sweeping and engaging overview of a fascinating story not yet widely known **Ypres** Mark Connelly, Stefan Goebel, 2018-11-10 In 1914 Ypres was a sleepy Belgian city admired for its magnificent Gothic architecture The arrival of the rival armies in October 1914 transformed it into a place known throughout the world each of the combatants associating the place with its own particular palette of values and imagery It is now at the heart of First World War battlefield tourism with much of its economy devoted to serving the interests of visitors from across the world The surrounding countryside is dominated by memorials cemeteries and museums many of which were erected in the 1920s and 1930s but the number of which are being constantly added to as fascination with the region increases Mark Connelly and Stefan Goebel explore the ways in which Ypres has been understood and interpreted by Britain and the Commonwealth Belgium France and Germany including the variants developed by the Nazis looking at the ways in which different groups have struggled to impose their own narratives on the city and the region around it They explore the city's growth as a tourist destination and examine the sometimes tricky relationship between local people and battlefield visitors on the spectrum between respectful pilgrims and tourists seeking shocks and thrills The result of new and extensive archival research across a number of countries this new volume in the Great Battles series offers an innovative overview of the development of a critical site of Great War memory

Shifting Lines, Entangled Borderlands Jan Musekamp, 2024-03-05 Tracing multiple mobilities entangled borderlands microhistory and space and human and nonhuman actors Jan Musekamp demonstrates how an inner Prussian railroad line turned into a transnational force overcoming borders and connecting Europeans in a time of rising nationalism Shifting Lines Entangled Borderlands investigates the dichotomy between a globalizing world and tighter border control in nineteenth century Central and Eastern Europe focusing on the Royal Prussian Eastern Railroad Ostbahn between the 1830s and 1930s The line was initially planned as a major internal modernizing project to connect Prussia's capital of Berlin to East Prussia's provincial capital of Königsberg today's Kaliningrad Soon the Ostbahn connected to the growing Imperial Russian railroad network thus becoming a backbone of European East West transportation in trade tourism technological exchange and migration The First World War temporarily disrupted and reconfigured existing networks adapting them to new political regimes and borders However World War II and its aftermath altered mobility patterns more permanently dividing not only the Ostbahn tracks but the whole continent for decades to come From border towns and major cities to unique structures such as stations or bridges this volume analyzes the obvious and not so obvious nodes of the Central and Eastern European rail network and the spaces in between
