Landscape Design Theory And Application:

Landscape Design Ann Marie VanDerZanden, Steven N. Rodie, 2008 Landscape Design Theory and Application was written from a blended perspective of a horticulturist and landscape architect who together have over 25 years of university teaching experience in landscape design This text discusses design tools used by landscape design professionals and then describes how to use these tools to graphically represent a landscape design concept It introduces the topic of design as a process and how human preferences impact landscape design components Students will learn the basic elements of art and how these elements are applied to aesthetic landscape design principles They will also learn to understand how functional design principles need to be considered in concert with the aesthetic principles and how landscape preference influences the application of the aesthetic principles The process of landscape design is discussed in detail including strategies for interacting with the client selling a landscape concept and creating a design from start concept development to finish final plan With the foundation for design principles and design process in place this text provides detailed descriptions of plant material and hardscape material selections respectively Lastly strategies for pricing the landscape examples of landscape business models and highlights a successful landscape design build company are covered in order to provide concrete examples of how and why they have been successful *Landscape Theory in Design* Susan Herrington, 2016-12-08

Phenomenology Materiality Cybernetics Palimpsest Cyborgs Landscape Urbanism Typology Semiotics Deconstruction the minefield of theoretical ideas that students must navigate today can be utterly confusing and how do these theories translate to the design studio Landscape Theory in Design introduces theoretical ideas to students without the use of jargon or an assumption of extensive knowledge in other fields and in doing so links these ideas to the processes of design In five thematic chapters Susan Herrington explains the theoretic groundings of the theory of philosophy why it matters to design an example of the theory in a work of landscape architecture from the twentieth and twenty first centuries debates surrounding the theory particularly as they elaborate modern and postmodern thought and primary readings that can be read as companions to her text An extensive glossary of theoretical terms also adds a vital contribution to students comprehension of theories relevant to the design of landscapes and gardens Covering the design of over 40 landscape architects architects and designers in 111 distinct projects from 20 different countries Landscape Theory in Design is essential reading for any student of the landscape *Landscape Design Methods Illustrated* Tom Turner, CONTENTS 1 Context sensitive landscape architecture 2 Aims of landscape architecture 3 Theory in landscape architecture 4 Ten historic design theories 5 Modernist Postmodern and Post postmodern Art 6 Modern Design Theory including Ecological Design and ESRI Geodesign 7 Postmodern Design Theory including Deconstructionism and Landscape Urbanism 8 Post postmodern Design Theory including PAKILDA and Ecological Urbanism 9 On Values including McHarg Land Ethics and Environmental Ethics
