Rural regions are experiencing fundamental challenges to their ways of life and social fabric as traditional land based occupations are in decline and younger and better educated rural residents migrate to cities for greater work social and cultural opportunities Rural tourism offers a possible solution to the problems associated with lost economic opportunities and population decline that accompany the waning of agriculture Many governments and regional authorities have embraced rural tourism as an opportunity to bring new money into rural regions stimulating growth providing employment opportunities and thus beginning to halt rural decline However the possibilities of rural tourism to promote rural regeneration have been criticised for being over stated and unrealistic Rural tourism has frequently been found to under deliver in terms of expected economic benefits and job creation and may sometimes exacerbate local hierarchies and inequalities This edited collection questions the contribution tourism can and does make to rural regions Drawing on a range of geographically diverse research driven case studies the book is thematically organised to explore a variety of issues relevant to rural tourism from the perspectives of local communities businesses government policy makers and the tourists themselves **The Rough Guide to New Zealand** Catherine Le Nevez,Paul Whitfield,Tony Mudd,2012-09-03

Bodies Out of Bounds Jana Evans Braziel, Kathleen LeBesco, 2001-09-13 This is an exceptional collection the subject is of obvious importance yet terribly undertheorized and unexamined I know of no other work that offers what this collection provides Marcia Millman author of *Such a Pretty Face Being Fat in America* A valuable contribution to scholarly debates on the place of excessive bodies in contemporary culture This book promises to enrich all areas of inquiry related to the politics of bodies Carole Spitzack author of *Confessing Excess Women and the Politics of Body Reduction* This anthology includes a wide range of perceptive and original essays which explore and analyze the underlying ideologies that have made fat incorrect Echoing the spirit of the nineteenth century adage about children who should be neither seen nor heard some of the authors powerfully remind us that we keep bodies out of bound silenced and unseen unless of course we need to peek at the comic or grotesque Raquel Salgado Scherr co author of *Face Value The Politics of Beauty* Through textual analyses video film analyses television theory and literary theory this collection demonstrates the various ways in which dominant representations of fat and corpulence have been both demonized and rendered invisible This volume will be a crucial corollary to work on the tyranny of slenderness a collection of different perspectives on the fat body is sorely missing in women s studies communication and media studies Sarah Banet Weiser author of *The Most Beautiful Girl in the World Beauty Pageants and National Identity*
