

PURPOSE:

This document provides setup and operating instruction for M-III Mammography Systems and StereoGuide™ Systems that incorporate the Microprocessor Board (p/n: 1-003A-0205 Rev. B).

THE MICROPROCESSOR BOARD (1-003A-0205)

This Microprocessor Board contains several enhancements over older versions. The following instructs how to properly connect the monitor to the board, determine the switch settings, and operate the new features. Instructions for the existing Microprocessor Board functions can be found in the Service Manual that was shipped with the unit.

NEW FEATURES:

Besides the existing board functions, the new Microprocessor (p/n: 1-003A-0205) features:

- System and Calibration modes selectable by DIP switch settings.
- Circuitry for both VGA and MDA monitors.
- Ability to print hard copy of calibration values.
- System Backup Timer Test.
- Program Custom Film Types.

MICROPROCESSOR BOARD SETUP

After installing the new Microprocessor, perform the following setup procedures before turning the unit ON. Units shipped with the new Microprocessor Board are set up at the factory. Upon receipt, perform the following to verify the settings.

Connecting the Monitor Video Cable

The microprocessor board contains circuitry that supports both VGA and MDA type monitors. The following explains connecting the video cable to the Microprocessor Board.

1. Turn the unit off and remove the power cable from the wall receptacle. Remove the Operator Control Panel and hang it from the Console to access the Microprocessor Board.
2. If necessary, remove the existing Microprocessor Board (Section Five of the Service Manual), then install the new Microprocessor Board.
3. Determine the type of monitor used with the system (VGA or MDA). To do this, check the connector on the end of the video cable that fastens to the Microprocessor. Nine pin connectors indicate an MDA monitor, 15 pin connectors indicate a VGA monitor.
4. Attach the Video Cable to the video connector on the Microprocessor Board as follows:
 - a) For VGA monitors, attach the Video Cable to J221.
 - b) For MDA monitors, attach the Video Cord to J201.
