextualization ensures that local details structure literary and photographic interpretation The book's historical grounding is key to its insightful conclusions regarding travel settlement photography and colonialism **Language Planning and Policy** Anthony Liddicoat,Richard B. Baldauf,2008 Language problems potentially exist at all levels of human activity including the local contexts of communities institutions This volume explores the ways in which language planning works as a local activity in a wide variety of contexts around the world deals with a wide range of language planning issues *The Tapestry of Culture* Abraham Rosman, professor emeritus, Barnard College, Columbia University,Paula G. Rubel, professor emerita, Barnard College, Columbia University,Maxine Weisgrau, Barnard College, Columbia University,2017-01-12 Tapestry of Culture provides students with the tools needed to encounter different cultures one of the most exciting elements of anthropology The tenth edition incorporates new material throughout such as ethnographic examples in every chapter strengthened discussions of gender transnationalism and globalization and more
