Club Government Seth Alexander Thevoz,2018-03-30 The book phenomenon of Club Government in the mid nineteenth century when many of the functions of

government were alleged to have taken place behind closed doors in the secretive clubs of London's St James's district has not been adequately historicized. Despite Club Government being referenced in most major political histories of the period it is a topic which has never before enjoyed a full length study. Making use of previously sealed club archives and adopting a broad range of analytical techniques this work of political history, social history, sociology and quantitative approaches to history seeks to deepen our understanding of the distinctive and novel ways in which British political culture evolved in this period. The book concludes that historians have hugely underestimated the extent of club influence on high politics in Westminster and though the reputation of clubs for intervening in elections was exaggerated the culture and secrecy involved in gentleman's clubs had a huge impact on Britain and the British Empire.

Managerial Decision Modeling Nagraj (Raju) Balakrishnan, Barry Render, Ralph Stair, Charles Munson, 2017-08-07 This book fills a void for a balanced approach to spreadsheet based decision modeling. In addition to using spreadsheets as a tool to quickly set up and solve decision models the authors show how and why the methods work and combine the user's power to logically model and analyze diverse decision making scenarios with software based solutions. The book discusses the fundamental concepts, assumptions and limitations behind each decision modeling technique, shows how each decision model works and illustrates the real world usefulness of each technique with many applications from both profit and nonprofit organizations. The authors provide an introduction to managerial decision modeling, linear programming models, modeling

applications and sensitivity analysis transportation assignment and network models integer goal and nonlinear programming models project management decision theory queuing models simulation modeling forecasting models and inventory control models The additional material files Chapter 12 Excel files for each chapter Excel modules for Windows Excel modules for Mac 4th edition errata can be found at <https://www.degruyter.com/view/product/486941> Applied Meta-Analysis with R and Stata Ding-Geng (Din) Chen, Karl E. Peace, 2021-03-30 Review of the First Edition The authors strive to reduce theory to a minimum which makes it a self learning text that is comprehensible for biologists physicians etc who lack an advanced mathematics background Unlike in many other textbooks R is not introduced with meaningless toy examples instead the reader is taken by the hand and shown around some analyses graphics and simulations directly relating to meta analysis A useful hands on guide for practitioners who want to familiarize themselves with the fundamentals of meta analysis and get started without having to plough through theorems and proofs Journal of Applied Statistics Statistical Meta Analysis with R and Stata Second Edition provides a thorough presentation of statistical meta analyses MA with step by step implementations using R Stata The authors develop analysis step by step using appropriate R Stata functions which enables readers to gain an understanding of meta analysis methods and R Stata implementation so that they can use these two popular software packages to analyze their own meta data Each chapter gives examples of real studies compiled from the literature After presenting the data and necessary background for understanding the applications various methods for analyzing meta data are introduced The authors then develop analysis code using the appropriate R Stata packages and functions What's New in the Second Edition Adds Stata programs along with the R programs for meta analysis Updates all the statistical meta analyses with R Stata programs Covers fixed effects and random effects MA meta regression MA with rare event and MA IPD vs MA SS Adds five new chapters on multivariate MA publication bias missing data in MA MA in evaluating diagnostic accuracy and network MA Suitable as a graduate level text for a meta data analysis course the book is also a valuable reference for practitioners and biostatisticians even those with little or no experience in using R or Stata in public health medical research governmental agencies and the pharmaceutical industry Omics Technologies for Sustainable Agriculture and Global Food Security Volume 1 Anirudh Kumar, Rakesh Kumar, Pawan Shukla, Manish K.
