In addition to the five main window types, Mac OS X also allows different windows, such as the Components window that's open in Figure 3-3. You can open and close them as needed by using the Window menu. With the tools at their own disposal, you'll apply color and shading to your models when you paint components, add shadows and texture effects, and create your scenes.

Although previous health research indicates that a diet of mostly whole grains can reduce a lot of the health benefits that are associated with eating meat, the study also revealed that diets of 25 percent whole grains and 75 percent meat can also reduce the risk of heart disease and cancer. "We found that the combination of meat and whole grains is important," said Dr. Willett. "It's important to eat a variety of foods, including grains, meat, and vegetables, and to eat them in moderation." The study also found that eating a diet of 25 percent whole grains and 75 percent meat can also reduce the risk of heart disease and cancer.

Wordfly's menu bar is styled with the word aspect, such as File, Edit, Window and Help. Wordfly's View menu is a little different from the ones in most programs (Figure 1.4). The View menu has items in the Wordfly window that you can show or hide, including things like drawing guides, are there, measurement tools and even different toolbars. If you're looking for tools that change your view of the drawing window, such as a View or Show tool, look under the View menu.
