Language Typology and Syntactic Description: Volume 1, Clause Structure Timothy Shopen, 2007-10-04 This unique three volume survey brings together a team of leading scholars to explore the syntactic and morphological structures of the world's languages. Clearly organized and broad ranging it covers topics such as parts of speech, passives, complementation, relative clauses, adverbial clauses, inflectional morphology, tense, aspect, mood, and diexis. The contributors look at the major ways that these notions are realized and provide informative sketches of them at work in a range of languages. Each volume is accessibly written and clearly explains each new concept introduced. Although the volumes can be read independently, together they provide an indispensable reference work for all linguists and fieldworkers interested in cross linguistic generalizations. Volume I covers parts of speech, systems, word order, the noun phrase, clause types, speech act distinctions, the passive, and information packaging in the clause.

The Linguistics of Sitting, Standing and Lying John Newman, 2002-01-01 This volume explores properties of sit, stand, and lie verbs reflecting three of the most salient postures associated with humans. An introductory chapter by the Editor provides an overview of directions for research into posture verbs. These directions are then explored in detail in a number of languages: Dutch, Korean, Japanese, Lao, Chantyal, Magar, Tibeto-Burman, Chipewyan, Athapaskan, Trumai, spoken in Brazil, Kxoe, Khoisan, Mbay, Nilo-Saharan, Oceanic, Enga, Ku Waru, Papuan, Arrernte, Pitjantjatjara, Ngan'gityemerri, Australian. The contributors discuss data relevant to many fields of linguistic inquiry including patterns of lexicalization, e.g. simplex or complex verb forms, morphology, e.g. state vs. action formations, grammaticalization, e.g. extension to locational predicates, aspect markers.

auxiliaries copulas classifiers and figurative extension A final chapter reports on an experimental methodology designed to establish the relevant cognitive parameters underlying speakers judgements on the polysemy of English stand Taken together the chapters provide a wealth of cross linguistic data on posture verbs

Handbook of Descriptive Linguistic Fieldwork Shobhana L. Chelliah, Willem J. de Reuse, 2010-10-06 The Handbook of Descriptive Linguistic Fieldwork is the most comprehensive reference on linguistic fieldwork on the market bringing together all the reader needs to carry out successful linguistic fieldwork Based on the experiences of two veteran linguistic fieldworkers and advice from more than a twenty active fieldwork researchers this handbook provides an encyclopedic review of current publications on linguistic fieldwork and surveys past and present approaches and solutions to problems in the field and the historical political and social variables correlating with fieldwork in different areas of the world The discussion of the ethical dimensions of fieldwork as well as what constitutes the typical linguistic fieldwork setting or consultant is explored from multiple perspectives relevant to fieldwork on every continent Included is information omitted in most other texts on the subject such as the collection representation management and methods of extracting grammatical information from discourse and conversational data as well as the relationship between questionnaire based elicitation text based elicitation and philology and the need for combinations of these methods The book is useful before during and after linguistic field trips since it provides extensive practical macro and micro organization and planning fieldwork tips as well as a handy sketch of major typological features for use in linguistic analysis Comprehensive references are provided at the end of each chapter as resources relevant to the reader's particular interests

Tuvaluan Niko Besnier, 2002-09-11 Tuvaluan is a Polynesian language spoken by the 9 000 inhabitants of the nine atolls of Tuvalu in the Central Pacific as well as small and growing Tuvaluan communities in Fiji New Zealand and Australia This grammar is the first detailed description of the structure of Tuvaluan one of the least well documented languages of Polynesia Tuvaluan pays particular attention to discourse and sociolinguistics factors at play in the structural organization of the language

