Google Speaks Janet Lowe,2009-05-04 In many ways Google is the prototype of a successful twenty first century company It uses technology in new ways to make information universally accessible promotes a corporate culture that encourages creativity among its employees and takes its role as a corporate citizen very seriously investing in green initiatives and

developing the largest corporate foundation in the United States Following in the footsteps of Warren Buffett Speaks and Jack Welch Speaks which contain a conversational style that successfully captures the essence of these business leaders Google Speaks reveals the amazing story behind one of the most important new companies of our time by exploring the people and philosophies that have made it a global phenomenon in less than fifteen years Written by bestselling author Janet Lowe this book offers an engaging look at how Google s founders Sergey Brin and Larry Page transformed their vision of a better Internet search engine into a business colossus with about 16 billion in annual revenue Lowe discusses the values that drive Brin and Page for example how they both live fairly modest lives despite each having a net worth in excess of 15 9 billion and details how they have created a culture that fosters fun while at the same time keeping Google at the forefront of technology through relentless R D investments and imaginative partnerships with organizations such as NASA In addition to examining Google s breakthrough business strategies and new business models which have transformed online advertising and changed the way we look at corporate responsibility and employee relations Lowe explains why Google may be a harbinger of where corporate America is headed She also addresses controversies surrounding Google such as copyright infringement antitrust concerns and personal privacy and poses the question almost every successful company must face as Google grows can it hold on to its entrepreneurial spirit as well as its informal motto Don t do evil What started out as a university research project conducted by Sergey Brin and Larry Page has ended up revolutionizing the world we live in Google Speaks puts these incredible entrepreneurs in perspective and shows you how their drive and determination have allowed them to create one of today s most powerful companies

*America, the Owner's Manual* Bob Graham,Chris Hand,2016-07-15 In 2016 Americans fed up with the political process vented that frustration with their votes Republicans nominated for president a wealthy businessman and former reality show host best known on the campaign trail for his sharp rhetoric against immigration and foreign trade Democrats nearly selected a self described socialist who ran on a populist platform against the influence of big money in politics While it is not surprising that Americans would channel their frustrations into votes for contenders who pledge to end business as usual the truth is that we don t have to pin our hopes for greater participation on any one candidate All of us have a say if we learn master and practice the skills of effective citizenship One of the biggest roadblocks to participation in democracy is the perception that privileged citizens and special interests command the levers of power and that everyday Americans can t fight City Hall That perception is undoubtedly why a 2015 Pew Charitable Trusts survey found that 74 percent of those Americans surveyed believed that most elected officials didn t care what people like them thought Graham and Hand intend to change that conventional wisdom by showing citizens how to flex their citizenship muscles They describe effective citizenship skills and provide tips from civic experts Even more importantly they offer numerous examples of everyday Americans who have used their skills to make democracy respond The reader will see themselves in these examples of citizens who chose to be victorious participants rather than tranquil

spectators in the arena of democracy By the end of the book you will have new confidence that citizen participation is the lifeblood of America and will be ready to make governments work for you not the other way around Division of Planning
