critics accusing them of betraying civic virtue and the public trust In fact Martin Gammon argues in *Deaccessioning and Its Discontents* deaccession has been an essential component of the museum experiment for centuries Gammon offers the first critical history of deaccessioning by museums from the seventeenth to the twenty first century and exposes the hyperbolic extremes of deaccession denial the assumption that deaccession is always wrong and deaccession apology when museums justify deaccession by finding some fault in the object as symptoms of the same misunderstanding of the role of deaccessions in proper museum practice He chronicles a series of deaccession events in Britain and the United States that range from the disastrous to the beneficial and proposes a typology of principles to guide future deaccessions Gammon describes the liquidation of the British Royal Collections after Charles I's execution when masterworks were used as barter to pay the king's unpaid bills as establishing a precedent for future deaccessions He recounts among other episodes U S Civil War veterans who tried to reclaim their severed limbs from museum displays the 1972 Hoving affair when the Metropolitan Museum of Art sold a number of works to pay for a Velázquez portrait and Brandeis University's decision later reversed to close its Rose Art Museum and sell its entire collection of contemporary art An appendix provides the first extensive listing of notable deaccessions since the seventeenth century Gammon ultimately argues that vibrant museums must evolve embracing change loss and reinvention
