Longman Academic Writing Series 4 SB with Online Resources Alice Oshima, Ann Hogue, Lara Ravitch, 2016-09-19

The Longman Academic Writing Series helps develop student writing from basic composition of sentences and paragraphs to academic essays and research papers. At each level, students are offered guidance in the complete writing process from prewriting to revision and are provided with clear explanations, extensive practice, and consistent coverage of sentence mechanics and grammar. Highlights: Step by step approach helps students produce a well organized, clearly developed portfolio that is the foundation of academic coursework. Realistic writing models guide writers while clear explanations supported by examples help students through typical rough spots. Extensive practice helps students assimilate writing skills to learn to write with accuracy and confidence. Timed writing activities provide a plan for writing paragraphs on tests. Interactive tasks such as pair and group work allow students to receive peer feedback on their individual writing. Level 5 offers more advanced guidance in the writing of essays and research papers. New Essential Online Resources include grammar for writing and sentence structure activities, teacher support material, teacher's manual, and assessments.

Longman Academic Writing Series, Level 4 Alice Oshima, Ann Hogue, Lara Ravitch, 2017 *ENGLISH WRITING*

DEVELOPMENT LIXIA WEI, 2018-02-13. English Writing Development 4MAT Learning Style and Thinking Visualization Strategies is designed as an introductory course in English writing for students, teachers, and all those who consider writing is important and fun. It is based on the author's own experience of teaching English writing to undergraduates who major in English and training students to participate in provincial and national English writing contests. Instead of showing the skeleton of writing to readers directly, the author integrates the 4MAT Process Approach that she has developed on the basis of the 4MAT learning style and the Process Approach into the design of the book, aiming to increase learners' motivation by answering why they should learn, what they should learn, how they should apply what they have learnt, and what if the situation changes in each chapter. With corpora, news, and students' work as resources to collect sample sentences, paragraphs, and essays, the author elaborates eight main aspects which are writing process, writing a paragraph, writing an essay, methods of paragraph development, types of clause, types of sentence, rhetorical devices, paraphrase, and summary. English Writing Development 4MAT Learning Style and Thinking Visualization Strategies is not only the ideal English writing textbook for students at different levels but also functions equally well as a self-tutoring textbook. The simple, reader-friendly explanations coupled with interesting and meaningful examples, figures, tables, and the checklists are of great help for the learners to make progress on their own. Armed with the strategies elaborated in the book, learners most probably will find that WRITING IS FUN.

Handbook of Research on Teacher Practices for Diverse Writing Instruction Hodges, Tracey S., 2022-05-20. The art and practice of writing is complex and multidimensional; students often apply unique writing styles. As such, educators must apply focused teaching methods to nurture these unique forms of writing. Educators must stay up to date with the practices

for diverse writing instruction in order to best engage with a diverse classroom. However, resources related to writing typically do not focus on the depth and breadth of writing, and there is a need for a resource that offers a comprehensive look at diverse writing instruction research. The Handbook of Research on Teacher Practices for Diverse Writing Instruction provides a rich discussion of the issues, perspectives, and methods for writing instruction currently in use, with an added lens focusing on diversity and equity. It provides unique coverage on the topic of writing instruction for practical implementation within the classroom setting. Covering topics such as student motivation, curriculum development, and content area instruction, this major reference work is an essential resource for preservice teachers, faculty, and administration of K-12 and higher education, academic libraries, government officials, school boards, researchers, and academicians. □□□□□ □□□,□□□□□ □,2015-10-28

Seductive Academic Writing Danyal Freeman, 2018-04-18 This volume teaches academics and graduate students how to write seductive academic prose by learning a literacy rarely taught in academic writing or style handbooks: to use literary devices and figures of speech to meet ideals of stylish communication and how these ideals and supposed literary techniques serve academic readers and writers. Part one explores the persistent problem of the bad academic writing style called academese and argues stylish academic writers avoid it by writing with figures of speech. Part two teaches and illustrates figures of speech seductive writers write into academic prose to convey the music and rhythms of good speech, cohesion, coherence, and storytelling, and the personality and passions of the author. Part three argues the academy will not heal itself of academese until academic writing pedagogies teach students to care enough for their readers to write with figures of speech that craft seductive academic writing.

Academic Discourse John Flowerdew, 2014-06-11 Academic Discourse presents a collection of specially commissioned articles on the theme of academic discourse. Academic Discourse brings together state-of-the-art analysis and theory in a single volume. It also features an introduction which provides a survey and rationale for the material, implications for pedagogy at the end of each chapter, topical review articles with example studies, a glossary. The breadth of critical writing and from a wide geographical spread makes Academic Discourse a fresh and insightful addition to the field of discourse analysis.
