New Mexico Jean-Luc E. Cartron, 2010-08-16 No book has ever before specifically focused on the birds of prey of New Mexico Both Florence Bailey 1928 and J Stokley Ligon 1961 published volumes on the birds of New Mexico but their coverage of raptors was somewhat limited In the ensuing years a great deal of new information has been collected on these mighty hunters distribution ecology and conservation including in New Mexico The book begins with a history of the word raptor The order of Raptatores or Raptores was first used to classify birds of prey in the early nineteenth century derived from the Latin word raptor one who seizes by force The text then includes the writings of thirty seven contributing authors who relate their observations on these regal species For example Joe Truett recounts the following in the chapter on the Swainson s Hawk From spring to fall each year at the Jornada Caves in the Jornada del Muerto Swainson s hawks assemble daily to catch bats The bats exit the caves actually lava tubes near sundown The hawks swoop in snatch bats from the air and eat them on the wing Originally from France Jean Luc Cartron has lived and worked on several continents finding his passion in the wide open spaces of New Mexico He became fascinated by the birds of prey and has studied their ecology and conservation for nearly twenty years *Raptors of New Mexico* will provide readers with a comprehensive treatment of all hawks eagles kites vultures falcons and owls breeding or wintering in New Mexico or simply migrating through the state This landmark study is also beautifully illustrated with more than six hundred photographs including the work of more than one hundred photographers and more than twenty species distribution maps **Raptor Research and Management**

Techniques Keith L. Bildstein, David Michael Bird, 2007 Think about how we know about past events in human history e g the expansion of the Roman Empire or the American Revolution What types of records document those events Now think about Earth s history specifically the past environmental or climatic conditions at times before recorded human history What

records might there be of such conditions Make a list of your ideas n assemblage of five major types of natural archives of Earth s environmental and climatic history What common feature s do each of these paleoclimate archives share an assemblage of 5 major types of natural records or archives of Earth s environmental and climatic history Just like a diary or other historical document the layers in these natural archives contain indirect evidence i e proxies about past conditions and events recorded in a sequential order The evidence is specific to a certain time period and may be general or very detailed depending on the rate that information was recorded The faster the rate at which the recorder grew trees and corals accumulated snow and ice or was deposited sedimentary sequences the more detailed the record is and the higher its resolution For example a record in which an annual signal can be observed has a very high resolution In contrast if the finest observable details are on the order of a million years then that record would have a low resolution