Nonverbal Predication in Amazonian Languages Simon E. Overall, Rosa Vallejos, Spike Gildea, 2018-08-15 This volume explores typological variation within nonverbal predication in Amazonian languages Using abundant data generally from original and extensive fieldwork on under described languages it presents a far more detailed picture of nonverbal predication constructions than previously published grammatical descriptions On the one hand it addresses the fact that current typologies of nonverbal predication are less developed than those of verbal predication on the other it provides a wealth of new data and analyses of Amazonian languages which are still poorly represented in existing typologies Several contributions offer historical insights either reconstructing the sources of innovative nonverbal predicate constructions or describing diachronic pathways by which constructions used for nonverbal predication spread to other functions in the grammar The introduction provides a modern typological overview and also proposes a new diachronic typology to explain how distinct types of nonverbal predication arise

Linguistic Archaeology Gerd Carling, 2024-05-22 Linguistic Archaeology provides students with an accessible introduction to the field of linguistic archaeology both as theoretical framework and methodological toolkit for understanding the conceptual foundations and practical considerations involved in reconstructing the prehistory of language. The book introduces the field's expansion out of traditional approaches to focus more on the interplay of related disciplines and the reconstruction of human language beyond the written period. The opening chapter outlines key theories and charts their development from the nineteenth century through to today, drawing on work from computational historical linguistics, phylogenetics, and linguistic anthropology. Subsequent chapters build on theory to take a hands-on approach in mining empirical data in the process of reconstructing language prehistory, including references, links, and instructions to open access resources, and offering a step-by-step guide for employing the rich range of available methods in working with this data. Closing chapters situate theory and method in context against chronological and geographic perspectives and look ahead to future trajectories for continued progress in this emerging area of study. Offering a holistic entry point into linguistic archaeology, this innovative volume will be a helpful resource for students in historical linguistics, linguistic anthropology, language evolution, and cultural geography.

Flexible Word Classes Jan Rijkhoff, Eva Helena van Lier, 2013-08-29 This book is the first major cross-linguistic study of flexible words, i.e. words that cannot be classified in terms of the traditional lexical categories Verb, Noun, Adjective, or Adverb. It includes new cross-linguistic studies of word class systems as well as original descriptive and theoretical contributions.

The Bantu Languages Mark Van de Velde, Koen Bostoen, Derek Nurse, Gérard Philippson, 2019-01-30 Written by an international team of experts, this comprehensive volume presents grammatical analyses of individual Bantu languages, comparative studies of their main phonetic, phonological, and grammatical characteristics, and overview chapters on their history and classification. It is estimated that some 300 to 350 million people or one in three Africans are Bantu speakers. Van de Velde and Bostoen bring together their linguistic expertise to produce a volume that builds on Nurse and Philippson's first edition. The Bantu Languages 2nd edition is divided into two parts. Part 1 contains 11 comparative chapters, and Part 2 provides grammar sketches of 12 individual Bantu languages, some of which were previously undescribed. The grammar sketches follow a general template that allows for easy comparison. Thoroughly revised and updated to include more language descriptions and the latest comparative insights, new to this edition: new chapters on syntax, tone reconstruction, and language contact; 12 new sketch grammars; thoroughly updated chapters on phonetics, aspect, tense, mood, and classification; exhaustive catalogue of known languages with essential references. This unique resource remains the ideal reference for advanced undergraduate and postgraduate students of Bantu linguistics and languages. It will be of interest to researchers and anyone with an interest in historical linguistics, linguistic typology, and grammatical analysis.

A Grammar of Lopit Jonathan Moodie, Rosey Billington, 2020-09-25 In *A Grammar of Lopit* Jonathan Moodie and Rosey Billington provide the first detailed description of Lopit an Eastern Nilotic language traditionally spoken in the Lopit Mountains in South Sudan Drawing on extensive primary data the authors describe the phonology morphology and syntax of the Lopit language Their analyses offer new insights into phenomena characteristic of Nilotic languages such as Advanced Tongue Root vowel distinctions tripartite number marking and marked nominative case systems and they uncover patterns which are previously unattested within the Eastern Nilotic family such as a three way contrast in aspect number marking with the greater singular and two kinds of inclusory constructions This book offers a significant contribution to the descriptive and typological literature on African languages

