Transformations in Social Science Research Methods during the COVID-19 Pandemic J. Michael Ryan,Valerie Visanich,Gaspar Brändle,2024-07-11 This volume explores how researchers made innovative use of online technologies to innovate define and transform research methodologies in light of the varying impacts of the COVID 19 pandemic especially

those related to the ability to conduct qualitative research The onset of the COVID 19 pandemic resulted in a radical shift in the way that people all over the world have been able to live work study and conduct their daily lives Academics and other professionals who routinely engage in research were no exception The sudden continued and uneven need for health mandates calling for physical distancing added a particular layer of complexity for those who used research methods that typically required face to face interactions Continued technological developments associated with the Internet had already given rise to ongoing debates on innovative methodological thinking and practices The COVID 19 pandemic has further accentuated how indispensable the internet has become for the private and public lives of those with access to it including for their employment education leisure and social interactions For those fortunate enough to have access to them communication software such as Zoom and Google Meet have also become indispensable digital resources for researchers seeking to continue conducting research during lockdowns and quarantines and beyond More than ever researchers are finding it useful even necessary to equip themselves with online research tools in order to be able to continue conducting their fieldwork Drawing on research and case studies from around the world this volume serves as a guidebook for those interested in attuning their own research methods to a world still struggling to grapple with the impacts of the COVID 19 pandemic

Leftovers Eleanor Barnett, 2024-03-14 A topical and richly entertaining history of food preservation and food waste in Britain from the sixteenth century kitchen to the present day In *Leftovers* Eleanor Barnett explores the many ingenious ways in which our ancestors sought to extend the life of food through preservation the culinary reuse of leftovers and the recycling of food scraps Embracing a broad historical lens the book spans Tudor household management the world changing inventions in food preservation of the Industrial Revolution from the tin can to artificial refrigeration the growth of public health initiatives and organised food waste collection in the Victorian era state promotion of thrifty eating during the two World Wars and the politics of food and packaging waste in the modern era of sustainability Opening a window on the everyday experiences of ordinary people in the past *Leftovers* reveals how factors such as religious belief class identities and gender have historically shaped attitudes towards food waste At a time when a third of the food we produce globally is wasted *Leftovers* links its central historical focus to humanitarian and environmental issues of urgent contemporary interest including climate change globalisation scientific advancement poverty and inequality

Economics in One Virus Ryan A. Bourne, 2021-04-07 A truly excellent book that explains where our pandemic response went wrong and how we can understand those failings using the tools of economics Tyler Cowen Holbert L Harris Chair of Economics at George Mason University and coauthor of the blog *Marginal Revolution* Have you ever stopped to wonder why hand sanitizer was missing from your pharmacy for months after the COVID 19 pandemic hit Why some employers and employees were arguing over workers being re hired during the first COVID 19 lockdown Why passenger airlines were able to get their own ring fenced bailout from Congress *Economics in One Virus* answers all these pandemic related questions and many more drawing on the

dramatic events of 2020 to bring to life some of the most important principles of economic thought Packed with supporting data and the best new academic evidence those uninitiated in economics will be given a crash course in the subject through the applied case study of the COVID 19 pandemic to help explain everything from why the U S was underprepared for the pandemic to how economists go about valuing the lives saved from lockdowns After digesting this highly readable fast paced and provocative virus themed economic tour readers will be able to make much better sense of the events that they ve lived through Perhaps more importantly the insights on everything from the role of the price mechanism to trade and specialization will grant even those wholly new to economics the skills to think like an economist in their own lives and when evaluating the choices of their political leaders
