New for 2023 Perfect for Grandfather clock owners or professional Clock Repairers Hundreds of photos and diagrams Do you  
own a clock that is special to you that has stopped working perhaps a gift or a family heirloom This book is for you Do you  
like to tinker with mechanical things This book is for you Have you taken a clock apart but can t get it back together This  
book is for you Are you fascinated with clocks have several you have bought but do not work This book is for you Be bold  
Take on your project This book will hold your hand every step of the way and guide you to success YOU CAN DO IT Why does  
a Grandfather Clock Stop Working Often the works are dirty need oiling or most likely both When the clock stops think of it  
as the oil light is on It s a cry for help Without oil the metal parts grind on each other causing serious wear and damage Oil  
also attracts dust which can make the oil gummy and add drag to its operation until it can no longer overcome the friction If  
a clock is oiled regularly every three to five years chances are you will only ever need to re oil your clock If the clock is  
allowed to run until it stops the only sure way to service it is to remove the works from its case dismantle the parts clean  
service and put the movement back together with fresh oil and correct adjustment This book will teach you how to do all this
