Comparative Employment Relations in the Global Economy Carola Frege, John Kelly, 2013-07-24. Employment Relations is widely taught in business schools around the world. Increasingly, however, more emphasis is being placed on the comparative and international dimensions of the relations between employers and workers. It is becoming ever more important to comprehend today's work and employment issues alongside a knowledge of the dynamics between global financial and product markets, global production chains, national and international employment actors and institutions, and the ways in which these relationships play out in different national contexts. This textbook is the first to present a cross-section of country studies including all four BRIC countries: Brazil, Russia, India, and China, alongside integrative thematic chapters covering all the important topics needed to excel in this field. The textbook also benefits from the editors' and contributors' experience as leading scholars in Employment Relations. The book is an ideal resource for students on advanced undergraduate and postgraduate comparative programmes across areas such as Employment Relations, Human Resource Management, Political Economy, Labour Politics, Industrial and Economic Sociology, Regulation, and Social Policy.

The Spirit of Marikana Luke Sinwell, Siphiwe Mbatha, 2016-07-20. On 16th August 2012, thirty-four black mineworkers were gunned down by the police under the auspices of South Africa's African National Congress (ANC) in what has become known as the Marikana massacre. This attempt to drown independent working-class power in blood backfired and is now recognised as a turning point in the country's history. *The Spirit of Marikana* tells the story of the uncelebrated leaders at the world's three largest platinum mining companies who survived the barrage of state violence, intimidation, torture, and murder which was being perpetrated during this tumultuous period. What began as a discussion about wage increases between two workers in the changing rooms at one mine became a rallying cry for economic freedom and basic dignity. This gripping ethnographic account is the first comprehensive study of this movement, revealing how seemingly ordinary people became heroic figures who transformed their workplace and their country.

Murder at Small Koppie Greg Marinovich, 2016-02-03. The killing of thirty-four miners by police at Marikana in August 2012 was the largest massacre of civilians in South Africa since Sharpeville. The events have been covered in newspaper articles, on TV news, and in a commission of inquiry, but there is still confusion about what happened on that fateful day. In *Murder at Small Koppie*, renowned photojournalist Greg Marinovich explores the truth behind the Marikana massacre. He investigates the shootings near Wonderkop hill, which happened in view of the media, as well as the killings that happened beyond the view of cameras at a nondescript collection of boulders known as Small Koppie, some 300 metres away. Many of the men killed here were shot in cold blood at close range. Drawing on his own meticulous research, eyewitness accounts, and the findings of the Marikana Commission of Inquiry, Marinovich accurately reconstructs that fateful day as well as the events leading up to the strike and looks at the subsequent denials, obfuscation, and buck-passing by

Politics at a Distance from the State Lucien van der Walt, Kirk Helliker, 2022-08-23 For decades most anti capitalist and anti imperialist movements identified radical transformation with capturing state power The collapse of these statist projects from the 1970s led to a global crisis of left and working class politics But crisis has also opened space for rediscovering alternative society centered anti capitalist modes of bottom up change operating at a distance from the state These have registered important successes in practice such as the Zapatistas in Mexico and Rojava in Syria They have been a key influence on movements from Occupy in United States to the landless in Latin America to anti austerity struggles in Europe and Asia to urban movements in Africa Their lineages include anarchism syndicalism autonomist Marxism philosophers like Alain Badiou and radical popular praxis This path breaking volume recovers this understanding of social transformation long side lined but now resurgent like a seed in the soil that keeps breaking through and growing It provides case studies with reference to South Africa and Zimbabwe and includes a dossier of key texts from a century of anarchists syndicalists insurgent unionists and anti apartheid activists in South Africa Originating in an African summit of radical academics struggle veterans and social movements the book includes a preface from John Holloway