A Grammar of Alto Perené (Arawak) Elena Mihas, 2015-06-26 Ash ninka Peren belongs to the Kampa group of the Arawak family located in the central Peruvian Amazon in the foothills of the Andes mountains While limited grammatical studies of Kampa languages exist this grammar is by far the most comprehensive study of any language of this sub family and is one of only two or three comparable studies of Arawak languages more generally

Intonation between phrasing and accent Timo Buchholz, 2023-11-06 Are our concepts from prosodic typology like word stress pitch accent head edge prominence really that tightly linked to individual languages How are meanings often signaled via intonation in European languages like information structure and sentence type expressed in communicative acts between speakers who are bilingual in such a European language Spanish and one in which many of these meanings are expressed by morphology Quechua Based on semi spontaneous dialogical elicitation data in both Spanish and Quechua gathered via fieldwork in the bilingual community of Huari Peru this work provides some challenging answers to these questions Besides being the first detailed description of the prosody of a Central Quechuan language it provides an in depth study of the intonational systems and prosodic structures of the two languages and shows that their variation spaces overlap to a large extent in turns exhibiting or not exhibiting evidence of word stress pitch accents lexical pitch accents in loanwords and head or edge prominence

Learnability and Cognition, new edition Steven Pinker, 2013-05-24 A classic book about language acquisition and conceptual structure with a new preface by the author The Secret Life of Verbs Before Steven Pinker wrote bestsellers on language and human nature he wrote several technical monographs on language acquisition that have become classics in cognitive science *Learnability and Cognition* first published in 1989 brought together two big topics how do children learn their mother tongue and how does the mind represent basic categories of meaning such as space time causality agency and goals The stage for this synthesis was set by the fact that when children learn a language they come to make surprisingly subtle distinctions pour water into the glass and fill the glass with water sound natural but pour the glass with water and fill water into the glass sound odd How can this happen given that children are not reliably corrected for uttering odd sentences and they don't just

parrot back the correct ones they hear from their parents Pinker resolves this paradox with a theory of how children acquire the meaning and uses of verbs and explores that theory's implications for language thought and the relationship between them As Pinker writes in a new preface *The Secret Life of Verbs* the phenomena and ideas he explored in this book inspired his 2007 bestseller *The Stuff of Thought* Language as a Window into Human Nature These technical discussions he notes provide insight not just into language acquisition but into literary metaphor scientific understanding political discourse and even the conceptions of sexuality that go into obscenity

Categoriality in Language Change Lauren

Fonteyn, 2019-03-25 This book presents the first serious attempt to set out a functional semantic definition of diachronic transcategorial shift between the major classes noun nominal and verb clause In English speakers have different options to refer to an event ranging from that clauses That he had guessed her size over infinitives For him to guess her size and verbal gerunds Him guessing her size to nominal gerunds His guessing of her size and deverbal nouns His guess of her size Interestingly not only do these strategies each resemble prototypical nominals to varying extents but also some of these strategies increasingly resemble clauses and decreasingly resemble prototypical nominals over time as if they are gradually shifting categories Thus far the literature that has dealt with such cases of diachronic categorial shift has mainly described the processes by focusing on form leaving us with a clear picture of what and how changes have occurred Yet the question of why these formal changes have occurred is still shrouded in mystery In this book Lauren Fonteyn tackles this mystery by showing that the diachronic processes of nominalization and verbalization can also involve functional semantic changes in two steps First building on functionalist and cognitive models of grammar she offers a theoretical model of categoriality that allows us to study diachronic nominalization and verbalization not just as morphosyntactic but also as functional semantic processes Second she offers more concrete workable definitions of the abstract functional semantic properties of the nominal and verbal clausal class which are subsequently applied to one of the most intriguing deverbal nominalization systems in the history of English the English gerund
