A Human Creation W.R. Frederick, 2019-02-01 A Human Creation challenges god belief under several disciplines History shows that humanity s need for the supernatural is rooted in the ancient past and that subsequent religious scriptures are poor proof of any god s existence wrought with myth fabrication and textual error Evolution is supported by the evidence not a divine intervention or design The brain your mind can make you a believer and society culture and power politics can enforce belief The physics of the universe show that there is no need for a god to arrive at today s reality while life s existence was a natural certainty All of this means that humans fabricated their gods to satisfy their needs and fears

The Life of the Mind (Renewed Minds) Clifford Williams, 2002-03-01 What purpose do purely intellectual pursuits have in the lives of Christians Why should Christians study subjects that have little bearing on their future careers and ministry In a style reminiscent of the work of Arthur Holmes and Harry Blamires veteran professor of philosophy Clifford Williams addresses these issues and more in this succinct and accessible examination of the life of the mind Christians cultivating the life of the mind actively pursue situations and discussions that require experimentation reflection and perseverance They are interested in the acquisition of knowledge that is both unrelated and directly related to their faith Williams answers common Christian objections to such activities describes the virtues of the person who engages in the life of the mind and asserts that the life of the mind is justifiably a Christian calling The Life of the Mind is directed toward college students contemplating the importance of college and intellectual activity in general but it will be enjoyed by all committed to developing a Christian mind

Nelson "Mac" McAlexander, 2013-11 In a dream I had back in 1977 thousands of people were shouting out in unison an unusual name that I had never heard before What I saw in that dream compelled me to try and find out if this name had any special meaning That same day a language professor at the University of Maryland told me the only word he knew of that sounded like the one I heard in the dream was a Greek word He said the word had three possible definitions which changed when the accent over the e changed Those definitions are very significant and I write about them in the chapter on Dreams and Visions The definitions and an interpretation of the dream by a Rabbi three days after the dream led me to eventually believe that this unusual name could be the fulfillment of Revelations 2:17 and or 3:12 In subsequent dreams I was writing a book titled God's Plan to Save America and in one of those dreams a man was passing out white stones that had the name written on it that I heard in the dream It is important to note that I learned of these Biblical Scriptures after I had these unusual dreams Revelations 2:17 Let the one who has an ear hear what the spirit says to the congregations To him that

conquers I will give some of the hidden manna and I will give him a white pebble and UPON THE PEBBLE A NEW NAME written which no one knows except the one receiving it **As It Was in the Beginning...So Shall It Be** Michael

Scantlebury,2018-09-27 Have you ever wondered about life and all its intricacies Why are we here on planet earth What s out there in deep dark space Since time began man has tried to explain the known world Study and research have revealed many truths about the world but many questions haven t yet been answered While many Christians enjoy documentaries that ponder the many ways we may have gotten here from the theory that alien transports dropped us off to the idea of a cosmic slime pit which one day came to life the only authority we have as Born Again followers of Jesus Christ is the Book of Genesis Only God s inspired word the Holy Bible can answer the many questions at hand In this book we will journey into the heart and mind of our incredible Creator to learn the reason and purpose for our existence Every created being will be considered from the angels and lucifer to Adam and Eve and their eventual fall into sin We will also contemplate God s masterful plan for the salvation of mankind and explore what we should expect from life after death **THE TRUTH OF THE ORIGIN OF**

THE UNIVERSE Sabrie Soloman,2024-06-12 Creation Big Bang Science Fiction or Science Madness The debate between creationism and scientific theories of the origin of the universe has been an ongoing and contentious one On one side we have the belief in a divine Creator who is responsible for the creation of the world in six days as described in the Bible On the other side we have scientific theories such as the Big Bang which posits that the universe began with a massive explosion around 13.8 billion years ago For those who adhere to the belief in a Creator the concept of a six day creation holds immense significance This belief is rooted in faith and is a fundamental tenet of many religious traditions The idea that a higher power carefully constructed the universe day by day is a source of comfort and meaning for many people Some may argue that the Big Bang theory is nothing more than science fiction or science madness dismissing it as a fanciful and unsubstantiated idea

