ending drink but that's another story. My goal is to open one of your eyes to investing. Hopefully you will open the other eye. Then maybe with two eyes open you can create your path. What does this mean for investing? Simple: what goes up must come down. If you are juggling flaming knives, when one is tossed up, another is aimed at you. Now picture a trusted friend helping you with these flaming knives. Their job is to catch the knives and toss them in cold water to put out the flame. As it turns out, you can do this same thing with flaming stocks and their icy bitter twins. These types of stocks are played against each other. When one is up, the other is down. Play the downturn loser, not the winner. Why buy the inverse stock that is running up? You probably think it is a done deal. Buy the winner hitting 15% today. Hold till tomorrow. BUST. Often new traders have timing issues that cause them to enter into a position that suddenly drops after purchase. Instead, watch the inverse stock fall off the face of a cliff. Wait until the RSI is dirty low before buying in. Wait some more on purchasing the inverse until you see the running up stock flip, aka turn red or decrease in gains. The inverse chart will begin to show green tickers on the one day one minute chart. DO NOT PLAY INVERSE ETF'S ON ANYTHING BUT A DAY TRADE. You will lose everything and be stuck, bad, holding a LOSER for a long time. I've done this. Don't do this; it sucks watching a 100 stock go to 30. You can cut your losses and take it in the rear. Or bag hold for who knows how long. When investing, you want to wait for the potential purchase to show you its actual value. A Floridian will buy shrimp off of some dude's pickup truck, but we won't dangle our feet off a dock because we know the hidden dangers under the water. Just as in investing, there are dangers you can only see when you truly take the time to look. Or you learn first hand when you get bit in the ass by a stock you had no business buying without a clear cut plan of entry and exit. You must learn to see the stocks for what they are: a shell game.