How the World Was Made K B Napier,2018-09-24 This book could have been ten times longer but it serves the purpose of introducing Christians to the truth concerning the beginning of the world and the universe The first three chapters of Genesis describe historical facts not myths as the Hebrew texts prove Most quotes are by scientists Evolutionists jealously guard their failed hypothesis because as they say they cannot let God get a foothold in science In itself this is an admission of anxiety that truth will one day be shown and it is NOT found in scientism which is the fake version of science There are absolutely NO proofs for evolution But how many know this Evolutionists are so scared of this truth getting out they will resort to legal restraints They are so afraid they enforce evolution only in schools by intimidation and false science and denigrate students in universities for daring to question evolutionary orthodoxy Yet genuine scientists KNOW evolution is fake They hate God That s it **The Rapture 2028: America's Countdown to Apocalypse!** David Netherton,2015-01-02 A Shocking Bible Discovery found in the Dead Sea Scrolls After forty years of research in the Biblical text this book came about while studying Biblical manuscripts in their original Greek I was given a project by my Greek professor to research the Dead

Sea Scrolls This research changed my life my belief about time and the books of the Bible While researching the Dead Sea Scrolls I found two historical books that were in the Bible during Jesus time on this Earth So I ask this question Why did man remove these books The deeper I studied I discovered that our Bible should have seventy books instead of sixty six Six is the number of man and a number representing incompleteness Sixty six doubles its meaning and the number 666 needs no explanations Men do resist God's will today 2 Peter 3:9 While researching the subject I encountered extreme opposition The books of the Bible should be divisible by seven So we are missing one New Testament book and three Old Testament books to make a seventy book Bible Have we been deceived by our religious leaders and science community Does all time truly consist in a 7 007 year window This book is written from the complete seventy book Bible which was revealed in the Dead Sea Scrolls Do the scrolls reveal angels mating with the daughters of Adam Where did the giant human originate Have we all been lied to about Genesis 6 and the events during the days of Noah Are angels and demons masquerading as aliens and UFOs in a great end of time deception Will the dollar collapse by 2022 Will the U S be destroyed in one day by 2028 However when He the Spirit of truth has come He will guide you into all truth for He will not speak on His own authority but whatever He hears He will speak and He will tell you things to come John 16:13-14

Following the Truth, Wherever It Leads
Kenneth G. Reddington, 2015-03-20 This book encourages an openness to accept and experience the truth whatever its source As philosopher Francis Schaeffer famously asked How can we be sure that what we think we know of the world outside ourselves really corresponds to what is there Where do we look for an understanding of ourselves our world and the meaning of our existence Is there such a thing as an objective and unchanging truth that applies to all people everywhere throughout time Can we discover it in philosophy in the natural or social sciences or in religion This book sets out to explore the answers to these questions and considers how finding the answers can enrich our lives and daily experience Following the Truth Wherever It Leads investigates areas where the authenticated discoveries of natural science and the clear statements of the Bible agree with and support one another and asks whether there really are irreconcilable differences between them It ends by attempting to portray a worldview whose promise may add fresh meaning and purpose to our lives

that animal pain disease suffering and death cause a problem for theism because they believe that an all knowing all powerful and all good God would not use millions of years of animal suffering just to make a world suitable for humans Animal suffering was not a concern for theism through the medieval period but it has been increasingly discussed in philosophy of religion since modern times and there is especially a large and growing amount of literature on this subject that has been published in the last few decades This handbook serves as a guide for those interested in the literature on the problem by bringing together experts in the philosophy of religion theology environmental ethics and the philosophy of animal minds It not only presents major formulations of the problem of animal suffering and major theodicies but it also discusses metaethical issues regarding animal suffering the question of animal consciousness and self awareness and their implications for animal suffering and what implications available theodicies might have for animal ethics

THE TRUTH OF THE ORIGIN OF THE UNIVERSE Dr. Sabrie Soloman, 2024-08-01 The topic of undeserving credit given to the Big Bang and UFOs is a controversial one with many people having strong opinions on the matter While both the Big Bang theory and the existence of UFOs have been widely accepted the author argues that they are given too much credit and recognition without sufficient evidence to support their claims The Big Bang theory is widely accepted as the most plausible explanation for the origin of the universe Some critics argue that it is not the only possible explanation for the universe's origins Some alternative theories such as the steady state theory or the oscillating universe theory have been proposed as alternatives to the Big Bang theory Similarly the existence of UFOs is a topic that has been hotly debated for decades While there have been countless reports of UFO sightings and encounters there is a lack of concrete evidence to support the existence of extraterrestrial visitors While the Big Bang theory and UFOs may be popular topics in popular culture it is important to approach them with a critical eye and to consider the evidence before giving them undeserving credit
